A dividend of Six per cent interest on the outstanding certificates of profits will be paid to the helders thereof, or their legal representatives, on and after Tuesday the fourth of February next.

The outstanding certificates of the issue of 1962 will be redeemed and paid to the holders thereof, or their legal representatives, on and after Tuesday the fourth of February next, from which date all interest thereon will cease. The certificates to be produced at the time of payment and canceled.

A dividend of Forty per cent is declared on the net earned premiums of the Company for the year ending 31st December, 1907, for which, upon application, certificates will be issued on and after Tuesday the fifth of May next.

By order of the Board.

Value of property, over two million dollars. Price, circular and list of unsold maturities sent on application.

WESTLING, EMMETT & CO.

1125 Land Title Bldg.

Philadelphia

TO THE BONDHOLDERS OF THE

White Plains & Mamaroneck Tarrytown Railway Company

In view of the Court's authorization of Receivers' Certificates TO TAKE PRECEDENCE over the First Mortgage Bonds, also statements by the Receivers' attorney in court of the property's operation at GREAT LOSS, and of the early necessity for additional Receivers' Certificates for defraying operating expenses, also the large amount of unpaid accumulated taxes, which already possibly take precedence over the mortgage, and in view of the fact that on Wednesday, July 15, 1908, a motion before the Supreme Court for permission to give up certain important franchises (included under the mortgage) of the Railway Company on the Boston Post Road, covering a gross distance of about four miles, the undersigned, representing the largest interest in these Bonds, URGENTLY REQUEST the IMMEDIATE DEPOSIT of the above Bonds, in order o conserve the interest of the bondholders, and before more of the equilies of the property have been dissipated; and, in fact, before it is too late to conserve the present status of the bondholders.

SUTRO BROS. & CO.
44 Pine Street, New York.

In view of the URGENCY of the situation the Knickerbocker Trust Company, as Trustee of the Mortgage, desires to act in accord with the interests of the bondholders, and requests to be advised without delay of their instructions in the matter.

In the matter.

THE FINANCIAL SITUATION.

We may reaffirm, only with added emphasis, our opening remark of a week ago-that the current week furnishes continuing evidences of an improving business outlook. Were we required to epitomize the forces at work producing this result, we could not do better than to repeat what we in substance then said, that steel and copper, with their wide affiliations in and through so many trades, could not show the renewed strength they have done without stimulating all industries. They are fundamentals in business revival. Facts the "Iron Age" reports in some measure qualify the above; they are that the Steel Corporation is now operating only 55% of its capacity; that during the past week six blast furnaces have been started by subsidiary companies, reflecting increased requirements. In spite of the foregoing, a further curious circumstance is reported by the "Age"; it is that in the iron markets, though they have gained during the past few weeks and the gain has been maintained, "conditions are still far from satisfactory and at the present rate of progress it will take many months until we are back to the normal." Along with this summary of facts and forces is a sentiment and feeling of the general public that must be taken into the account. What we refer to is a generally prevailing belief that the United States Steel Corporation has so enlarged its facilities and hedged itself in with advantages for manufacturing steel that if the need arises it can put that metal on the markets of the world cheaper than any other producer.

With reference to the political outcome to which we referred a week ago, as being in the belief of the general public more promising than before the Denver Convention had finished its work-to just that extent we reaffirm our opinion of the situation. We are sorry not to be able to go farther and join fully in the belief that the work of defeating the Denver movement is as sure as the event of election day is. We would like very much to have the comforting assurance of the reasonable certainty Mr. James Speyer expressed in the fact that the American people never have elected a man like Mr. Bryan to the Presidency. and never will. We cannot help being of the opinion that the present job is a harder one than has ever before faced the Republican Party. It was not until the word "gold" was put into the party platform that a healthy, sound verdict on that vital subject was reached. Our weakness to-day consists in the doubt as to where Mr. Taft stands and for what. no doubt with reference to the dependable character of public opinion and public action in the United States when actually aroused and faced with a principle to fight for. But what are we to fight for in this case? Is it for Mr. Roosevelt's policies? We repudiate them. They are neither just nor practicable. If Mr. Taft is willing to bank on his own reserve of character, principles and achievements accumulated during a life of active work among the people, his success in November is assured. But if he is determined to masquerade as a poor copy of another man whose Policies have proved a dead failure, he had better look to his fences.

In connection with the proposed advance in railroad

article on a subsequent page, careful consideration should be given to some statistics relating to the railroads of the United States which the Inter-State Commerce Commission at Washington has made public this week. These figures are particularly useful at the present juncture, inasmuch as they serve to give an idea of the magnitude of the railroad industry and of the prominent part which it must necessarily play by reason of that fact in influencing and controlling business conditions generally. The statistics cover, not the fiscal year which has recently closed, but the year preceding-in other words, the twelve months ending June 30 1907-as it always takes a long time to compile the results. Thus we get a record of the conditions which existed before the great slump in business following the financial and industrial collapse of last October and November. We have taken occasion once or twice lately, in seeking to indicate the spending power of the railroads, to say that the yearly gross earnings of United States railways aggregated over 21/2 thousand million dollars. The statistical report now issued shows that the actual amount of the gross earnings from operations alone (that is, without counting income from investments) for the year ending June 30 1907 was \$2,589,105,578. This was an increase as compared with the twelve months preceding of \$263,340,411. The year before the increase had been nearly as large, and in the normal course the railroads in recent periods have been gaining regularly between \$200,000,000 and \$250,000,000 a vear.

We have only to turn back six years to the fiscal year 1901 to find annual gross earnings fully \$1,000,-000,000 less than they were in 1907. In other words, while in 1906-07 the railroads earned \$2,589,105,578 gross, in 1900-01 the total of their earnings was only \$1,588,526,037. In the two years from 1905 to 1907 alone, the addition to annual income was over 500 Now contrast this situation, million dollars. where the railroads were gaining \$250,000,000 a year, with the present situation, where they are losing at the rate of \$500,000,000 to \$600,000,000 a year, and we see revealed the cause which lies at the bottom of the present extreme prostration of our industries. If the normal growth in revenues had been allowed to continue, the railroads would at the present time be adding another \$250,000,000 to their yearly revenues; instead they are losing over \$500,000,000 per year. This is a difference in the huge sum of \$750,-000,000. With railroad spending power thus curtailed, can there be any wonder that it is difficult to revive business on any very large scale? Or can there be any doubt where the remedy must be applied to bring about a pronounced and permanent recovery?

Consider another feature of these railroad statistics. Consider the extent to which the roads furnish employment to the masses, both directly and indirectly. It appears that the number of persons reported as on the payrolls of the railways in the United States on June 30 1907 was 1,672,074. Business then was still exceedingly active. It would be interesting to have the record for a year later-on June 30 1908-with everything in a state of extreme depression. Ten years before, on June 30 1897, the aggregate of the employees was only 823,476. So in a decade the number has been more freight rates, which we discuss quite at length in an than doubled. The amount actually paid out in wages and salaries in the latest year was considerably over 1.000 million dollars, the exact figures being \$1.072.-386,427. But this shows only the amount paid by the railroads to their own employees. In addition, hundreds of millions are paid out in the purchase of fuel. materials and supplies, thus indirectly furnishing employment to other armies of men. On this point, it is only necessary to say that in 1907 aggregate operating expenses of all kinds were no less than \$1,748,-515,814. Even the amounts paid out for interest and dividends in the end reach the masses, since those receiving the same must pay them out again, after which the reproductive process is again taken up. In the last analysis, therefore, the whole of the \$2,589,105,578 gross earnings must be considered a fructifying and fertilizing agency, carrying benefits and profits in all directions. Manifestly, the flow and progress of such a beneficent stream should be strengthened in every possible way; and when, as happens at the present time, this stream has been obstructed and reduced to a low condition, the utmost endeavorshould be made to restore it to full vigor again.

We are glad to observe multiplying indications that the business community is appreciating the part played by railroad prosperity or adversity in influencing general trade prosperity or adversity. At the seventeenth annual conference of the Southern Wholesale Grocers' Association at Asheville, N. C., this week, President William Judson of the National Wholesale Grocers' Association read an address which contained some very pertinent remarks on the point referred to. Judson observed that railroads can be built only at large expense and the money must be supplied by the public. If a hostile attitude is steadfastly maintained against railroad enterprises, the purse strings of the investor will be tightly drawn against such enterprises and not only will no money be forthcoming for the construction of new and badly needed roads, but those in existence must languish and become inefficient through need of funds, while trade is paralyzed and the public suffers. "It should be remembered," said Mr. Judson, "that your money and mine and that of our neighbors invested in railroad enterprises constitutes a property right just as sacred as any other. It should also be well borne in mind that money invested in such enterprises takes a maximum hazard, while ordinarily reaping the minimum of return, and at the same time yielding the maximum of benefit to the publie at large." This is good, sensible advice and there cannot be too much of it.

Among the recent court decisions of an assuring character has been that of the United States Circuit Court at St. Paul in the suit involving terminal charges by the railroads at the Union Stock Yards at Chicago. Litigation over these terminal charges has been in progress for a long time. Originally, the Inter-State Commerce Commission held that the railroads had no right to impose a terminal charge at all at the Stock Yards. In this it was overruled by the United States Supreme Court. The Commission then held that granting the roads the right to impose a terminal charge, a rate of \$2 a car at the Stock Yards was unreasonably high, and accordingly the roads were ordered to reduce the charge to \$1 per car. The roads went into court a second time and the Inter-State Commerce Commission has amount somewhat in excess of that of last week,

again been overruled. The opinion was handed down two weeks ago. It is pointed out by Judge Adams that the terminal charge for the transportation of these cars from the termini of the railroads to the Stock Yards, over the tracks of the Union Stock Yards Co., was required by the Acts of Congress to be stated separately by the railroad companies, and they accordingly complied and scheduled it separately. The conclusion is reached by the Court that the terminal charge of \$2 per car for transferring the cars over the tracks of the Union Stock Yards Co. to the Stock Yards and returning the same to the roads is a reasonable charge, and a reduction of it to \$1 per car would make it unreasonably low. It had been contended on behalf of the Inter-State Commerce Commission that it was immaterial if the rate itself was a paying one, but the Court would not assent to this proposition, and laid down the rule that it was not indispensable to the correction by the Federal Court of an error of law into which the Commission had fallen, whereby a specific charge is made unreasonably low, that the aggrieved party should prove that the effect of this unreasonably low rate would be to make its entire business unprofitable. It was enough that the reduced rate was unjust and unreasonable.

One incident of the week was the export on Thursday of \$1,000,000 in gold bars to Paris. This movement, however, had no particular significance, for it did not seem to indicate a resumption of gold shipments in volume to the French capital; moreover, it was a direct export in lieu of exchange because bills could not be as cheaply procured. During the past few weeks sight francs have been maintained in our market at rates quite close to the goldexport point and the demand for remittance to Paris has heretofore been met with such exchange; possibly had bars been procurable, the metal would have been forwarded at an earlier date in lieu of bills, on occasions when the inquiry was most urgent, though not so great as to justify shipments of coin. This week advantage was taken of the accumulation of bars at the New York Assay Office to procure them for direct remittance, and hence their export. The facilities at the Assay Office for the manufacture of bars are so limited as to make it unlikely that a new supply can soon be obtained, and as their procurement at the Philadelphia Mint would involve too great cost, and, furthermore, as coin would not be acceptable to shippers, presumably for the present, no further exports of gold will be made to Paris, unless, peradventure, a dearth of French exchange should prevail.

The requisition by the Secretary of the Treasury for the surrender by depositary banks of 45 million of public funds became effective on Wednesday. Last week, in anticipation of the maturity of the call, about 71/2 millions of such deposits were surrendered for the account of New York depositaries and of those of their correspondents in the interior who preferred this method of surrender, through drafts upon their Metropolitan balances, to direct transmission of the funds to Washington. This week this process of surrender continued and it was estimated at the Sub-Treasury that by Wednesday an

or 81/2 millions, making altogether 16 millions, had been turned over to the Department through the New York office; the remainder was expected to be directly transmitted to Washington by the depositaries throughout the country or forwarded through convenient Sub-Treasuries. It is reported, however, that the amount of 45 millions originally recalled from the banks has been reduced to \$33,-279,270 by Mr. Cortelyou, because certain interior depositories protested against further recalls, representing that they were engaged in responding to withdrawals of funds for crop distribution, and, therefore, they desired to retain the Government deposits. It is understood that Secretary Cortelyou has also decided not to call any portion of the 3%s of 1908 for redemption. If so, and we have reason to believe it is so, this conclusion has been reached because the available cash balance may not be sufficient for such purpose, and possibly there may be some difficulty, as indicated above, in reinforcing such balance through recalls of public deposits.

Coincidently with these surrenders the Treasury disbursed at this center considerable amounts almost every day on account of new appropriations, mail transportation and for pensions, so that a large portion of the loss to the New York banks through the return of public funds was refunded to these institutions; this will partly account for the almost imperceptible effect upon the market for money resulting from withdrawals of Government deposits. The above noted disbursements for mail transportation and for pensions will probably be completed next week and thereafter until the beginning of the next quarter payments will be more normal and be confined to new appropriations. It is estimated though, on the basis of expenditures for one-half of July in excess of receipts, that the Treasury deficit for the month will be about 20 millions.

The cable this week, as has been the case at intervals in previous weeks, reported that negotiations were in progress for the issue by Russia of a new external loan for about 250 million dollars in Paris and London. Though this report is denied by the Russian Minister of Finance, it is regarded as probable that it has good foundation and that official confirmation is withheld awaiting the perfecting of details, including the adjustment of the terms of the issue.

The situation regarding the East River ferries seems at present to be one mainly of "impressions." Notices were posted in the ferry-houses some two weeks ago informing the employees that their services would not be required after the present month; but it is open to doubt whether the ferry managers really expect to cease operation or whether the declaration that they will do so is intended as a further constraint upon the city to do something. It seems that an Act was passed in the last session of the Legislature which empowers the city to take over, in October, such of these ferry lines as it finds necessary, and the Corporation Counsel, while falling back upon the permission so given, is of the opinion that nothing more definite than to wait can be done at present. Meanwhile nobody appears to believe that the ferries will really stop, and it is the impression that things will somehow rub on as probably, on how the "necessity" in the case is construed. As an aid to construing that, it might not be amiss to let operation stop awhile, and thus get some data for judging how indispensable these ferries actually are. Sometimes things which have been supposed impossible to do without prove much less so when brought to the test.

The question of at least comparative necessity continues to be pressed respecting a line still to be constructed-the Brooklyn Fourth Avenue subway. This stands now halted by the injunction obtained some weeks ago at the instance of the Comptroller, who declares that the road is not the most pressing in the list of projects and that he is officially bound to look after the municipal finances. Following that has come a judicial appointment of Mr. B. F. Tracy as referee to determine what is the present borrowing capacity, which is estimated by Mr. Metz at two millions and by his predecessor (who is intensely interested in the demanded subway) at sixty millions. What formal liabilities should not be rated as such, in the sense of the debt limit, but as practically representing self-supporting property, is a question which may be answered variously, as people are influenced by their optimism and by the degree of their interest in this or that project; but there is not the least doubt that any further commitment of the city's credit should be very cautiously considered for the present. Subways are desirable, though New York may be subway mad, as some have said; but it is a question of what need is paramount. By such a test the Fourth Avenue subway in Brooklyn hardly ranks at the head. It has been expected, and it has been laid out on paper, and active interests want it very much; of so much there is no question, but it is a line which would have to develop its own traffic and there is no evidence that private capital is ready to take the chances on it. The pressure for it by the persons who want it has gone so far as to set going a counter proceeding, the intent of which is to build a fire in the rear of the opposition by blocking all other operations that may be chargeable against the debt limit. This is at least an unusual step, and it is a serious question whether the city ought to be committed to a piece of construction which must depend on the traffic it creates.

The fact that some hundreds of persons calling themselves the Socialist Labor Party met in a hall in this city a week ago Sunday and made a nomination for President attracted scarcely any attention, but it serves at least to remind us of the numerical insignificance of such movements. In 1888, the so-called Union Labor ticket polled a little less than 151,000 votes in a total of nearly 111/2 millions. In 1892 it polled only a little over 21,000 out of a total of over 12 mil-In 1896 that vote rose again to just past 36,-000 out of a total of nearly 14 millions. In 1900, out of a total vote nearly the same as in 1896, that vote was only 133,026, of which 99,613 was on the separate Debs ticket. In 1904, with a total vote a little reduced, the Socialist Labor ticket polled about 53,000 and the Debs ticket 391,587, the two combined being less than 31/2% of the whole and not coming within a respectable distance of a plurality in a single State.

the impression that things will somehow rub on as they are for two months more. The action will turn, and does not show any marked growth; while the as-

sumption is that there has been of late years a large development of socialism, all over the civilized world. This being so, the logical conclusion is that the vote polled for the distinct ticket so labeled does not measure the number of voters of that feeling, an unknown number of them standing by their regular ticket. This very fact exhibits in a strong light the fallacy of the claim of Gompers (to which both parties, in Congress and out, have appeared recently to bow) that the labor vote is a unit and can be swung as the effective balance of political power, the size of it that is distributable being doubtless much overrated, as these figures indicate. It is not a unit, the workmen having their own predilections, by which they are moved as other people are; they may not all be of the Gompers way of thinking. Moreover, the labor union is a notorious tyranny, which the workman may often be rather glad to disregard when he comes to voting, although he may recognize his helplessness in respect to matters of wages and strikes.

The persons who nominated the Socialist Labor candidate on the 5th chose as their representative a man who is now serving a 25-years' term in Nevada for murder. This selection need not be discussed independently, but the person who named him to the meeting mentioned the fact that he is constitutionally ineligible, not having attained the age of 35. This selection was made defiantly, and the Constitutional disability was pronounced a matter of indifference to working people. It is fundamentally true-although not in the flippant and defiant sense intended by this speaker-that constitutions are for the people and the people do not exist for constitutions. The power which constructed such an instrument can change it, but only by the specific method prescribed. The wildest proposition yet broached could be regularly put into the Constitution, if it possessed the popular mind hard enough and persistently enough, and the sober minority would have to get on as best they might; but irregular shaping of constitutions is very much otherwise.

The significance of a Presidential nomination, made as formally regular and in avowed defiance of the Constitution, is suggestive in reminding us of the "constructions" with which the country has been threatened if the States failed in an asserted duty of theirs. When there is so much talk of constructive changes, and so much of stretching powers, and so much unconcealed disrespect for Constitutional limitations expressed in high quarters, with very little protest against it, how can we wonder that the example spreads? If sworn interpreters and defenders of the national organic law wear the duty so lightly, regard for it cannot be expected to grow and become general.

As he starts for Europe, Judge Gary of the United States Steel Corporation leaves as a benison another piece of optimistic forecast. It may very well be, as he says, that recent improvement in the business of his own corporation is largely ascribable to the result of the Chicago Convention. The country is thankful and reassured as respects coming off better than what, a month ago, seemed possible; moreover, since Mr. Taft's nomination, in the lack of any tolerable ticket against him, seems equivalent to election, the usual uncertainty of every fourth summer is absent.

But Judge Gary's declaration that the basic condi-

the people has been elevated is a piece of generality already familiar; it has been offered before, as an evidence that no serious or lasting harm has been done to business by the Governmental policy of attack. Enterprise, ingenuity and energy in the people; the desire to do the best for one's self; abundant natural resources and a favorable geographical position—these are undoubtedly a remaining and persistent part of the basic conditions. If multitudes have been thoroughly converted to the doctrine of a square deal, as Judge Gary affirms, it must have been by noting the absence of such a deal while hearing a frequent repetition of the phrase. For the idea of justice cannot be inculcated except by doing justice, and it is impossible to shut our eyes to the fact that President Roosevelt's policy has not done justice; it has been vengeful, discriminating, spectacular, and not in the best sense judicial. A keener appreciation that honesty is the best policy that is, that it is the most profitable in the long runmight be caused without any quickening of conscience, since honesty for policy's sake is merely refraining from evil doing through fear of consequences; therefore, we doubt whether it is at all true that "the moral tone of the whole people has been elevated." What has occurred to elevate it? Imposing enormous penalties upon a corporation, in a matter in which not even a technical offense has been proven, may gratify the desire for sensational news and the enviousness of human nature towards successful pursuit of business; but it has no tendency to raise the average moral tone, which, we think, remains about as it has been, except that faith in progress requires belief that the average standard of honesty is always slowly rising.

On the other hand, an indiscriminate denunciation of wealth as predatory, and an indiscriminate assault upon corporations, have a dangerously insidious tendency to lower public morals. For it is easy to convey, even without intending it or realizing it, the notion that property is a sort of robbery, and the capitalist has probably gotten his from his fellows by force or by some sharp trick. Make the average reader of newspapers feel that he has nothing at stake when aggregations of capital are attacked, and that he can enjoy the spectacle you suggest, and the demoralizing deduction that all people are about equally bad, only some manage to cover their tracks-make this the feeling of the average newspaper reader, does it not follow that the chief business of life is to get on and the worst sin is to let one's self be found out? When, by excessive prosecutions which are not visibly founded upon justice, people get habituated to the notion that rottenness is general, a serious harm may be done to moral standards, especially with the young.

Building construction arranged for in the United States during the half-year ended June 30 last reflects much more truly than could the data for monthly periods the extent to which a very important industry has been adversely affected by the changed conditions which have been so conspicuous a feature for some months past. A let-up in building operations was noticeable in the earlier months of 1907, continuing through the summer and early fall, but it was looked upon, and correctly so, as a natural reaction from the relatively extreme activity theretofore prevailing. But concurrent with the monetary troubles of the late tions of the country are sound and the moral tone of I fall of 1907 structural work fell off sharply, the outlay

called for by contracts entered into in December of that year and January 1908 being abnormally small. Month by month since then, however, the aggregate expenditure under the permits issued has gone on increasing, but in each case showing a pretty large percentage of decrease from the corresponding month of the previous year.

For June, the closing month of the half-year, the exhibit is much more satisfactory than for any preceding similar period since October of 1907. Contracts entered into during the month at 46 leading cities of the country call for the expenditure of \$54,472,130, an amount greater than in any month since June 1907, and only 10½ million dollars, or 15%, less than in that month. While this is not in any sense a favorable showing, it is certainly much more so than the declines, ranging from 25 to 44%, exhibited in preceding months of 1908. As regards the details for June, the most conspicuous feature is the increase in construction, as compared with a year ago, arranged for in the Borough of Manhattan. The outlay contemplated under the permits issued reaches \$16,182,715, as against only \$11,932,380 in June 1907, or a gain of 35%, and of this year's total it seems that no less than 10 1-3 millions is to be put in office buildings, or three and a half times the amount devoted to a like purpose in the month a year ago. The other boroughs of Greater New York, however, make an adverse showing, Brooklyn in particular, so that for the whole city there is a loss from last year of 13%. Even in Greater New York it is not expected that the additional work will progress rapidly enough to make much of an impression on the building supply trade before another spring, as stocks of material carried over are so large. In many other sections of the country there is an apparent improvement, as is evidenced by rather large percentages of gain or almost nominal losses compared with a year ago. Noticeable as recording heavy gains this year in June are Baltimore, Birmingham, Columbus (Ohio), Grand Rapids, Milwaukee, Paterson and St. Paul, and losses are relatively slight at Chicago, Philadelphia, Portland, Ore., Rochester and Seattle. Considered in its various aspects, the showing for June 1908, apart from the exhibit for the half-year, is looked upon as quite encouraging. The "American Contractor," upon which we have drawn for our data, speaks of it in that strain, and refers to the decrease in the price of structural steel as a favoring element in the situation.

Turning to the total results for the half-year of 1908, compared with the similar aggregate for 1907, the engagements for construction work at 54 leading cities is only \$216,196,744, against \$349,646,521 for 1907, or a decline of 38%, and compared with 1906, when the total was about \$380,000,000, the loss is fully 43%. It is furthermore to be noted that of the cities included in the compilation, embracing representative localities in all sections of the country, only six give evidence of greater activity this year than last. The six are Denver, where increased outlay of 44% has been arranged for; Syracuse, 43%; Paterson, 28%; Chattanooga, 11/2%; Kansas City, 7%, and New Orleans, 18%. At the same time, at Baltimore, Chicago, Duluth, Pittsburgh and San Antonio the falling off is practically nominal. On the other hand, the decrease of over 47 millions, or 42%, in expenditure for buildings in Greater New York (the drop being from 112

millions to 65 millions) is of decided importance. There have also been heavy declines at Hartford, 79%; Mobile, 76%; Reading, 75%; San Francisco, 57%, and Philadelphia, 39%.

The Bank of Belgium reduced its official rate of discount this week from $3\frac{1}{2}\%$ to 3%. With this exception there was no change in such rates by any of the European banks.

There were remarkable differences shown in the average and the actual exhibits of cash holdings and deposits of the Associated Banks last week and also in the reports of reserve and surplus. The average holdings of cash decreased \$5,684,700; the actual cash increased \$7,655,100. Deposits were augmented, according to the averages, \$7,829,400, while actual deposits increased \$20,706,100. The reserves decreased \$7,642,050 to \$47,053,250 as shown by averages; there was a gain of \$2,748,575 in reserve to \$50,063,925 as indicated by the actual statement. Public deposits decreased \$6,294,700, reflecting surrenders thereof in anticipation of the maturity on July 15 of the Treasury call. The average cash reserve in vaults of trust companies increased \$6,948,400. The withdrawal of this sum from the banks may account for the loss of cash shown by the averages; the decrease of 22 millions in deposits of trust companies, in other trust institutions and in banks probably caused the difference in the average and the actual deposits of the banks. The average expansion of \$14,616,300 and the actual increase of \$15,913,400 in loans most likely partly reflected transactions brought over from the previous week, when loans actually increased about 221/2 millions.

The market for money was only slightly influenced this week by the contraction in supplies resulting from the surrender of public deposits and also from the withdrawal of cash from the banks by trust companies for the reinforcement of their reserve in vaults, chiefly for the reason that the withdrawal of Government deposits was partly offset by large Treasury disbursements as above noted. The trust companies appeared to be in competition with banks in the time-loan branch of the market; they were also lenders on call of considerable amounts on which they were not receiving interest from their depositary banks. The stock market demand was quite moderate, largely because of the professional character of the trading, and commission-house borrowing was small, owing to the abstention of the public from participation in speculative ventures. Money on call, representing bank and trust company balances, loaned at the Stock Exchange during the week uniformly each day until Thursday at $1\frac{1}{2}$ to $1\frac{1}{4}\%$, averaging about $1\frac{1}{4}\%$; then the lower rate was 1% with no change in the average; banks and trust companies quoted the minimum. Time money was firm for the longer maturities, though, compared with last week, the rate for six months on good mixed Stock Exchange collateral was only ¼ of 1% higher. One feature was the loaning of funds for sixty to seventy-five days, or until October, when it is expected the grain and cotton distributing movement will be active. Another feature was the placing of foreign loans for three to four months at 21/4 @23/4%, and there were some purchases of commercial paper for London

account. Quotations for time loans for short maturities were $1\frac{3}{4}$ @ $2\frac{9}{6}$ for sixty and $2\frac{9}{2}\frac{1}{4}$ % for ninety days and $3\frac{9}{4}$ % for four to five months; the rate for six months was $3\frac{1}{4}$ %. Commercial paper was in good demand with a fair amount of offerings; rates were $3\frac{1}{2}$ @4% for sixty to ninety-day endorsed bills receivable and for four months' choice single names, while prime six months' paper and good unendorsed notes were $4\frac{1}{2}$ @5%.

The Bank of England rate of discount remains unchanged at 21/2%. The cable reports discounts of sixty to ninety-day bank bills in London 11/4@ 13/8%. The open market rate at Paris is 11/4@ 13/8% and at Berlin and Frankfort it is 27/8%. According to our special cable from London, the Bank of England gained £56,386 bullion during the week and held £37,823,994 at the close of the week. Our correspondent further advises us that the gain was due entirely to receipts from the interior of Great Britain, the net exports having been but £181,000. The details of the movement into and out of the Bank were as follows Imports, nil: exports, £181,000 (of which £100,000 to Sweden and £81,000 French coin), and receipts of £237,000 net from the interior of Great Britain.

The foreign exchange market was generally strong and moderately active this week because of a good demand and a light supply of bills. One noticeable feature was an unusual dearth of commodity drafts for the season; the export movement of grain is comparatively light, and shipments are largest from the ports of Montreal, Philadelphia and Baltimore. Were the exports more liberal, however, the volume of exchange resulting therefrom would, doubtless, be insufficient for requirements, for bills against grain do not greatly contribute to market needs. Until, therefore, cotton begins to move in quantity, the supply of commercial drafts must, it would seem, be small. Inasmuch as such drafts, when discounted, provide credits against which bankers draw their bills, the scarcity of discountable commercial exchange, or acceptances, directly affects the supply of long and short drafts, and even a moderate demand for remittance contributes to the maintenance of a firm tone. The business in our stocks in London is limited, owing to the inactivity in that market for railroad securities; this condition of the trading was indicated by the light balance in Americans at the London Stock Exchange settlement this week, and it has been observable also in recent semi-monthly adjustments disclosing quite moderate arbitrage operations which ordinarily result in the creation of a fair volume of bills. In other seasons, when normal conditions have prevailed, finance or loan drafts have been negotiated with more or less profit; now the somewhat doubtful exchange outlook discourages such operations, even though protection against adverse conditions of the market, when cover for such drafts mature, can be obtained through contracts for futures. Probably the exchange situation will not be clarified so as to give promise of satisfactory results of bankers' operations until the cotton-export movement shall begin; then commercial bills should be more plentiful, providing bases for bankers' exchange, so that a more normal situation will be established.

The export of \$1,000,000 gold to Paris this week makes a total of \$43,010,000 to all European centres since the movement began in April. It may be noted that this week Paris and Berlin bankers secured \$1,750,000 gold in London by purchase of Cape metal.

On Saturday of last week the tone was firm, especially for sight, and compared with Friday there was an advance therein of 5 points to 4 8695@4 8705; cables were 5 points higher at 4 8715@4 8725, and long 5 points lower at 4 8570@4 8575. On Monday short rose 5 points and cables 10 points to 4 8705@4 8710 for the former and to 4 8725@4 8730 for the latter, owing to an increased demand and a small supply; long was 5 points lower at 4 8565@4 8570. On Tuesday while long was unchanged, short was 5 points higher at 4 8710@4 8715 and cables 5 points at 4 8730@ 4 8735; francs and marks were strong at the maximum rates yet recorded. On Wednesday the market, though firm, was inactive, owing to the satisfaction of the demand for remittance, and the engagement, as above noted, of \$1,000,000 gold for export to Paris was the principal feature. Long rose 10 points to 4 8570@4 8580 and cables 5 points to 4 8735@4 8740, while short was unchanged. On Thursday long advanced 5 points to 4 8575@4 8585, short fell 5 points to 4 8705@4 8710 and cables 10 points to 4 8720@ 4 8730. On Friday short and cables fell 5 points and long was unchanged.

a The division (between gold and silver) given in our table of coin and buillion
n the Bank of Germany and the Bank of Belgium is made from the best estimate
we are able to obtain; in neither case is it claimed to be accurate, as those banks
make no distinction in their weekly returns, merely reporting the total gold and
silver; but we believe the division we make is a close approximation.

b The Austro-Hungarian Bank Statement is now issued in Kronen and Helle instead of Gulden and Kreutser. The reduction of the former currency to sterling Pounds was by considering the Gulden to have the value of 80 cents. As the Kronen has really no greater value than 20 cents, our cable correspondent in London, it order to reduce Kronen to Pounds, has altered the basis of conversion by dividing the amount of Kronen by 24 instead of 20.

d The total of gold in the Bank of Russia includes the balance held abroad that is, the amount held for Russian account in other Continental banks. The proportion so held, and consequently duplicated in the above statement, is about one-warter of the total.

The following gives the week's movement of money to and from the interior by the New York banks.

Week ending July 17 1908.	Received by N. Y. Banks.	Shipped by N. Y. Banks.		et Interior ovement.
Currency	\$10,234,000 1,106,000			\$4,177,000 260,000
Total gold and legal tenders	11,340,000	\$6,903,000	Gain	\$4,437,000

With the Sub-Treasury operations, the result is as follows.

Week ending July 17 1908.	Into	Out ef	Net Changes in
	Banks.	Banks.	Bank Holdings.
Banks' interior movement, as above	\$11,340,000	\$6,903,000	Gain \$4,437,000
Sub-Treasury operations	35,900,000	35,050,000	Gain 850,000
Total gold and legal tenders	\$47,240,000	\$41,953,000	Gain \$5,287,000

THE CONTEMPLATED ADVANCE IN RAILROAD FREIGHT RATES.

After months of what appeared to be desultory talk, the prospect of an advance in railroad freight rates has all of a sudden developed into a live question. The New York Central Railroad, it seems, has already filed a new tariff with the Inter-State Commerce Commission, increasing the rate on sugar between New York and Chicago from 26 cents per 100 lbs. to 28 cents and the rate on coffee between the two cities from 27 to 30 cents. The new tariffs on these articles go into effect Aug. 1, and it appears that the railroads which haul the two commodities from Southern ports are making corresponding advances, so that the existing conditions in the matter of competition will not be dis-Furthermore, in the Southwest a general advance of rates, affecting nearly all classes and commodities in what is known as Southwestern territory, is to become effective Aug. 10. Lastly, and undoubtedly most important of all, the Eastern trunk lines have been considering propositions for a moderate increase in class rates in the territory east of the Mississippi and north of the Ohio and Potomac rivers. Great prominence to this latter intention has been given the present week by the publication of the correspondence which has passed between Secretary James T. Hoile of the Manufacturers' Association of New York and Senior Vice-President W. C. Brown of the New York Central. It was the original purpose of the trunk lines to put the higher rates in force the first of October, but it is now stated that it will be physically impossible to prepare the new schedules before the 1st of December.

Shippers and manufacturers are antagonizing this proposed advance in freight charges. The position of the Manufacturers' Association is shown in the letter of Secretary Hoile already referred to. In the West the Illinois Manufacturers' Association has sent out a call for a meeting in Chicago on July 24 to take action with reference to the new freight tariff promulgated by the Southwestern Freight Association, and which, as noted above, will become effective Aug. 10. This tariff is said to show a general advance in joint freight rates for Texas of approximately 8%.

The position of shippers and distributers of goods in this matter is not difficult to understand. The country is in the throes of intense business depression, with the volume of trade only about one-half of what it was twelve or fifteen months ago, and with everybody economizing and retrenching down to the smallest detail in business affairs. Yet here comes a proposal to add to an important item in the cost of goods and products. Vice-President Brown shows that the proposed increase, while it would mean so much to the railroads by reason of the magnitude of their tonnage would cut only a triffing figure in the cost of

any given article. For instance, he calculates that a 10% increase in the present rate on woolen goods between New York and Chicago would add only 75 one-thousandths of a cent per yard to the cost of the goods at Chicago, making the increase in the cost of a dress of twelve yards only nine-tenths of one cent. Certainly, such an addition is trifling, and it does not seem as if it could involve any great hardship either to the consumer or distributer of the goods, whichever has to bear it.

On the other hand, it is easy to see that the situation of manufacturers and distributers at the moment is a trying and difficult one. Granting that in the end the higher freight charge will be "passed on to the consumer." it is by no means certain that for the time being the consumer can be made to pay it. The present is an era of declining prices in the business world, with competition more intense than in years by reason of the trade prostration, and at such a juncture prices of goods cannot readily be raised. Besides, consumers are not in position to pay higher prices. Their income, in a vast majority of cases. has been materially shortened, while hundreds of thousands of them are without any income at all, since they are out of employment. In these circumstances, it is conceivable that the manufacturer or distributer might himself have to bear the additional burden. While such a prospect in time of trade prosperity, when he was doing a large business, might not disturb him in the least, at the present moment, when he is doing nothing, the matter seems of portentous magnitude to him. It may add only a few hundred or a few thousand dollars to his yearly outlays, depending upon the extent of his shipments, and yet any increase at all at this juncture, when he is obliged to cut expenses in all directions, appears both incongruous and hard.

But while economic considerations of this kind seem to make the movement an unusually daring one, the arguments in favor of an advance are really overwhelm-The reason is that the railroads, owing to their prodigious operations, lie at the basis of all activity and prosperity. When their spending power is curtailed, either because of diminished capital contributions or shortened income, every branch of trade and industry feels the blighting effects. In the adverse legislation and crippling Governmental action of recent years, the railroads have been dealt a staggering blow. The fact that their revenues just now are falling away in a frightful way is not the only difficulty they have to contend with. That is bad enough, but a more serious matter is that their credit has been in large measure destroyed, and that the confidence of investors and capitalists in the security and stability of railroad properties—owing to the way in which they have been attacked and their earning power impairedhas been so deeply disturbed that the roads cannot command the capital needed to carry on their improvement and extension work. It is true that some new bond or stock issues are announced every week, but these are a mere drop in the bucket, comprising only gilt-edged securities like the Delaware & Hudson bond issue of this week.

and products. Vice-President Brown shows that the proposed increase, while it would mean so much to the railroads by reason of the magnitude of their tonnage, would cut only a trifling figure in the cost of syndicate formed in February 1906, and composed of

some of the most prominent banking houses in the country, to underwrite \$100,000,000 4% 30-year bonds of the American Telephone & Telegraph Co. (Bell companies), had been dissolved, and that of the entire \$100,000,000 but a trifle over \$10,000,000 had been placed among investors, the remaining \$90,000,000 being still in the hands either of the primary or junior underwriters.

With the railroads and other classes of corporations unable to raise new capital on any extensive scale, the orders for iron and steel have been reduced to almost nothing and the metal industries find themselves in a position where their capacity is employed to the extent of only 40 or 50%, and this, in turn, has caused idleness in countless other directions, diminishing the consumptive power of the whole population. On top of this, and chiefly as the result of the same circumstances, there comes the tremendous shrinkage in their revenues. As we showed last week, the May loss in gross on the Pennsylvania Railroad was at the rate of \$75,000,000 a year, and the loss on the New York Central system for the same month was at the rate of \$50,000,000 a year. For the railroads as a whole, the loss in May was at the rate of between \$500,000,000 and \$600,000,000, and the June result seems unlikely to prove any better. The situation thus is that, besides having their borrowing capacity in great part cut off, these fructifying agencies are having over \$500,000,000 a year less to employ in reproductive processes out of their income. Is it strange, under such circumstances, that the business situation does not mend?

The argument in favor of higher freight rates, therefore, derives its support from the fact that such action would almost immediately tend to restore confidence in railroad investments-demonstrating that if, through legislation and other causes, the expenses of the carriers were being augmented, at least they would be allowed to recoup themselves through better rates. As a consequence, they would be enabled to raise the new capital they so much need, and at the same time improve their earnings. In this way the wheels of industry would quickly be put in motion again at their old speed. The resulting benefits would accrue to all industries and to all classes of the population. In this sense, the assumption by merchants, producers, manufacturers or distributers of the burden of slightly higher freight rates would be a wise step, and in the interest of the whole community. Those bearing the burden would themselves be the largest gainers, because the benefits would come back to them multiplied many fold.

It is certainly imperative that something be done, and be done immediately, to place the railroads on a better basis. We have noted that railroad earnings are falling behind at the rate of over \$500,000,000 a year. At the same time, as a result of the events of recent years, railroad expenses have been enormously increased, and now that intense business depression has come, the railroads are almost powerless to help themselves. Mr. Brown, in the letter to the Manufacturers' Association, points out that the average wage paid to railway employees has in the last fifteen years shown an increase of 33 1-3 to 50%, while the average cost of almost every class of material that railroads consume in large quantities has increased from 50 to 100%. He gives numerous illustrations in

support of the statement. Taxes have increased from an average of \$179 per mile to an average of \$341 per mile, or approximately 95%. Becoming effective during the early months of 1907, increases in pay of railroad employees approximating \$100,000,000 per annum were made. This increase, Mr. Brown points out, was not voluntary on the part of the railroads, but was the result of weeks of conference between representatives of the roads and those of the employees, and finally of intermediation by Chairman Knapp of the Inter-State Commerce Commission and Commissioner Neill of the Bureau of Commerce and Labor.

Following this tremendous increase in wages, legislation by Congress and by a number of the States restricting the hours of labor of trainmen, enginemen, telegraph operators, block signalmen, employees of interlocking towers and others, made a further annual increase of approximately \$25,000,000 in the payrolls of the roads. Then the compensation of the railroads for carrying the mails has been reduced about \$10,500,000 per annum, and in the closing hours of the last session of Congress an Employers' Liability Act was passed applying only to railroad companies. This last seems likely to add untold sums to the annual outlays of the roads.

Thus, the railroads are reduced to the point where there must be either some moderate advance in rates or else a reduction in wages. This last involves the possibility of a strike, a situation which should at all hazards be avoided. Trade is bad enough in all conscience without adding to the intensity of the depression by provoking a strike on our great transportation lines in the year of a Presidential election, when passions are easily aroused and reason and common sense do not hold their customary sway over men's minds. But this argument concerning the wisdom of avoiding a cut in wages does not seem to appeal to the Manufacturers' Association. Secretary Hoile reasons that the manufacturers have the same trouble to contend with in their own business, and if conditions do not warrant existing wages, they ought to be reduced without much regard to the consequences. But there is really no analogy between the railroads and other industries in that respect. In the event of a strike in the case of any trade or industry, the effects would in large measure be confined to that trade itself. Not so a strike on the railroads. That would completely paralyze the country's means of transportation, and the loss and damage would extend to the whole range of industries and the whole business fabric.

There is another consideration that has an important bearing on the subject of a cut in wages and to which no reference is made either by Vice-President Brown or Secretary Hoile of the Manufacturers' Association. The railroads contemplated lowering wages last February, but they were told in unmistakable terms by President Roosevelt that no such thing could be thought of-that if action to that end were taken the Government had means at hand for castigating the roads which it would not fail to employ. Mr. Roosevelt's letter on that occasion to the Inter-State Commerce Commission, and the threat it conveyed, will always remain one of the important episodes in railroad annals. Altogether, therefore, the railroads have no alternative but to raise rates; and the benefits likely to flow from such action are so manifest that shippers, in their own interest, should place no obsta

cles in the way of the movement—the more so as during the last decade, while the cost of everything entering into the operating accounts of the roads has enormously increased, freight rates have either not increased at all, or have actually declined.

COURTS PROTECTING CONTRACTS AND PROPERTY RIGHTS.

We have several times during the course of the present year had occasion to point out that in the crusade against corporations and the wave of adverse legislation under which business interests have been swamped, the courts were standing firm in maintaining the obligation of contract and in upholding and protecting Constitutional rights. Numerous decisions of the U.S. Supreme Court-the country's highest and final judicial tribunal-in the early months of the year. were evidence of this and proved exceedingly reassuring at a time when invigorating tonic of that description was particularly needed. Further evidence of like character is coming to hand from week to week, though it is not possible to make room to record all the numerous instances of the kind that are occurring. The fact that the courts are proving the reliance expected is a feature of the highest importance, particularly as in the present Presidential campaign both the great political parties are committed to radical policies, some of which clearly involve violation of Constitutional safeguards and privileges, and we cannot be sure that an attempt will not be made by either one or both parties to carry these policies into effect.

It is our purpose to-day to call attention to just one new case that illustrates the point we have in mind. On Monday of this week the "Wall Street Summary" contained a five-line item of news saving that the suit of the Omaha Water Co. against the City of Omaha for hydrant rental from July 1904 to July 1905, involving \$100,000, had just been decided in favor of the company. This bit of news brings to mind the extensive litigation in which the company referred to has been involved during the last four or five years and the further fact that on each important point in the litigation the company has triumphed in the end, even though the lower courts almost invariably ruled against it. The Omaha Water Co., we believe, is the largest private water corporation in the United States, with the exception of the systems in operation at San Francisco and at Denver. It was organized back in 1879, and possesses, it is admitted, one of the best systems of water works in the country. It passed through financial difficulties before the city weighted it down with additional burdens and in 1896 was reorganized under the present name, the original name having been the American Water Works Co. It has about 11/2 million dollars of first and second preferred stock outstanding, on neither of which dividends have been paid for several years, and \$4,636,000 of bonds. Every dollar of this, we are told, represents an actual investment of cash, the common stock (authorized amount \$2,500,000) never having been issued.

This company has been subjected to treatment at the hands of the city authorities that has few, if any parallels, in the history of cases of that kind. In 1900 the city voted \$3,000,000 bonds to build

a system of water works of its own. This was done blindly, without any knowledge and without regard to what it would cost to build such a system. No further action in the matter was taken until in 1903 the Nebraska Legislature passed an Act which in effect required the city to buy or build a system of water works. Under the Act the city had to make its choice in thirty days. Accordingly on March 2 of that year, an ordinance was passed declaring it to be necessary and expedient to purchase the system operated by the Omaha Water Co. Under the contract with the water company, entered into in 1880, the city had the right to purchase and acquire the water works of the company, and a method of determining their value was provided in case the right or option should be exercised. The ordinance of March 2 1903 directed an appraisement to be made in accordance with such method.

Thereupon the water board of the city, having been created by the Legislative Act referred to and invested with authority in the premises, nominated an appraiser and the nomination was confirmed by the City Council. The water company named its appraiser and those two selected a third. The men were all hydraulic engineers. The appraisers organized by the election of one of their number as chairman and another as secretary. After three years' work, they submitted their report on July 7 1906, fixing the aggregate value of the property at \$6,263,295 49. The report was signed by two of the appraisers. The appraiser representing the city refused to concur in the report and in the value fixed therein, but gave no reason for his action.

As the city apparently wanted to get possession of the works for \$3,000,000, or considerably less than half their actual value, it found it convenient to refuse to be bound by this report or to accept the valuation named, raising the plea that the report should have been concurred in by all the appraisers. The water board, whose jurisdiction had in large measure superseded that of the City Council, rejected the appraisal. The company thereupon tendered a deed conveying the system of water-works to the city and demanded the payment of the appraised value. Payment being refused, suit was brought to compel the city to complete the purchase of the system of water-works in accordance with the contract. Judge Munger, however, in the Circuit Court for the District of Nebraska, dismissed the bill of complaint. The case was then carried to the United States Circuit Court of Appeals for the Eighth Circuit before Judges Hook and Adams, Circuit Judges, and Carland, District Judge. Here all the contentions of the company were upheld and the objections of the city overruled.

The opinion was by Judge Hook and the decision was handed down only a few months ago—in April 1908. On the point whether the refusal of one of the appraisers to concur defeated the appraisal, Judge Hook said that the rule is that when the subject of the inquiry or controversy is of a private character, all intrusted with the power of ascertainment or decision must agree unless it is otherwise provided by the interested parties. But it is equally well settled, he said, that when the matter in question is of a public concern, all being qualified and having assembled and acted, the finding or decision of a majority is a valid execution of the power. Continuing, he said;

"The provision of the ordinance of 1880 was intended to be a practical one and to be productive of an actual appraisal of the water-works. It was not intended that the appraiser selected by the city or the one selected by the company might at the last minute, when all the work was done, cause the appraisal to miscarry by mere refusal to join in the valuation found by the other two. The engineer named by the city acted with his associates through an expensive investigation extending over three years, and when the report was finally made up and signed he simply appended thereto the bare, unexplained statement that he did not concur in the report or in the values fixed. water board then resolved to reject the appraisal and to name a new appraiser in its behalf, though it cannot reasonably be anticipated that new appraisers would be more likely to agree unanimously. contemplated by the ordinance of 1880 that either party, the city or the company, could at will arbitrarily defeat the appraisal contracted for, and yet in practical effect that is what is contended.'

The various other objections raised by the city, some of them almost frivolous, were all declared by the Court to be not well founded.

In the meantime the city was engaged in the task of depreciating the value of the works. It withheld payment of hydrant rental amounting to \$100,000 a year and at the same time asked the company to put in additional hydrants, and when the company did not proceed with what the city authorities considered due expedition, it set up the claim that the company was violating its contract and therefore could claim no rights under the same. More than that, the water board on May 1 1905, claiming authority under the Act of the Legislature creating the board, undertook to reduce the rates which the company should charge to private consumers, though these rates had been specifically fixed in the original contract itself. Here again the Lower Court had dismissed the company's bill of complaint, but the United States Circuit Court of Appeals reversed its action, holding that the city ordinance allowing the city to charge the rates agreed upon constituted a contract by the city that the city would not reduce the rates below those specified during the term of the contract and any attempted reduction thereof by the city or its water board, under a law of the State, would impair the obligation of contract.

The Circuit Judges on this occasion were Sanborn, Hook and Adams, and Judge Sanborn, in speaking of the city's position in the matter, took occasion to say that, on the point whether an irrevocable agreement had not been entered into between the contracting parties, "counsel for the city present many plausible answers to this question with an ability and ingenuity that excite admiration." He then proceeded to demolish every point made on behalf of the city.

We have stated the city has been persistently with-holding hydrant rentals, making it necessary for the company to sue for the same. Including interest, the city is now indebted to the company in the aggregate amount of \$425,000 for hydrant rental from July 1 1904 to date. The company brought two actions against the city, the first for hydrant rentals for the six months ending Dec. 31 1904 and the other for like rentals for the six months ending June 30 1905. The aggregate amount claimed was \$94,240 and the interest carried it above \$100,000, as stated in the news item to which we have referred above. It has not been denied that the sums sued for were due and owing, but the city sought to avoid payment by setting up the

claim that the company had failed to install new hydrants ordered by the city and that while in the position of violating the contract it could not recover for the rentals of the hydrants it had installed. The Lower Court ordered a verdict against the company on that ground. Again the Circuit Court of Appeals reversed the judgment and laid down the following broad principles, the decision in this instance having been handed down on Nov. 8 last.

"A municipal corporation, in respect of its purely business relations as distinguished from those that are governmental, is held to the same standard of just dealing that the law exacts of private individuals. One party to a continuing contract of mutual and dependent covenants cannot require the other to perform executory stipulations while he persists in defaults and compels the other to seek the aid of the courts for compensation due for those he has already executed. (Construction Co. vs. Seymour, 91 U. S., 646; Cort vs. Ambergate, etc., Ry., 17 Q. B., 127.)"

Judgment having been reversed, the cause was remanded for a new trial and it is the result of this new trial which is recorded by the "Wall Street Summary" in its item of Monday.

Looking through these various proceedings, a per sistent attempt is evident to depreciate the value of the property, with the manifest purpose of acquiring possession at less than its true worth. First the city avails of an option it has under the contract to purchase the property and then refuses to be bound by the appraisement arrived at in accordance with the method provided in the contract. While the value of the property is still in process of determination, the city undertakes to cut down the rates which the company is allowed to charge to private consumers, also fixed in the contract. Then it withholds payment of hydrant rental year after year. If the company had been in poorer financial condition, this last step would have forced it to default in its payment of mortgage interest and have resulted in the foreclosure of the property and its sale at some low figure. This would have given the city the chance to acquire it at a small price. Whether so intended or not, that must have been the effect. Every honest and fair-minded person will rejoice that the effort failed. The company will probably have to get a separate judgment for each year's rental, but its rights are now clearly established. In the matter of the appraisement, the United States Supreme Court last month granted a writ of certiorari to re-hear the cause (the case not being an appealable one) but the company's counsel have not the least doubt that here, too, their position will be sustained.

FOREIGN TRADE OF THE UNITED STATES 1907-08.

A severe check in the volume of the foreign trade of the country, as a result of the financial disturbance of last fall, is the salient feature disclosed by the completed figures of exports and imports for the fiscal year ended June 30 1908. But those figures, considered as a whole, furnish a false idea of the decided drop in both the inward and outward movement of goods month by month since the cataclysm of October, by the distrust and doubt which reduced materially business and industrial operations.

carried it above \$100,000, as stated in the news item to which we have referred above. It has not been denied that the sums sued for were due and owing, but the city sought to avoid payment by setting up the

the calendar year 1907 it had made its impress on the import totals, and by February export aggregates began to decline. Import values of merchandise began to compare unfavorably with the corresponding period of the previous year as early as October and the decline in that and the succeeding two months was sufficiently great to wipe out the gains in imports in preceding periods, making the decline for the first half of the fiscal year 11 million dollars, compared with the like interval of 1906. The last half of the fiscal year witnessed month by month very heavy deficits compared with the same months of 1907, affording a total of imports for the full twelve months of only \$1,194,341,994, as against \$1,434,421,425 for 1906-07 and \$1,226,562,446 in 1905-06.

On the other hand, the outward movement of merchandise was of very heavy proportions throughout the fall and winter, the total exports for November December and January each exceeding 200 millions of dollars, a figure never before reached; the outflow of goods in February was also large. Export decreases from 1907 during the last four months of the fiscal year were important enough to overcome the balance accruing from earlier months and leave a small loss from 1906-07 of about 20 million dollars, the aggregate for the twelve months being \$1,860,799,097, which compares with \$1,880,851,078 in 1906-07 and \$1,743,864,500 two years ago. To indicate clearly the changes in our foreign trade movement we subjoin the following statement, showing the imports, exports and balances of merchandise, gold and silver, month by month and quarter by quarter, for the last two fiscal years. The compilation will repay careful

The foregoing, compilation after the full remarks that preceded it, hardly leaves a necessity for added exim 1907-08 than in 1906-07.

planation. We see by the turn affairs have taken in the more recent months that the state of our foreign balance does not stand as it has generally been assumed to be. Some of the details of our exports will be of interest. The exports of breadstuffs reached an aggregate value appreciably greater than in either of the four previous fiscal years, having been \$216,000,-000, against \$184,120,702 in 1906-07, \$186,468,201 in 1905-06 and \$107,732,910 in 1904-05, the favorable result being in considerable measure due to the better prices secured. Our grain crops were all more or less short in 1907, but nevertheless we sent out in the fiscal year just closed 101,000,000 bushels of wheat. against 76,509,423 bushels in the previous year, and for this year's shipments we received 99 4-10 cents per bushel, against only 78 7-10 cents a year ago. Of flour the 1907-08 outward movement was actually less than in 1906-07, the comparison being between 13,950,000 barrels and 15,584,667 barrels, but we received for it \$64,379,000, against \$62,175,397, owing to the higher average value-\$4.611/2 against \$3.99. Corn exports were lighter than in any year since 1902-03, having been only 52,800,000 bushels, against 83,300,708 bushels last year and 117,718,657 bushels in 1905-06; but this year's average export price was 64 3-5 cents as against 53 1-10 cents and 52 7-10 cents. Of oats, barley and rye the shipments were extremely small, but the prices realized per bushel were much greater than in the previous year. Cotton exports were below those for the previous year in both quantity and value, the aggregate shipments having been 7,434,600 bales, valued at \$437,800,000, against 8,708,469 bales and \$481,277,797 in 1906-07, and 7,050,856 bales and \$3,634,045,170 in 1905-06. Prices secured were very satisfactory, however, averaging 11.47 cents for the fiscal year 1907-08, and comparing with 10.65 cents and 11.03 cents.

Provisions shipments covered a value moderately less than in the previous year, having been \$193,000,-000, against \$202,392,508 in 1906-07 and \$210,990,065 two year ago. Exports of petroleum were conspicuously larger than in 1906-07, both the quantity sen out and its value making a new record, and standing at 1,359,000,000 gallons and \$103,000,000, against 1,185,202,449 gallons and \$84,855,715 last year, and 1,182,917,221 gallons and \$84,041,327 in 1905-06. The four leading items of exports (breadstuffs, cotton provisions and petroleum) furnish an aggregate value of \$949,800,000, or \$2,846,722 less than the same articles accounted for in 1906-07, leaving \$17,205,259 of the total loss of \$20,051,981 in merchandise exports to be made up by other commodities.

But the figures as to these other articles of export for the full fiscal year will not be available before the first of next month. The returns for the eleven months are at hand, however, and they indicate continued expansion in the shipments of many important items. Iron and steel manufactures, wood and manufactures, tobacco, copper, chemicals, coal and cars are some of the commodities exhibiting constantly enlarging export totals, and for some of them the 1907-08 increases were more notable than those for preceding years. But our shipments of cotton manufactures have fallen away greatly the past two years, dropping from 49 millions of dollars to 30 millions, and then to 22 millions, and exports of leather and cattle were smaller in 1907-08 than in 1906-07.

As regards imports, there is hardly an important commodity in the schedule that did not come in less freely in 1907-08 than in the preceding fiscal year. And where there are increases, they are so small as to be unimportant. Of copper the imports for the eleven months were 13 millions less than for the like period of the previous year. Coffee shows a decline of 12 millions, hides and skins 24 millions, india rubber 23 millions, wool 17 millions, sugar 11 millions, raw cotton 6 millions, iron and steel manufactures 12 millions, and so on through the list, with diamonds and other precious stones down to a total of 16 millions, against 40 millions and 37 millions respectively in the two preceding years.

We append a series of tables which have furnished the basis of the figures and remarks contained in the above discussion. They will be found useful for reference and as a matter of record.

RAILROAD GROSS EARNINGS FOR JUNE.

Railroad gross earnings for the month of June show no improvement over the very poor results for the months immediately preceding. Our compilations of course deal only with the roads furnishing early returns, comprising about 30 per cent of the mileage of the country—to be precise, roads which operated in June 1908 78,614 miles of line. These roads earned only \$46,515,462 gross in June 1908, as against \$58,800,434 in June 1907. The loss, it will be seen, was \$12,284,972, or, roughly, 21 per cent-in exact figures 20.89 per cent. On the face of the figures the showing is somewhat better than that recorded in our early compilation for May, covering pretty nearly the same roads, the ratio of decrease for that month having been 24.05 per cent. But if allowance be made for the fact that in May the roads labored under the disadvantage of having one working day less this year than last (owing to the month having contained five Sundays), whereas in June, on the other hand, they had one working day more (June 1908 having contained only four Sundays against five in June 1907), it will be seen

Possibly when our final compilations are made up and the roads not now represented in the tables are included, the showing will prove somewhat less adverse. This, however, is entirely a matter of speculation, and it is not at all certain that the actual outcome for the railroad system as a whole can ever be determined. For June is a month where the final figures are not always a true guide to actual conditions. It is the closing month of the fiscal year and the companies in revising the accounts for the twelve months make numerous corrections and revisions which are incorporated in the June figures; the effect of these revisions in one year may be to swell the total and the next year, perchance, to reduce it, or vice versa. This point does not come up in connection with the early figures, such as we deal with to-day, since these are based on the traffic operations alone in the two years. Not unlikely, therefore, the totals now submitted will be found to afford a better indication of the real comparison with last year than will the completed results when ready. At all events, no such qualifications attach to these early totals as must necessarily attach, for the reasons stated, to the final figures.

In the case of the individual roads or systems. there are instances where the June comparison is not nearly so bad as was the May comparison. But unfortunately these are offset by other instances where the June results have proved a great deal worse than the May results.' The Northern Pacific, for example, has this time been particularly unfortunate, its earnings having fallen behind \$2,-068,548, or 33 per cent. The great shrinkage on this road calls attention to the fact that, aside from the depression in trade, the roads had other adverse circumstances and conditions to contend with, some of them rather exceptional in character. In the Southwest and, indeed, in a good portion of the whole territory West of the Mississippi and Missouri rivers, the roads suffered from excessive rains and overflows, the tracks in the vicinity of Kansas City for many miles west being under water a good part of the time, interrupting freight operations and making the running even of passenger trains possible only with great difficulty and after long delays. The trouble also extended northward into Montana and the territory of the Northern Pacific Railroad. Just how far railroad traffic and railroad revenues were reduced through the circumstance noted it would be difficult to state, but there can be no doubt that the effect was to make the decrease heavier than it otherwise would have been.

It should also be noted that there was a considerable falling off in the grain movement over Western roads, as measured by the grain receipts at the primary markets, and likewise a falling off in the livestock movement over some of the Western roads. Per the contrary, Southern roads had the advantage of a somewhat larger cotton movement. Comparison of course is with earnings which had shown large increases in June for many years past. Thus in June 1907 our early statement, covering 93,854 miles of line, recorded an increase of no less than \$9,544,023, or 13.08 per cent and this followed \$8,-503,670 gain in June 1906 over June 1905. The in earnings the present time by the separate roads

that the result for June is actually worse than it was following is the June record, as disclosed by our early compilations, back to 1897.

Note: Neither the earnings of the Mexican roads nor the mining operations of the

The shrinkage in the Western grain movement was of large proportions and the falling off extended to each of the three leading cereals, namely wheat, corn and oats. Taking the figures for the four weeks ending June 27, it is found that the receipts of wheat, corn, oats, barley and rye at the Western primary markets aggregated only 34,312,962 bushels the present year, as compared with 52,947,204 bushels in the corresponding four weeks of last year. The falling off, it will be seen, was over 181/2 million bushels. The grain movement in detail, in our usual form, is set out in the statement we now present,

1908.----1,299,556 8,148,333 14,080,577 9,753,149 2,099,294 231,609 1907.----1,496,358 12,369,687 27,308,174 10,909,028 1,764,993 595,322 As far as the live-stock movement is concerned, the deliveries at the principal Western markets were heavier in the case of sheep, substantially the the same as last year in the case of hogs and considerably less in the case of cattle. In other words, receipts of sheep were 660,384 head, against 544,205; of hogs 1,693,532 head, against 1,683,492, but of cattle 603,878 head, against 673,092.

As to the cotton movement in the South, the figures show receipts of 237,892 bales at the Southern ports in June 1908, against 107,694 bales in June 1907 and 162,330 bales in June 1906. The shipments overland were 79,061 bales against, 52,979 bales in 1907 and 47,016 bales in 1906.

.....237,892 107,694 162,330 3,043,028 3,629,445 2,438,426 We have already indicated that the largest loss

6,903,975

is that of the Northern Pacific. But the Great Northern and the Canadian Pacific in the same part of the country also sustained large losses, that of the Great Northern reaching \$1,649,547 and that of the Canadian Pacific \$1,282,000. In other sections, too, the decreases have been heavy, though in some instances not so large as in the months preceding. Thus the Southern Railway earned \$879,724 less than in June last year, the Illinois Central \$820,-545 less, the Missouri Pacific \$740,000 less, the Louisville & Nashville \$546,052 less, the Wabash \$539,037 less, the Denver & Rio Grande \$439,000 less, &c., &c. In the following we show all changes for the separate roads for amounts in excess of \$30,000, whether increase or decreases. The striking fact is that there are no increases whatever for this amount and we may add that out of the whole 51 roads which have contributed returns, only five have an increase of any kind.

INTER-STATE COMMISSION RECOMMENDS UNIFORM BILL OF LADING.

The Inter-State Commerce Commission in a report made public on the 11th inst. approves and recommends for adoption a new uniform bill of lading. In its announcement bearing on the matter, the Commission points out that it does not undertake to prescribe the bill of lading, inasmuch as it is convinced that such action would exceed its authority. The report states, however, that it is understood that the bill recommended by it will be adopted by all the railroads in Official Classification territory, and its acceptance is urged upon the carriers in other portions of the country.

In order that new bills may be printed and those now on hand may be used, the Commission recommends that the uniform bill proposed be adopted from and after Sept. 1 The bill, it states, is intended to apply to the movement of miscellaneous freight and is not meant to take the place of bills now in use in connection with certain particular commodities, such as live stock, and perhaps perishable property. The official statement given out by the Commission with regard to the matter is as follows:

The Inter-State Commerce Commission to-day announced The Inter-State Commerce Commission to-day announced its report approving and recommending for adoption a uniform bill of lading. This proceeding was begun by the Commission in 1904 upon complaint of numerous shippers and commercial organizations in Official Classification territory. Upon the hearing at that time it was agreed that the matter was one for negotiation and settlement between the

various conflicting interests, and upon suggestion of the Commission a joint committee of shippers and carriers was appointed to formulate a suitable bill of lading and report the same to the Commission. During 1992 and 1997 and 199 Commission a joint committee of shippers and carriers was appointed to formulate a suitable bill of lading and report the same to the Commission. During 1906 and 1907 this committee held numerous conferences and gave the subject most careful attention. About a year ago the Committee submitted a bill of lading which appears to have been agreed upon and consented to by the original petitioners and substantially all carriers in Official Classification territory. Further public hearings were then ordered by the Commission in order that all shippers and carriers might present objections to the proposed bill of lading. While the fundamental features of the bill were not the subject of much dispute, there was considerable conflict of views respecting certain provisions of more or less importance, and the matter has been the subject of conference and correspondence almost to the present date.

One important improvement consists in the fact that under the new bill of lading two forms, printed in different colors, will be provided, one for "straight" and one for order" consignments. They will differ only on the face side, the conditions on the back being the same in each case. The main point in this connection is that the "order" bill will possess a certain degree of negotiability, while the "straight" bill will be non-negotiable. It is believed that this plan will in a large part meet the requirements of the banking concerns of the country, which advance vast sums of money upon bills of lading and are entitled to a reasonable measure of protection.

The bill of lading recommended by the Commission is, of

of money upon bills of lading and are entitled to a reasonable measure of protection.

The bill of lading recommended by the Commission is, of course, more or less of a compromise between conflicting interests, but it represents the most intelligent and exhaustive efforts of those who undertook its preparation to agree upon a bill of lading which should be reasonably satisfactory to the public and the railroads. It imposes obligations of an important character which carriers have not heretofore assumed, and retains exemptions to which some shippers may object. As the Commission is advised, it is in some respects less favorable to the shipper than the local regulaassumed, and retains exemptions to which some shippers may object. As the Commission is advised, it is in some respects less favorable to the shipper than the local regulations of one or more States, but is more favorable to the shipper than the local laws or regulations of most of the States. It is concededly a great improvement upon the bills now in general use and its adoption will be a long step toward uniformity, simplicity and certainty. It will likewise be a long step in the direction of fair dealing between shipper and carrier and may be confidently expected to remove much be a long step in the direction of fair dealing between shipper and carrier and may be confidently expected to remove much of the confusion which now exists and to measurably avoid the irregularities and injustices which have heretofore occurred. The Commission expressly retains the right, although approving the bill of lading conditions, to exercise its corrective authority as to any provisions therein which, under the test of experience, may be proper.

The two forms of the bill of lading accompany the Commissionless recommendation of the size of the

sion's announcement; one of these is to be printed in white, this providing for "straight," and the other to be printed in yellow, providing for "order" consignments. The chief difference lies, as stated above, in the fact that the "order" bill will possess a certain degree of negotiability, while the "straight" bill will be non-negotiable.

The following is the "order" bill of lading:

The following is the "order" bill of lading:

Rallroad Company.

ORDER BILL OF LADING—ORIGINAL.

Received, subject to classifications and tariffs in effect on the date of ue of this original bill of lading, at the property described below, in apparent good order, except as noted (contents and condition of contents of packages unknown), marked, consigned and destined as indicated below, which said company agrees to carry to its usual place of delivery at said destination, if on its road, otherwise to deliver to another carrier of ali or any of said property over all or any portion of said route to destine as indicated below, which said company agrees to carry to its usual place of delivery at said destination. It is mutually agreed, as to each carrier of ali or any of said property over all or any portion of said route to destine the conditions, whether printed or written, herein contained (including conditions on back hereof), and which are agreed to by the shipper and accepted for himself and his assigns.

The surrender of this original order bill of lading properly indorsed shall be required before the delivery of the property. Inspection of property covered by this bill of lading will not be permitted unless provided by law or unless permission is indorsed on this original bill of iading or given in writing by the shipper and in the original bill of iading or given in writing by the shipper of the bill of lading.

In connection with the name of the party to whom the shipment is consigned, the words "order of" shall prominently appear in print, thus:

"Counterstance of the bill of lading, such as name of destination, car numbers, routing, descr juden by the shipper and agent of the carrier lasting same, and space shall be provided for this purpose.

The detail arrangement respecting other matters that customarily appears on the face of the bill of lading, such as name of destination, car numbers, routing, descr juden as ritcles, weights, &c., will be prescribed by the uniform of ll of lading committee.

The e

follows:

Railroad Company.

BILL OF LADING—ORIGINAL—NOT NEGOTIABLE.

Received subject to classifications and tariffs in effect on the date of Issue of this original bill of lading atfromment of the property described below, in apparent good order, except as noted (contents and condition of contents of packages unknown), marked, consigned and destined as indicated below, which said company agrees to carry to its usual place of delivery at said destination. It is mutually agreed, as to each carrier of all or any of said property over all or any portion of said route to destination, and as to each, party at any time interested in all or any of said property, that every service to be performed hereunder shall be subject to all the conditions, whether printed or written, herein contained (including the conditions on back hereof), and which are agreed to by the shipper and accepted for himself and his assigns.

The bill of lading is to be signed by the shipper and agent of the carrier issuing same, and space shall be provided for this purpose.

The detail arrangement respecting other matters that customarily appear on the face of the bill of lading, such as name of destination, car numbers, routing, description of articles, weights, &c., will be prescribed by the uniform bill of lading committee.

The size of the bill of lading shall be 8½ inches wide by 11 inches long. Bills of lading covering what may be termed "straight consignments," being those other than "order consignments," shall be printed on winte namer.

paper.
Bills of lading other than those covering "order consignments" shall be stamped "not negotiable."

The following conditions will appear on the back of the bill of lading:

The following conditions will appear on the back of the bill of lading:

CONDITIONS.

Section 1. The carrier or party in possession of any of the property herein described sail be liable for any loss thereof or damage thereto. excession described sail be liable for any loss thereof or damage thereto. As the condition of the public enemy, quarantine, the authority of law or the act of default of the snipper or owner, of rot differences in the weights of each of odd, the public enemy, quarantine, the authority of law or the act of default of the snipper or owner, of rot differences in the weights of celes in cleavor weights. For loss or damage or delay caused by the occurring after forty-eight hours (exclusive of legal holidays) after notice of the arrival of the property at destination or at port of export off intended for warehouseman only. Except in case of negligence of the cerrier or party in possession (and the burden to prove freedom from such negligence shall be on the carrier or party in possession) the carrier or party in possession (and the burden to prove freedom from such negligence shall be on the carrier or party in possession shall not be liable for loss, diamage or delay occurring while the property entitled to make such request; or resulting from a defect or vice in the property or from riots or strikes. When his accordance with general custom, on account of the nature of the property, or when at the request of the property of the property or from riots or strikes. When his accordance with general custom, on account of the nature of the property, or when at the request of the property of from riots or strikes. When his accordance with general custom, on account of the nature of the property, or when at the request of the property of the property or decidence of the property o

charge to all other charges hereunder, and hold such property subject to a lien therefor. Nothing in this section shall be construed as lessening the time allowed by law or as setting aside any local rule affecting car service or storage.

Property destined to or taken from a station, wharf or landing at which there is no regularly appointed agent shall be entirely at risk of owner after unloaded from cars or vessels or until loaded into cars or vessels, and when received from or delivered on private or other sidings, wharves or landings shall be at owner's risk until the cars are attached to and after they are detached from trains.

Section 6. No carlettes of extraordinary value not specifically rated in the state of the cartieles of extraordinary value not specifically rated in the state of the articles are indorsed hereon.

Section 7. Every party, whether principal or agent, shipping explosive or dangerous goods without previous full written disclosure to the carrier of their nature, shall be liable for all loss or damage caused thereby, and such goods may be warehoused at owner's risk and expense or destroyed without compensation.

Section 8. The owner or consignee shall pay the freight and all other lawful charges accruing on said property, and, if required, shall pay the same before delivery. If upon inspection it is ascertained that the articles must be paid upon the articles actually shipped.

Section 9. Except in case of diversion from rail to water route, which is provided for in Section 4 nervol. It all or any part of said property is carried subject to the liabilities, limitations and exemption according to the such as the condition scentained in this bill of lading not inconsistent with such statutes or this section, and subject also to the condition that no carrier or party in possession shall be liable for any loss or damage resulting from the perils of the lakes, see or other waters; or from explosion, bursting of bollers, breakage of shafts or any latent defect in hull, machinery or appurtmance

ment.

Section 10. Any alteration, addition or erasure in this bill or lading which shall be made without an indorsement thereof hereon, signed by the agent of the carrier issuing this bill of lading, shall be without effect, and this bill of lading shall be enforceable according to us original tenor.

STATISTICS OF RAILWAYS IN THE UNITED STATES.

The Inter-State Commerce Commission has made public this week advance figures from its Twentieth Annual Statistical Report. The statistics cover the year ending June 30 1907 and are in the usual elaborate and comprehensive form, embracing such a multitude of details that it takes full twelve months to compile and print the report.

MILEAGE.

The report shows that on June 30 1907 the total single-track steam railway mileage in the United States was 229,-951.19 miles, or 5,588.02 miles more than at the end of the previous year. Substantially complete returns were rendered to the Commission for 227,454.83 miles of line operated, dered to the Commission for 227,454.83 miles of line operated, including 8,325.97 miles used under trackage rights. The aggregate length of railway mileage, including tracks of all kinds, was 327,975.26 miles. This mileage was thus classified: Single track, 227,454.83 miles; second track, 19,420.82 miles; third track, 1,960.42 miles; fourth track, 1,389.73 miles, and yard track and sidings, 77,749.46 miles. These figures indicate that there was an increase of 10,892.07 miles at the aggregate length of all tracks of which 2,998.55 miles. in the aggregate length of all tracks, of which 3,988.55 miles or 36.62%, represented the extension of yard track and sid-

The number of railways for which mileage is included in the report was 2,440. During the year railway companies owning 2,811.65 miles of line were reorganized, merged or consolidated. The corresponding figure for the year 1906 4,054.46 miles.

was 4,054.46 miles.

The report shows that for the year ending June 30 1907 the mileage of roads operated by receivers was 3,926.31 miles, or a decrease of 45.12 miles as compared with 1906.

The number of roads in the hands of receivers was 29.

EQUIPMENT

On June 30 1907 there were in the service of the carriers 55,388 locomotives, the increase being 3,716. These locomotives, excepting 1,237, were classified as: Passenger, 12,814; freight, 32,079, and switching, 9,258. The total number of cars of all classes was 2,126,594, or 167,682 more than for the year 1906. This rolling stock was thus assigned: Passenger service, 43,973 cars; freight service, 1,991,557 cars, and company's service, 91,064 cars. These figures do not include private cars of commercial firms or corporations.

figures do not include private cars of commercial firms or corporations.

The number of locomotives and cars in the service of the railways aggregated 2,181,982, of which 2,059,426 were fitted with train brakes, or an increase of 231,637 over the previous year, and 2,159,534 were fitted with automatic couplers, or an increase of 169,738. Nearly all the locomotives and cars in the passenger service had train brakes, and all but 58 locomotives in the same service were fitted with automatic couplers. Only 1.17% of cars in the passenger service were without automatic couplers. Substantially all the freight locomotives had train brakes and automatic couplers. Of 1,991,557 cars in the freight service on June 30 1907, the number fitted with train brakes was 1,901,881 and with automatic couplers 1,972,804.

EMPLOYEES.

EMPLOYEES.

The number of persons reported as on the pay-rolls of the railways in the United States on June 30 1907 was 1,672,074, which is equivalent to an average of 735 employees per 100 miles of line. As compared with the year 1906, these figures show an increase of 150,719 in the number of employees, or 51 per 100 miles of line. Of the employees, 65,298 were enginemen, 69,384 firemen, 48,869 conductors and 134,257 other trainmen. There were 53,414 switch tenders, crossing tenders and watchmen. The total amount of wages and salaries reported as paid to employees during the year ending June 30 1907 was \$1,072,386,427.

PUBLIC SERVICE OF RAILWAYS.

The number of passengers carried by the railways during the year ending June 30 1907 was 873,905,133, this item being 75,959,017 more than for the year ending June 30 1906. The passenger mileage, or the number of passengers carried 1 mile, was 27,718,554,030, the increase being 2,551,313,199passenger miles.

passenger miles.

The number of tons of freight shown as carried (including freight received from connections) was 1,796,336,659, which exceeds the tonnage of the year 1906 by 164,962,440 tons. The ton-mileage, or the number of tons carried 1 mile, was 236,601,390,103, the increase being 20,723,838,862 ton miles. The number of tons carried 1 mile per mile of line was 1,052,-119, indicating an increase of 69,718 ton miles per mile of line in the density of freight traffic.

The average revenue per passenger per mile for the year

The average revenue per passenger per mile for the year ending June 30 1907 was 2.014 cents. For the preceding year the average was 2.003 cents. The average revenue per ton per mile was 0.759 cents; the like average for the year 1906 was 0.748 cent. The earnings per train mile show an increase for both passenger and freight trains. The figures show an increase in the average cost of running a train 1 mile. The ratio of operating expenses to earnings for the year 1907 was 67.53%. For 1906 this ratio was 66.08%.

EARNINGS AND EXPENSES.

The gross earnings of the railways in the United States from the operation of 227,454.83 miles of line were, for the year ending June 30 1907, \$2,589,105,578, being \$263,340,411

greater than for the year 1906. Their operating expenses were \$1,748,515,814, or \$211,638,543 more than in 1906. Passenger revenue was \$564,606,343—increase, \$54,573,760; mail, \$50,378,964—increase \$3,007,511; express, \$57,332,931—increase, \$6.322,001; other earnings from passenger service, \$12,674,899—increase, \$1,360,662; freight revenue, \$1,823,651,998—increase, \$138,265,343; other earnings from freight service, \$6,113,648—increase, \$468,426; other earnings from operation, including unclassified items, \$74,346,795—increase, \$14,342,708. Gross earnings from operation per mile of line averaged \$11,383, the corresponding average for the year 1906 being \$923 less.

The operating expenses were assigned to the four general classes as follows: For maintenance of way and structures, \$343,544,907; maintenance of equipment, \$368,061,728; conducting transportation, \$970,952,924; general expenses averaged \$7,387 per mile of line, this average showing an increase of \$775 per mile in comparison with the year 1906.

The income from operation, or the net earnings of the rail-ways amounted to \$240,580,764. This average averaged

averaged \$7,587 per mile of line, this average showing an increase of \$775 per mile in comparison with the year 1906.

The income from operation, or the net earnings of the railways, amounted to \$840,589,764. This amount exceeds the corresponding one for the previous year by \$51,701,868.

The net earnings per mile of line for 1907 averaged \$3,696; for 1906, \$3,548, and for 1905, \$3,189. The amount of income attributable to sources other than operation was \$286,583,942. This amount includes the following items: Income from lease of road, \$124,705,781; dividends on stocks owned, \$88,523,952; interest on bonds owned, \$24,361,054, and miscellaneous income, \$48,993,155. The total income of the railways (\$1,127,173,706)—that is, the net earnings and income from lease, investments and miscellaneous sources—is the amount from which fixed and other charges against income are taken to ascertain the sum available for dividends. Such deductions aggregated \$677,712,518, thus leaving \$449,461,188 as the net income for the year ending June 30 1907 available for dividends or surplus.

The amount of dividends declared during the year under review (including \$49,297 representing other earnings to stockholders) was \$308,137,924, leaving as the surplus from the operations of the year ending June 30 1907 \$141,323,264. The surplus from operations as shown for the preceding year was \$112,334,761. The amount of deductions from income as stated above, \$677,712,518, comprises these items: Salaries and maintenance of organization, \$648,835; interest accrued on funded debt, \$344,242,617; interest on current liabilities, \$16,671,532; rents paid for lease of road, \$128,766,452; taxes, \$80,312,375; permanent improvements charged to income account, \$38,552,890; other deductions, \$68,517,817.

The preceding figures for the income and the expenditures of railway companies are compiled from the annual reports of leased roads as well as of operating roads, and include duplications in certain items of income and also of expenditures on account of the fact that, in general, the income of a leased road is the rent which it receives from its lessee. The statistical report includes, however, a summary which presents an income account for all the railways considered as a single system, from which inter-corporate payments are substantially eliminated.

ITEMS ABOUT BANKS, BANKERS AND TRUST CO'S.

-The public sales of bank stocks this week aggregate 96 shares, of which 75 shares were sold at the Stock Exchange and 21 shares at auction. Only one lot of trust company stock, amounting to 25 shares, was sold. A sale of 2 shares of stock of the Importers' & Traders' National Bank was made at 528-an advance of 18 points over last

A uniform bill of lading has been recommended for adoption by the Inter-State Commerce Commission. Details with reference to the action of the Commission will be found in an article on a preceding page.

-In its efforts to force the express companies out of the money-order field, the American Bankers' Association, through its Committee on Express Companies and Money Orders, is actively engaged in perfecting plans toward increasing its own money-order business. With this object in view, Thomas W. Lamont, Second Vice-President of the Bankers' Trust Co. of this city, sailed for Europe last week, to complete arrangements for the adoption abroad of these money orders of the Association. The orders are secured by the guaranty of the American Surety Co., and are redeemable at the Bankers' Trust Co.

In working out the development of its money-order business in this country, the Association plans to have the orders payable at par at any clearing-house bank in any city where such an organization exists, and the approval of the various clearing houses to such a plan is being sought.

Some time ago, it will be recalled, the American Bankers' Association brought an action against the express companies before the Inter-State Commerce Commission to contest their right to issue money orders. This action is still pending.

-The American Bankers' Association has put into operation its plan, decided upon at the spring meeting of the Executive Council, of issuing a monthly journal, devoted to the work of the Association and its committees, the first number of the publication having just made its appearance. Fred. E. Farnsworth, Secretary of the Association, is the publisher, Thomas B. Paton, General Counsel of the Association, is the editor, and W. W. Waine is associate editor. In the editorial remarks it is stated that the journal has been created to supply the need, which has for some time been felt, for a medium of publicity through which the members might be kept informed of the progress of the various lines of work undertaken in behalf of the Association. The initial number consists of forty pages, and in addition to paragraphs bearing on the various sections and committees, it contains other news of general interest to bankers, such as the list of newly elected officers of State banking associations, the dates of coming conventions of State organizations, remarks of A. Barton Hepburn on "Recognition by Congress of the Principles of Assets Currency," an extract from an article in "Scribner's" by Prof. J. Laurence Laughlin, of the University of Chicago, on the subject of "Guaranteeing Bank Deposits," &c.

—Owing to the increase in its business, the Liberty National Bank of New York (139 Broadway), of which Frederick B. Schenck is President, has added to its banking room a part of the main floor of the Washington Life Building adjoining, giving the institution a floor capacity of just twice its former size.

At a meeting of the directors of the bank held on July 2, Charles W. Riecks was appointed Cashier, which office he is to hold in addition to his present position as Second Vice-President. Henry S. Barton, who has been connected with the bank for a great many years, was appointed an Assistant Cashier. Mr Riecks held the office of Cashier for six years before being elected a Vice-President, and now takes up this added responsibility again, owing to the death of Mr. Lott on May 28.

.—Upon the retirement of John A. Noble last week as chief clerk of the Merchants' National Bank, his fellow employees presented him with a handsome gold watch, suitably engraved, the officers being the donors of the chain. As mentioned in these columns on Saturday last, Mr. Noble has been appointed an Assistant Cashier of the Night & Day Bank of this City, and began his duties at that institution on Monday. Mr. Noble has had a thorough bank education, having been with the Merchants' for the past twenty years, and previous to that was with the Importers' & Traders' National Bank for two years.

—The statement of the Fulton Trust Co. of New York (30 Nassau Street) to the State Banking Department under date of June 17th showed capital, surplus and undivided, profits of \$1,362,435—the highest in the history of the company. Deposits were reported at \$6,454,278, as against \$6,248,038 on March 25th last, while aggregate resources are \$7,829,213, as against \$7,521,509.

—The fourth installment of 10% due Aug. 15 to the depositors of the Lafayette Trust Co., under the resumption plan, was anticipated by a month, and made payable on the 14th inst. The previous installments were likewise anticipated.

—The People's National Bank of Brooklyn Borough, now in process of organization, is to locate at 1334-1336 Broadway. As heretofore noted, the institution is being formed with a capital of \$200,000, all of which is said to have been subscribed. George W. Spence, who was at the head of the old People's Bank of Brooklyn (taken over by the Union Bank in 1906), is to be President of the new bank, which is expected to open in August.

—The Homestead Bank of Brooklyn, which began business in July 1907, declared its first dividend this week, being 2%, payable Aug. 1.

—It is reported that Justice White, in the Supreme Court at Buffalo, on the application of Special Deputy Attorney General Henry W. Killeen, has dismissed the grand larceny indictment found against Arthur E. Appleyard in connection with the failure of the German Bank of Buffalo, which occurred in December 1904. Mr. Killeen, it is said, held that the death of Richard Emory, President of the bank at the time it failed, made it practically impossible to obtain a conviction of Mr. Appleyard. Furthermore, reports state, the depositors have agreed to accept \$10,000 in settlement of all civil and criminal liabilities against him.

-The National Deposit Bank of Philadelphia was closed by the Comptroller of the Currency on the 14th inst. and Milton C. Elliott was appointed receiver. The Acting Comptroller of the Currency is quoted as saying that the action was taken "because of persistent and continuous disregard of the requirements of the law with respect to the maintenance of lawful money reserve, and because of a generally unsatisfactory condition otherwise." The bank began business on Oct. 2 1905. It was organized with a capital and surplus of \$200,000 each by the late John F. Finney, a former Assistant Treasurer of the United States at Philadelphia. Following the death of Mr. Finney, F. M. Peet was elected President in May 1907. The deposits of the bank were given as \$672,059 on May 14 last, against which there was a cash reserve of \$126,786. The total liabilities on that date were reported as \$1,283,245. bank, it is said, was not a member of the Philadelphia Clearing-House Association. It was reported in Jan. that its President, Mr. Peet, was the purchaser of the holdings (2,000 shares) of C. W. Morse in the New Amsterdam National Bank, now in receivers' hands, but apparently the report had little, if any, foundation.

—The Philadelphia National Bank (organized 1803) is making extensive alterations to its banking rooms at Nos. 419, 421 and 423 Chestnut Street. The entire ground floor is being made into an immense room, which will give the institution just twice as much space as formerly. The last statement of this bank shows deposits of nearly forty millions of dollars (\$39,028,150). The aggregate resources are reported at \$45,471,981. Levi L. Rue is President; Lincoln Godfrey, Vice-President; Harry J. Keser, Cashier; and Horace Fortescue and D.S. Ludlum, Assistant Cashiers.

—A. D. Salee, for the last three years credit man of the Mellon National Bank, Pittsburgh, has resigned his connection with the institution to assume the advertising management of the Municipal & Corporation Securities Co. of Pittsburgh, Philadelphia and Chicago—one of the largest bond houses in this country. Mr. Salee made a distinct success of attracting new business to the bank by directing the advertising of the Mellon National Bank in conjunction with his work as its credit man. Mr. Salee was born and educated in Western Illinois, studied law in Iowa, learned salesmanship with R. G. Dun & Co., representing themfor seven years in Pittsburgh.

—W. W. Ramsey has been elected President of the German National Bank of Pittsburgh to succeed Ernest H. Myers, who died last month. A. A. Frauenheim and C. A. Fagan have been elected vice-presidents of the institution, and Robert E. Reed has been made an Assistant Cashier. Mr. Ramsey entered the employ of the bank as Cashier in 1899. He became Vice-President of the institution in January last.

—The Guardian Savings & Trust Co. of Newark, Ohio, has adopted its new title, namely, the Park National Bank, the change having been authorized by the Comptroller. The capital is \$100,000 and the officers are: A. G. Wyeth, President; A. R. Lindorf, Vice-President, and W. W. Gard, Cashier.

—The Franklin Savings & Banking Co. of Cleveland, Ohio, made an assignment on the 6th inst to W. D. Gray. The institution began business on March 21 1907. Its last statement, it is said, showed capital of \$25,000 and deposits of \$25,867. Its two Carroll County branches, one at Malvern and the other at Sherodsville, have also closed their doors.

—The directors of the Colonial Trust & Savings Bank, Chicago, have elected as Cashier, to succeed G. H. Coney, R. C. Keller. Mr. Keller has been Bank Examiner for several years, and as soon as he has completed the examinations now in hand, will assume the duties of his new office at the Colonial. His prior banking experience was sixteen years' connection with the First National Bank of Windom, Minn., and later as Cashier of the State Bank of Lexington, Ill.

—Officials of the Corn Exchange National Bank, Chicago, announce that removal to its new quarters in the bank's magnificent new "sky-scraper" on the other side of La Salle Street, will be consummated during the first week in August.

—The board of directors of the Continental National Bank of Chicago has appointed a committee to consider designs for a new modern building on the site of the bank's present structure. As tenants' leases do not expire until next May, nothing can be done towards razing the old building before that date. But it is conjectured that the Continental National will avail itself of the opportunity to secure the fine rooms on the bank floor of The Rookery to be vacated by the Corn Exchange National. Whether the new building of the Continental shall be monumental and devoted solely to the bank's uses, or a modern "sky-scraper," has not yet been determined. But in any event it is certain to be costly, conspicuous and convenient, and an architectural adornment to La Salle Street.

—It is reported that 500 shares of the \$1,000,000, capital of the State Bank of Chicago have been disposed of by the estate of former Vice-Preisdent Dwight at \$300 a share.

—The sentence imposed over a year ago on President Abner Smith and Vice-President Gustav F. Sorrow, of the failed Bank of America of Chicago, is upheld in an opinion handed down by the Appellate Court last week. Both had been adjudged guilty of misappropriating the funds of the bank and sentenced to a term of from one to five years in the penitentiary and a fine of \$1,000 each.

-To promote the practice of putting away regularly a portion of one's savings, the Union Trust Co. of Chicago, through its savings department, has issued a booklet containing a number of charts graphically portraying the growth of stipulated sums deposited monthly, ranging from \$1 to \$100 per month, for periods up to ten years. Several other charts showing the growth of "money earning money" are also given, one depicting the earning capacity of a \$100 savings account started at the birth of a child, and continued until the age of twenty-one and neither taken from nor added to. A page of the booklet is devoted to a brief sketch of the history and organization of the company, which dates back to 1869. The institution pursues the course of turning back into surplus a large percentage of its profits, which might be distributed in dividends, and points out that its entire surplus of \$1,-000,000 and all but \$125,000 of the original capital represents actual earnings. Its deposits now aggregate \$12,-000.000.

—The Northwestern National Bank of Minneapolis is reported to have disposed of the \$1,000,000 of new stock put out in connection with its consolidation last month with the National Bank of Commmerce. The issue increases the bank's capital to \$2,000,000 and its surplus from \$1,000,000 to \$2,000,000.

—Joseph U. Barnes, former President of the failed Minnesota Title & Trust Co. of Minneapolis, who had been convicted of grand larceny in connection with the suspension of the institution, was sentenced to two years' imprisonment on the 7th inst. He was released on his former bond of \$5,000 pending an appeal.

—The "Commercial West" states that the formal change in the management of the First National Bank of Sioux City, Iowa, attendant upon the retirement of President James F. Toy, and the acquisition of a majority of its stock by Edwin Tilden, was made at the recent semi-annual meeting. Ackley Hubbard was advanced from the vice-presidency to the presidency to succeed Mr. Toy. W. L. Montgomery was elected Vice-President to take the place of Mr. Hubbard, and L. S. Critchell was chosen Cashier to succeed J. Fred Toy; Fred W. Bland was made Assistant

Cashier. Mr. Toy, it is stated, retains a large block of stock in the bank and remains on the board, which has been increased from a membership of nine to fifteen. Mr. Critchell, the new Cashier, is Vice-President of the Live Stock National Bank of Sioux City.

—The following topics will be discussed at the annual convention of the Montana Bankers' Association, to be held on the 27th and 28th inst. at Billings: "Financial Legislation", by William B. Ridgely, President of the National Bank of Commerce of Kansas City; "The Lesson of the Panic", by George E. Roberts, President of the Commercial National Bank of Chicago; "Legal Tender Money", by Thomas H. Carter, U. S. Senator; "Insurance of Bank Deposits", by Harry Yaeger, Assistant Cashier of the First National Bank of Lewistown; and "Our Most Pressing Problem," by H. V. Alward, Cashier of the First National Bank of Kalispell.

-The National Bank of Wichita, at Wichita, Kansas, was placed in voluntary liquidation on the 6th inst.

—The Traders' Bank of Kansas City, Mo., is preparing to enter the national system, under the name of the Traders' National Bank. An application for its conversion was approved by the Comptroller of the Currency on July 6. The capital, now \$100,000, is to be increased to \$200,000.

—Charles Pasche has been elected President of the First National Bank of Buchanan County, of St. Joseph, Mo., succeeding Walter P. Fulkerson, resigned. It is understood that Mr. Fulkerson retains his stock interest in the bank, and will continue as a member of its board of directors. The new President, Mr. Pasche, is at the head of the St. Joseph Stock Yards Bank.

—The City National Bank of Memphis, began business on the 9th inst. as successor to the City Bank. The conversion of the bank is accompanied by an increase of \$100,000 in the capital, making it \$200,000. The institution transacts both a commercial and savings business. It is under the management of H. H. Crosby, President; T. J. Keyer and J. M. Speed, Vice-Presidents; William H. Kyle, Cashier; S. W. Portlock, Assistant Cashier and Jos. Townsend Manager of the Savings Department.

—The change in the name of the Citizens' Bank & Trust Co. of Chattanooga, Tenn., to the Citizens' National Bank, has become operative, the conversion of the institution having been approved by the Federal authorities on July 2.

—The Georgia Savings Bank & Trust Co. of Atlanta issued \$100,000 of new capital on June 1, in accordance with the authorization of its shareholders on April 16. The additional stock (1,000 shares) when full paid will give the bank a capital of \$200,000. The selling price is \$135 per share, payable 10% monthly, beginning June 1 1908. Many of the stockholders have already paid in full for their stock, so that the capital on July 11 stands at \$170,110, the surplus at \$59,539 and the undivided profits at \$4,880.

—A meeting of the stockholders of the Savannah Bank & Trust Co. of Savannah, Ga., has been called for July 20 for the purpose of considering and authorizing an increase in the capital, and determining the amount of such increase. The present capital of the institution is \$350,000.

-It is reported that controlling interest in the Merchants' National Bank of Savannah, Ga., has been secured by Leopold Adler, President of the Chatham Bank of Savannah, and his associates. The price paid for the stock is understood to be \$120 per \$100 share. A consolidation of the two institutions is reported as under way, the merger to be effected under the name of the Merchants' National, with Mr. Adler as President. W. M. Davant, Cashier of the Merchants, is to be Vice-President, and F. W. Clarke, Cashier of the Chatham, will be Cashier of the enlarged bank. J. A. G. Carson and J. F. C. Myers, respectively President and Vice-President of the Merchants, are to retire, as will also T. M. Cunningham Jr., Vice-President of the Chatham. The capital of the Merchants' will remain at \$500,000 and it is said that under the present plans the stockholders of the Chatham Bank (capital \$150,000) will have the privilege of taking \$110 for their holdings, or stock in the consolidated bank at \$120 per share.

—The stockholders of the First National Bank of Hattiesburg, Miss., (capital \$100,000) and the National Bank

of Commerce of that city (capital \$325,000) are to meet on the 27th inst. to act on the proposition of consolidating the two under the name of the First National Bank.

Under the name of the Whitney-Central Trust Savings Bank a new institution has been formed by the management of the Whitney-Central National of New Orleans to take over the deposits of the Central Trust & Savings Bank the directors of the latter having early this month approved a proposition for the disposal of its entire business and deposits to the Whitney-Central National. The action taken at the directors meeting, at which some 6,800 out of a total of 10,000 shares were represented, will be formally ratified by the stockholders on August 6. The deposits of the Central Trust represent its only liabilities. Its assets will be liquidated, and it is estimated that its stockholders will receive a total of about \$130 per share in liquidation. While the Central Trust & Savings Bank had in a measure been affiliated with the Whitney-Central National (having been organized in 1905 by interests in the latter) it was deemed advantageous to have allied with the national bank a trust company and savings bank owned entirely by the stockholders of the Whitney-Central National Bank. The latter pays to the Central Trust & Savings Bank (capital \$1,000,000) a cash premium of \$25,000, and sells to its shareholders 1,000 shares of the \$2,500,000 capital of the Whitney-Central National at \$190 per share. The Whitney Central Trust & Savings Bank has a capital of \$200,000. Its officers are the same as those of the Whitney-Central National, with Charles Godchaux, President; Sol Wexler and John E. Bouden Jr., Vice-Presidents, and H. O. Penick, Cashier. For the present it occupies the quarters of the Central Trust & Savings Bank, but will later remove to offices in closer proximity to the national bank.

-The resignation of I. H. Kempner as President of the Merchants' National Bank of Houston, Texas, was tendered at a meeting of the directors on the 3d inst., owing to his nonresidence in Houston and the pressure of other business interests. Camille G. Pillot has been chosen as the new President. J. T. McCarthy has been elected Cashier of the institution to succeed W. H. Hurley, who lately became Assistant Cashier of the National Bank of the Republic of Chicago. T. C. Dunn continues as active Vice-President of the Houston institution and Randon Porter remains as Assistant Cashier. Mr. McCarthy was Cashier of the Texas Bank & Trust Co. of Galveston.

-The London Paris National Bank of San Francisco succeeded to the business of the London, Paris & American Bank of that city on the 1st inst. The latter was a British corporation, and at a meeting of its shareholders in London last month it was decided to voluntarily liquidate the institution and to dispose of its assets to the new bank, incorporated under the laws of the United States. The London

Paris National Bank has a capital of \$2,500,000, and is under the management of Sigmund Greenebaum, President; H. Fleishhacker, Vice-President: R. Altschul, Cashier:

C. L. Hunt and A. Hochstein, Assistant Cashier. A consolidation has been perfected between the Miner's & Merchants' Bank of Los Angeles and the Bank of Los Angeles, the latter name being retained by the newly formed bank. The consolidating banks nau a capture each. The present paid-up capital of the new institution amount to \$300,000; the necessary legal formalities have not as yet, however, been taken, and the increased stock will not be issued for at least two or three months. officers of the enlarged bank are W. B. Ames, President; Jno. A. Pirtle, D. F. Hill, W. S. Collins and F. E. Fay, Vice-Presidents, and A. H. Lysle, Cashier.

-W. J. Bartnett, formerly Vice-President of the failed California Safe Deposit & Trust Co. of San Francisco, was sentenced to ten years' imprisonment on the 1st inst. The accused had been convicted on charges of embezzling \$31,700 of securities of the estate of Ellen M. Colton, of which he was special administrator.

-It is reported that plans for the absorption of the Bank of Havana by the National Bank of Havana at Cuba are The Bank of Havana was organized in 1906. It has a capital of \$2,500,000.

Monetarn Commercial English News

(Frem our own correspondent.)

London, Saturday, July 4, 1908.

The Bank of England directors made no change in their official rate of discount this week, which remains at 21/2 per cent. That a change cannot be long delayed, however, seems inevitable, as rates rule so low in the open market. The reason the Bank directors have hesitated to make a change is very plain if we examine the cause of the remarkable plethora of money in London at the moment. The causes of the falling off in trade are international. But the reason we have such an abundant supply of money in London at present is local instead of being general, as in a healthier state of the market it would be.

Practically what has happened is simply that the cottonspinners of Manchester, the cloth-workers of Bradford, and the iron-masters of the north and the midlands, have fallen into line with the southern and metropolitan trading classes, who have for some years now been suffering from slack trade. During the recent boom in the iron, steel and cotton trades, money was withdrawn from London for employment in the north, and now that that boom has come to an end, the local bankers find loans continuously being paid off and thrown upon their own hands. It is impossible to employ this money locally. It is sent to the capital as the most likely center to find employment. This, of course, always happens at the end of a trade boom. But usually we experience in London a large increase of capital from abroad. It is true that gold for a long time past has come in very large amounts to London. The whole of the South African consignment, for example, arrives week by week as regularly as the mail boat, but the misfortune is that we are totally unable to obtain any

And not only are we unable to obtain the new bullion consigned to London, but the new gold which arrives here as an exchange operation is immediately engaged for shipment to the Continent. Part of this gold is required for Germany. The German demand is quite understood and causes no real anxiety here. But the surprising part is the bidding on French account. The Bank of France holds the largest amount of gold, and has for some weeks past, that it has ever had at any time in its history. It was hoped a week ago, when the French exchange showed signs of improving, that the demand for Paris had come to an end, but although the French exchange on London does improve from day to day, advances are for the most part succeeded by declines, and the result is that the market, even yet, is not satisfied that the demand on French account will cease.

The Bank return itself is a colorless document, merely reflecting the ordinary movements incidental to the season. The reserve is 27 millions against 23¾ millions at this time last year. The only comment worth making, which is of more than local importance, is an increase of something over five millions in what are known as the "other" deposits. This is due solely to the heavy borrowings of the market in connection with the turn of the half-year, brought about by the absolutely indefensible policy of the joint stock banks and the finance companies in calling in loans for the purpose of making a good showing in their half-yearly statements. A year like last year, of course, it was inevitable that the market should have to borrow from the Bank to settle up the half-yearly accounts. But there is no sound economic reason why money should be almost unlendable at ¾ per cent.

Easy as is the condition of the money market, the Stock Exchange remains exceedingly dull. It would not be accurate to describe it as weak, but simply as lacking in support, both from professionals and from the public. International political questions are exceptionally serene. The Bank return itself is a colorless document, merely

The extreme popularity of our agreement with France is evidenced by the immense crowds who flock to the Franco-British Exhibition and any anxiety which might have existed in connection with the gravity of the Persian crisis is removed by the arrangement recently arrived at between this country and Russia, a highly favorable statement in connection with which, and the King's recent visit to Reval, was made by the Financial Secretary this week in Reval, was made by the the House of Commons. the

the House of Commons.

Although, however, foreign politics are not affecting markets, it is by no means certain that domestic affairs are quite so satisfactory from the Stock Exchange point of view. The Liberal Government has under discussion an eight-hour bill, and the impression is that if it passes it will greatly add to the embarrassment of our railways companies. As the difficulty of working our railways at a profit is already great enough, this not unnaturally checks

stock market enterprise. In connection with the troublesome question of transportation so far as it affects the
Metropolis, we have the announcement, this week of an
arrangement having been arrived at between the two principal omnibus companies serving the north of the river.
The agreement is to take the form of the old London General
acquiring the Road Car. Perhaps the best illustration
of the recent position of the transportation business in
London will be brought home to readers at a distance
when we say that the omnibus stock of the premier company has fallen from over 200 to 43.

The India Council offered for tender on Wednesday 10
lacs of its bills and the applications only slightly exceeded
2 lacs at prices ranging from 1s. 3 29-32d. to 1s. 3 15-16d.
per rupce. Applicants for bills at 1s. 3 29-32d. and for
telegraphic transfers at 1s. 3 15-16d. per rupee were allotted in full.

The following return shows the position of the Bank of

Messrs. Pixley & Abell write as follows under date of July 2:

July 2:

GOLD.—After satisfying India and the trade demand, there was nearly £1,000,000 available for export, and of this Parls took the larger share, some being taken also for Germany. There is no sign at present of the Continental demand coming to an end. Next week we expect £285,000 from the Cape and £100,000 from India. At the Bank, £10,000 has been received from South Africa and £5,000 has been withdrawn for South Africa, and £40,000 has been sold in French gold coin. For the half-year ending June 30 1908 the total imports of gold exceed those for the same period of last Syar by nearly £5, millions sterling. Arrivals—Cape, £1,023,000, 1000. Shipments—Bombay, £38,200.

Shipments—Bombay, £38,200.

SHLVER.—The market has shown a downward tendency, and, after touching \$411-164., we close to-night £413-164., with forward 1-164. higher. There has been very little demand except from speculators covering sales, while, on the other hand, China has been inclined to sell at about £36, and holders are losing confidence in the Indian demand lasting much longer. The price in India is Rs. 63 15-16 per 100 Tolahs. The India Council has allotted in bills on London £475,000 at 1s. 29-324. Arrivals—New York, £57,000 chill, £3,000; River Plate, £5,000; total, £218,500.

The guestatione for halling on a reconstruct a followed as followers.

Commercial and Miscellaneous News

GOVERNMENT REVENUE AND EXPENDITURES .-Through the courtesy of the Secretary of the Treasury, we are enabled to place before our readers to-day the details of Government receipts and disbursements for the month of May. From previous returns we obtain the figures for previous months, and in that manner complete the statement for the fiscal years 1907-08 and 1906-07. For statement of June 1907 see issue of July 13 1907, page 79. RECEIPTS AND DISBURSEMENTS (000s omitted).

Of the above imports for the week in 1908, \$72,347 were American gold coin and \$3,912 American silver coin. Of the exports during the same time, \$4,000 were American gold coin and \$00,000 were American silver coin.

Statement of New York City Clearing-House Banks.—The detailed statement below shows the condition of the New York City Clearing-House banks for the week ending July 11. The figures for the separate banks are the averages of the daily results. In the case of the totals, however, a departure was made with the statement of Feb. 8, so that in addition to the averages for the week the actual figures at the end of the week are now given.

We omit now ciphera (00) in all cases.

tories and other banks and trust companies in New York City," depo \$399,552,300, an increase of \$19,458,200 over last week's figures.

Note.—In the case of the Clearing-House banks, the deposits are "net" both for the average and actual figures; in all other cases "gross" deposits are shown. The Clearing-House actual fagures included United States deposits amounting to \$11,-051,500, a decrease of \$6,294,700 from last week, averages included United States deposits of \$12,680,000, a decrease of \$5,395,500 from last week.

deposits of \$12,680,000, a decrease of \$5,305,500 from last week.

"Reserve on deposits" includes, for both trust companies and State banks, not only cash items but amounts due from reserve agents, and in the case of trust companies includes likewise municipal bonds. State banks in New York City are required by law to carry a reserve amounting to 15% of deposits, while outside of New York City only 10% is required, which reserve in both cases need not be more than one-half in cash. Trust companies in Greater New York are required to keep a reserve of 15%, of which only 5% need be in cash and 5% more may be in municipal bonds, while in the case of the trust companies in the rest of the State the required reserve is 10%, of which only 3% need be in cash and 3% more may be in municipal bonds.

The State Banking Department also furnishes the following report for State banks and trust companies outside of Greater New York.

STATE BANKS & TRUST CO'S OUTSIDE OF GREATER NEW YORK.

Wall Street, Friday Night, July 17 1908.

Wall Street, Friday Night, July 17 1908.

The Money Market and Financial Situation.—Operations in Wall Street this week appear to reflect the more hopeful feeling which exists in the community at large. These operations have been smaller in the aggregate than last week, but the tone of the market is strong, and there are evidences of an investment demand which has been almost wholly lacking for a long time past. Prominent houses report a large increase in the number of people who are inquiring about bonds, and while actual sales are not yet large, negotiations are in progress and the outlook for business in the near future is decidedly better. The reasons for this change are generally well understood and need not be mentioned here.

are generally well understood and need not be mentioned here.

An interesting announcement of the week was the Government report on international trade for the year ending June 30. It shows a balance in our favor of nearly \$667,000,000, the largest in our history. The amount of gold imported, nearly \$150,000,000, has also never been equaled. The movement for the week has been in the opposite direction, however, \$1,000,000 having been shipped to France.

The local banks report a small loss to the Sub-Treasury, owing chiefly to the turning over of Government deposits by the banks. The latter's statement last Saturday showed a surplus reserve of over \$50,000,000.

The open market rates for call loans at the Stock Exchange during the week on stock and bond collaterals have ranged from 1% to 1½%. To-day's rates on call were 1¼@1½%; Commercial paper quoted at 3½% for endorsements and four months single names and 4½% for choice good]4 to 6 months unendorsed paper.

The Bank of England weekly statement on Thursday showed an increase in bullion of £56,386 and the percentage of reserve to liabilities was 50.38, against 49.23 last week.

The rate of discount remains unchanged at 2½% as fixed May 28. The Bank of France shows an increase of 3,775,000 francs gold and a decrease of 3,725,000 francs in silver.

Note.—The Clearing House now issues a statement weekly showing the total of the actual figures on Saturday morning. These figures, together with the returns of separate banks, also the summary issued by the State Banking Department showing the condition of State banks and trust companies reporting to the Clearing House appear on the preceding page.

showing the condition of state banks and trust companies reporting to the Clearing House appear on the preceding page.

Foreign Exchange.—The market was active and generally strong this week, owing to a good demand for remittance and a scarcity of bills, especially commercial drafts. Gold shipments \$1,000,000 to Paris.

To-day's (Friday's) nominal rates for sterling exchange were 4 86½ for sixty day and 4 88 for sight. To-day's (Friday's) actual rates for sterling exchange were 4 8575@4 8585 for long, 4 87@4 8705 for short and 4 8715@4 8725 for cables. Commercial on banks 4 8545@4 8555 and documents for payment 4 84¾@4 85½. Cotton for payment 4 84¾@4 84½, cotton for acceptance 4 8545@4 8555 and grain for payment 4 85½%@4 85½.

To-day's (Friday's) actual rates for Paris bankers' francs were 5 16½a@5 16½for long, and 5 15½d@5 15½for short Germany bankers' marks were 95 3-16@95½for long and 95 9-16d@95 9-16 for short. Amsterdam bankers' guilders 40 32@40 34 for short.

40 32@40 34 for short.

Exchange at Paris on London to-day 25f. 12c.; week's range 25f. 13c. high and 25f. 11½c. low.

The following were the rates for domestic exchange on New York at the undermentioned cities to-day: Savannah buying 50c. per \$1,000 discount; selling 75c. per \$1,000 premium; Charleston selling \$1 per \$1,000 premium; New Orleans bank 50c. per \$1,000 discount; commercial 75c. er \$1,000 discount; Chicago 15c. per \$1,000 premium; pt. Louis 25c. per \$1,000 premium; San Francisco 80c. Ser \$1 000 premium.

State and Railroad Bonds.—Sales of State bonds at the Board are limited to \$1,000 New York State 4s at 109½. The transactions in railway and industrial bonds were restricted early in the week but increased steadily. Low-priced issues are still conspicuous, but there is reported to be more investment inquiry and high-grade bonds are

to be more investment inquiry and high-grade bonds are receiving some attention.

Delaware & Hudson refunding 4s, when issued, have been quite heavily traded in with only a fractional change in price. Wabash ref. and ext. 4s have been notably strong to-day and with Atchison conv. 4s, Am. Tobacco 4s and Central Leather 5s, are 2 points or more higher than last week. United States Steel 5s have been strong in sympathy with the shares. Rock Island issues, on the other hand, have been weak, the col. trust 5s showing a decline of over 2 points. decline of over 2 points.

United States Bonds.—Sales of Government bonds at the Board include \$1,000 4s reg., 1925 at 122, and \$500 3s coup., 1908-18, at 100½. The following are the daily closing quotations; for yearly range see third page following.

*This is the price bid at the morning board; no sale was made.

Railroad and Miscellaneous Stocks.—Although less active than last week, the stock market has generally displayed a firm undertone throughout the week and a few new high records have been made. These records have not been maintained however. The accrued profits of the last two weeks were sufficiently attractive to induce some selling to secure them. As a result of the week's operations a few issues show a gain of from 2 to 4 points, but a large portion of the active list is less than a point higher than last week. Among the exceptional features is Canadian Pacific, which advanced nearly 6 points and retains a large part of the gain.

Pacific, which advanced nearly 6 points and retains a large part of the gain.

Missouri Pacific covered a range of over 5 points and closes near the highest. Southern Pacific advanced over 3 points and Atchison 2½. Delaware & Hudson is the only active issue that shows a fractional net loss.

Consolidated Gas has broken all other records, having advanced 8½ points within the week. General Electric closes over 3 points higher, Steel common nearly 3, Sloss-Sheffield 2 and Steel preferred 1½.

For daily volume of business see page 158.

The following sales have occurred this week of shares not represented in our detailed list on the pages which follow:

Outside Market.—"Curb" market trading, after the improvement reported last week, relapsed into the dull condition which has been its chief characteristic for a long time past. The general range of values, however, has been well maintained, with some sharp rises in special stocks. The new Delaware & Hudson 4s, "w.i." which sold for the first time last Saturday, were actively traded in until they were transferred to the unlisted department of the Stock Exchange. Some \$1,200,000 were reported sold at from 98% to 99% and down to 98¼ and at 98¾ finally. On the Stock Exchange the closing price to-day was 99. Remarkable advances were recorded by American Tobacco, which ran up from 348½ to 380, a further gain of 10 points to 390 being recorded to-day. Standard Oil, after an early set-back—from 614½, last Friday's close, to 607—moved up to 617 to-day, closing at 615. Chicago Subway advanced 2 points to 21½, easing off subsequently to 21. Adams Express 4s sold up from 89% to 90. American Steel Foundries 4s "w.i." improved a point to 56, and stock "w.i." from 33% to 34. Tidewater 6% notes were traded in at 98½. Copper shares were inactive. Boston Consolidated Copper sank from 12¼ to 11¾ and recovered to 12. Butte Coalition opened the week at 23 and advanced to 25½. Cumberland-Ely sold up from 7¾ to 8 and back to 7¾. Douglas copper rose from 4 to 4¾, fell to 3½ and sold up finally to 4¼. Greene Cananea from 10½ reached 11½, but dropped to 10½, closing to-day at 10½. Nevada Consolidated Copper advanced from 12¾ to 12¾. Nevada Consolidated Copper and sold up to-day to 3. Goldfield Consolidated advanced from 5 15-16 to 6 and then declined to 5 13-16. Nipissing went from 7½ to 7, then to 7 5-16, closing to-day at 7¼. Outside quotations will be found on page 158.

Investment and Kailroad Intelligence.

RAILROAD GROSS EARNINGS.

The following table shows the gross earnings of every STEAM railroad from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the period from July 1 to and including such latest week or month. We add a supplementary statement to show the fiscal year totals of those roads whose fiscal year does not begin with July, but covers some other period. The returns of the street railways are brought together separately on a subsequent page.

	Latest	Gross Earn	ings.	July 1 to I	atest Date.		Latest	Gross Earn	ings.	July 1 to 1	alest Date.

Net Earnings Monthly to Latest Dates.—The table following shows the gross and net earnings of STEAM railroads reported this week. A full detailed statement, including all reported this week. A full detailed statement, including air roads from which monthly returns can be obtained, is given once a month in these columns, and the latest statement of this kind will be found in the issue of June 20 1908. The next will appear in the issue of July 25.

Total.

*After deducting \$618.146 in 1908 and \$498.965 in 1907 for reserve for doubtful accounts and rebate of interest.—V. 86, p. 1533.

The printed report contains no general remarks, but President S. T. Morgan, in a letter addressed to "The Journal of Commerce & Commercial Bulletin" of New York, under date of July 14, touching comments on the results for the year, makes the following explanation:

The fertilizer business proper of the company was much better than the previous year. Owing to the stringent money conditions we decided to curtail the fertilizer business in certain lines, selling less of low-grade fertilizers and fertilizing materials, in which there is usually but little profit, and therefore the total tonnage of the company in fertilizers was about 4% less than the previous year. More attention was given to the sale of complete high-grade fertilizers and the proprietary brands, and in consequence the gross sales in dollars and cents was increased 386.21 and the propriet of the sale of complete high-grade fertilizers and the proprietary brands, and in consequence the gross sales in dollars and cents was increased 386.21 and the proprietary brands, and in consequence the gross sales in tollars and cents was increased 386.21 and the proprietary brands, and in consequence the gross sales in the last year was furnessed 386.21 and the proprietary brands, and in consequence the gross sales in the last year was furnessed 386.21 and the proprietary brands, and in consequence the gross sales in the proprietary brands, and in consequence the gross sales in the proprietary brands, and in consequence the gross sales in the proprietary brands, and in consequence the gross sales in the proprietary brands, and in consequence the gross sales in the proprietary brands are accounted to consequence the gross sales in the proprietary sales and the proprietary brands are accounted to the accountable for the high price of seed. Present indications are for a large crop of cotton, and we trust a more equalized value between se

American Telephone & Telegraph Co.

(Reports of Operating Companies.)

(Reports of Operating Companies.)

Last week we gave digests of the annual statements recently issued by a number of the leading companies operating under license, from the American Telephone & Telegraph Co., which in most cases owns or controls a majority of their share capital. The remaining statements of the kind available for publication are brought together below.

President Vail, returning from an extensive trip West, North and South, is quoted as saying:

North and South, is quoted as saying:

Our business shows relatively no falling off. The business of the associated Rell companies is better this year than last year. There is a good demand for the better class of telephones; in fact, we have all the business of that kind we can do. As for new construction, the associated companies will do 25 to 30% less than last year. The figures will fall even below our estimates made at the begining of 1908.

We are increasing our holdings in the thirty odd associate companies; by that I mean we keep our relative percentage of holdings in each company by increasing them proportionately to the stock increases of the companies. Our loans to them remain substantially at the figures of last year. These may be called fixed loans, and they will continue as such until the time comes when they can be properly funded.

The floating debt of Western Electric , which was unwieldy in 1907, has been greatly reduced. That company is in no need of funds, and there will be no issue of the company's bonds this year, although an issue to the amount of \$15,000,000 was authorized during 1907.

Hayden, Stone & Co., Boston, New York, &c., in a special circular issued this week regarding the company's capital stock, and also its issue of \$100,000,000 and March 1 1918), say in part: say in part:

See statement of the aggregate earnings of the "Associated Operating Companies" (exclusive of the earnings of the company's own long-distance service) for the five months ending May 31 on a subsequent page; also compare annual report in V. 86, p. 733.—V. 87, p. 91, 40.

Hudson River Telephone Co.

(Report for Fiscal Year ending Dec. 31 1907.)

President U. N. Bethell Feb. 24 1908 said:

President U. N. Bethell Feb. 24 1908 said:

General Results.—There was an increase in gross earnings over the previous year of 22.8%, while the increase in operating expenses was but 17.6%. Net earnings increased substantially, but interest charges were very largely increased. During the previous year the company was able to carry its loans at 5% per annum, but early in 1907 it became necessary to pay 6% per annum. While under the existing financial conditions this was a very moderate rate, the change had a marked effect upon the revenue balance available for dividends. The large additional investment in 1906 was subject to interest charges during only a small part of that year, but of course was subject to such charges during only a small part of that year, but of course was subject to such charges during the whole of 1907. The increase in this item was also partly due to the additional notes issued during the year. The outstanding bills payable at the end of the year amounted to \$5,233,452.

The general financial and commercial conditions made it apparent before the close of the year that the only wise and conservative course was to suspend the payment of dividends. During the year three dividends each 1% were declared and the surplus was drawn upon therefor to the extent of \$2,173 39. At the end of the year the surplus stood at \$202,996. Your company expended in 1906 for extensions and enlargements \$1.884.634, while the expenditure on this account in 1907 was but \$754,651 (includings \$14.597 for real estate; underground plant, \$147.240; aerial plant, \$3380,780; equipment, \$212,034. The plans for 1908 call for even a much smaller outlay than that of 1907.

Rales.—It has been the aim of the management to furnish an efficient and adequate service at a reasonable rate. For some time certain classes of service much smaller outlay than that of 1907.

Rales.—It has been the aim of the managements to furnish an efficient and adequate service at a reasonable rate. For some time certain classes of service much smaller

Michigan State Telephone Company.

(Report for Fiscal Year ending Dec. 31 1907.)

This company is a licensee of the American Telephone & Telegraph Co., but it is not controlled by that company.

N. W. Harris, Chairman of board of directors, under date of April 1 1908, says:

N. W. Harris, Chairman of board of directors, under date of April 1 1908, says:

The company entered upon the year 1907 with a well defined policy to restrict capital expenditures in so far as consistent with good service and properly protecting vone interests. As the result the company has been in strong financial condition all through the year.

Notwithstanding anyerse business conditions, the company has not suffered a tess of earnings. In fact, the gross earnings from all sources for the last three months of 1907 show an increase of 13% + over similar carnings for the corresponding months of the previous year.

On the basis of construction expenditures and established earnings the company has available for sale its first mortgage bonds in excess of a sufficient amount to provide for the retirement of the montread of the company has available for sale its first mortgage bonds in excess of a sufficient amount to provide for the retirement of the onstruction and real estate was \$\$12.487. The growth in exchange stations was 9.674, as compared with 15.229 in 1906. The smaller gain in exchange stations is due to the policy of restricting the number of low rate and less profitable installations; and this policy also resulted in materially reducing the amount expended for construction purposes.

In order to provide out of carnings for the replacement of various parts of the plant as they become worn out, the sum of \$271,468 has been charged against the surplus at the end of the year in favor of a "maintenance reserve account" (this amount being additional to the \$704,422 included in the year's operations as shown below.—Ed.). It is proposed during 1908 to charge operating expenses for maintenance and reconstruction purposes with an amount equal to \$10 per exchange station. Should the actual expenditures exceed this amount, the maintenance reserve account. The financial condition of the company and its position in the telephone field in Michigan have been strenghtened during the past year, and it is confidently expe

Missouri & Kansas Telephone Company.

(Report for Fiscal Year ending Dec. 31 1907.)

President C. S. Gleed under date of Kansas City, Mo., Jan. 22 1908, says:

General Results.—The number of Missouri & Kansas stations increased 13,182, making the total 88 663; an increase of 1,5%. The total number of stations with the But connections increased 48,182, making a total of 22,66%, an increase of 27,5%. The revenue increased 3303,471 or 19,3%. Expenses increased 34,759 or 5.7%. A comparason of the latrease in revenue, 19,3%, with the increase in expense, 5.7%, is encourable.

of 22°, 96°, an increase of 27.5°°, The revenue increased \$503.41 or 19.3%. Expenses increased \$49.4759 or 5.7%. A comparason of the lucrase in revenue. 19.3%, with the increase in expense, 5.7%, is encourating.

Capture of the expension of the comparation of acquisition. As proposed in the expension of the comparation of acquisition. Most of the total amount added to capital account being \$1,445.596. The company still has in store a large amount of material, most of which will probably be put into service in 1908.

Legislation.—Large numbers of bills relating to the telephone business were considered by the legislatures of both Missouri and Kansas but all falled of passage excepting what is known as the Public Utilities bill, passed by the Missouri Legislature. This law authorizes any city of Missouri to create a commission for the regulation of the public service companies doing business in such city. The cities of the State have not yet experimented with the law.

Rates, &c.—The prospect for business in 1908 is good. The increase in stations will be a substantial one, Several communities have already consented to such revision of rates as will afford a fair return for the service rendered, and it is confidently expected that others will reach the same wise conclusion.

Nebraska Telephone Company.

(Report for Fiscal Year ending Dec. 13 1907.)

President C. E. Yost, Omaha, Neb., Feb. 13 1908, wrote:

President C. E. Yost, Omaha, Neb., Feb. 13 1908, wrote-On Dec. 31 1907 the total number of instruments in service was 49,973, an increase of 5,456 during the year. In addition we are connected by sub-license contract with 43,472 subscribers of so-called independent telephone companies.

We constructed during the year 22,978 feet of underground conduit and laid 148,951 feet of additional underground cable. In our exchanges there were placed 236,187 feet of aerial cable. 107 private branch exchanges were installed. The new "Webster" branch exchange building located in Omaha was completed and occupied in June and a complete new central office equipment was placed in same.

100,328 and toll receipts increased \$2,2344. We now have invested in real estate \$345,651. Exchange recessed in receipts were likely in the provious year \$100,328 and toll receipts increased \$2,2344. We now have invested in real estate \$393,290. Our total net debt Dec. 31 amounted to \$123,730. The usual 6% dividends have been paid during the year; and we can see no reason why same should not be continued for all time to come.

no reason why same should not be co	munued 101	an time to	ome.

New England Telephone & Telegraph Company.

(Report for Fiscal Year ending Dec. 31 1907.)

President Thomas Sherwin, under date of Boston, May 4. says in substance:

President Thomas Sherwin, under date of Boston, May 4, says in substance:

General Results.—Compared with 1906 there was an increase in gross revenue of \$14,366,626 and an increase in net revenue of \$342,553.

The number of stations added to the company's exchange lists was 22,677, making the total Dec. 31 227,861. Including the Southern Massachusetts Telephone Co. and other associated and sub-licensee companies, the total number of stations connected with the system in Maine, New Hampshire, Vermont and Massachusetts, and in small portions of New York and Rhode island, was 289,496, as compared with 255,576 at the close of 1906.

New Stock.—The second and final installment, amounting to \$1,936,700 for new capital stock, issued under circular of June 6 1906, was received issue of stock was made during feneral financial conditions no further demption of bonds have, therefore, been met in large part by temporary loans; the floating debt Dec. 31 reaching more than \$5,000,000.

Under circular of Feb. 17 1908, the company has offered to stockholders \$3,962,200 of additional capital stock, for which payment may be made in May and August. Owling to the restricted amount which will be expended for new construction and reconstruction during the year, the floating debt will be largely decreased.

Bonds Retired.—Of the bonded debt, \$501,000 was paid off during 1907, and \$462,000 6% bonds of the issue of 1893 were paid in April 1908.

New Construction.—The expenditure for new construction during the year amounted to \$2,703,814, of which \$704,106 was for exchange aerial \$2,73,711 for toll lines and \$2,703,814, of which \$704,106 was for exchange aerial \$2,73,711 for toll lines and \$2,703,814, of which \$704,106 was for exchange aerial \$2,73,711 for toll lines and \$2,703,814, of which \$704,106 was for exchange should be a construction, \$2,705,814 and for repairs and maintenance, \$3,346,941; total, \$6,052,755; as against an expenditure in 1906 of \$6,097,068.

The extended payment during 1907 has been; for new construction, \$2,705

New York & New Jersey Telephone Company.

(Report for Fiscal Year ending Dec. 31 1907.)

President U. N. Bethel, under date of Feb. 21 1908, says

President U. N. Bethel, under date of Feb. 21 1998, says. General Results.—The gross earnings for the year Increased \$1,359,946 and the net carnings increased \$441,454, as compared with the previous car. The increase in net carnings was not obtained by inadequate care of the plant or a reduction in the efficiency of the service. The plant was thoroughly maintained and the per cent of maintenance to the average value of lines and equipment was practically the same as in the previous year, being \$11.4% in 1907 and \$11.8% in 1908.

The gain in stations during the first six months of the year was \$9,229, and during the last six months, 7.701. The increase in the carning power during the first six months was \$311,522 and during the last six months \$465,217. These figures are very significant, indicating, as they do, a healthy increase in traffic and a better character of business obtained during the latter part of the year, notwithstanding the decreased gain in new stations due to the general commercial and financial conditions. At the end of the year your company and the New York Telephone Co. in their joint systems were together serving \$47,123 stations.

New Stock.—The treasury received during the year from stock issued at par \$6,304,309. Of this amount \$1,575,009 was used to retire bills payable proved to extending and enlarging the plant. Bills payable were reduced to \$475,009 and the bonded debt was reduced \$18,000.

Capital Expenditures.—The additions to the plant were of the most substantial character. In the purchase of real estate and the erection and enlargement of buildings there was expended \$296,713 05. The outlay for lines and equipment was \$4,510,141 as follows: underground conduits, \$555,533; underground cibles, \$1,689,078; aerial plant, \$595,054, central office apparatus, \$595,575; and station equipment, \$821,046;

On May 1 1908 the company, it is stated, had a total of 264.959 stations, as compared with 257,027 on Jan. 1.—V. 86,

Pioneer Telephone & Telegraph Company.

(Report for Fiscal Year ending Dec. 31 1907.)

President Eugene D. Nims, Oklahoma City, Feb. 12 1908, says:

1908, says:

We have made some increase in the net earnings, although it is considerably short of what the stockholders are entitled to receive upon an investment of this kind, especially in view of the fact that for the previous years we have been able to burely earn the dividends that have been paid, to an amount that will be right and reasonable, as the public generally is recognizing the real value of the efficient service we are giving and are willing to increase rates sufficiently to enable us to secure the large emount of additional capital that is needed. During the past year the Territories occupied by our system have become a State, and under the constitution, telephone companies, among other public service corporations, are to a large extent under the control of a Corporation Commission. New Construction.—Over \$750.000 was expended on new corstruction of the telephone plant during the past year, but this amount was less than world have been added except for the financial conditions prevailing the latter part of the year.

The new exchange and general office building of the company at Okla-

latter part of the year.

The new exchange and general office building of the company at Oklahoma Clty is about completed. It is already partially occupied by the
new central office equipment which has been installed for us by the Western
Electric Co. and turned over to us for operation on Jan. 26 last.

Rates.—We are enjoying a close and friendly relation with all our connecting ("independent".—Ed.) companies. The majority of these companies are operating their exchanges on rates that are inadecuate to pay for the operation and maintenance of their plants. They, like ourselves, will be compelled to materially advance rates at places where they are low, but we have refrained from doing so until after the hearing before the Corporation Commission.

Southern New England Telephone Co.

(Report for Fiscal Year ending Dec. 31 1907.)

President John W. Alling, under date of New Haven, Conn., Jan. 20 1908, says in substance:

President John W. Alling, under date of New Haven, Conn., Jan. 20 1908, says in substance:

Growth of System.—The number of telephone stations which in 1888 was less than 5.800 is now some 60,700, and the rates for service: have been reduced from time to time, so that though they averaged \$67.55 per station in 1894, they are now, at the close of 1907, \$26.35 per station. If our present return to the stockholder can be assured, with positive certainty (and we know of no reason why it cannot be so assured, we are quite confident that capital in large amounts indispensable to the necessary growth, extension and development of the business will be forthcoming. All that the company has earned above its pald dividends has gone into the plant. We have carried but little surplus, enough, however, to make certain the regular dividends. So we propose to continue.

Rates.—This company has not only vasity reduced in acrased service. Rendering the rendering such increased service at the same flat rate is clearly a reduction of the true principles on which telephone, rates should be based. Those principles are that the "call" and in a certain large way, the value of the "call," should determine the amount of compensation for telephone service. The telephone instrument of itself has but little bearing on this question. The small user takes the measured service, and the unlimited flat rate is turning out to be a commuter's or commutation rate.

New Capital.—During the current year we estimate that there will be needed for the extension and development of the business, 10% of our present capital, or \$770,000. It is true, there is an industrial depression, but the inances of the company are in a perfectly sound condition, and we must be prepared to do our full duty to the public. We need not call for this capital just now. When we shall call for it, we expect that the conditions will justify our raising the capital by an additional capital, that the American Telephone & Telegraph Cohas always owned one-third of our stock; that i

and encouragement.
[President Alling deals at length with the relations of the company to the public, the question of rates and the reasons for not adopting in its entirety the "Automatic" telephone system.—Ed.]

Western Telephone & Telegraph Co. (Report for Fiscal Year ending Jan. 31 1908.

President Theo. N. Vail says in substance:

President Theo. N. Vail says in substance:

General Results.—The business of the companies which constitute the system shows a substantial and satisfactory improvement over the previous year. The four telephone companies whose securities form the principal assets of this company, and from which most of its revenues are derived, are the Cleveland Telephone Co., operating in Cleveland, Ohio, and adjacent territory; Northwestern Telephone Exchange Co., in Minnesota and North and South Dakota; Southwestern Telegraph & Telephone Co., in Texas and Arkansas; and Wisconsin Telephone Co., in Wisconsin. With these companies are associated the Duluth Telephone Co., Mesaba Telephone Co., and numerous others which operate under sub-license agreements.

The number of telephone stations operated by these four companies Dec. 31 1907 was 254,318, an increase of 22,733. Adding 81,914 stations of subsidiary companies in which the above-named companies hold a controlling interest, and of companies which lease our telephones and operate under contract in small towns and rural districts, makes a total of 336,232 stations, as compared with 303,580 Dec. 31 1908.

GENERAL INVESTMENT NEWS.

RAILROADS, INCLUDING ELECTRIC ROADS.

Atlantic City & Ocean City Company.—Bonds Offered—Status.—H. F. Bachman & Co., Philadelphia and New York, are offering at par and interest, with a bonus of 30% in preferred stock, a block of the present issue of \$350,000 collateral first mortgage 5% gold bonds, due March 1 1947 but redeemable at 110 and accrued interest on any interest date. A circular says in part (compare page 8 of "Electric Railway Section"):

These bonds are a first lien on the entire property of the Atlantic City & Ocean City RR. Co., being secured by all of that company's mortgage bonds (\$180,000) which cannot be increased, and all of its capital stock (\$180,000) excepting directors' qualifying shares, all of which were issued for cash. The Atlantic City & Ocean City RR. extends along 8th St., Ocean City, from Boardwalk to Great Egg Harbor Bay, and thence across the bay to Somer's Point. For two miles of its length it consists of trestie and steel bridges. The Atlantic City & Shore RR. Co. has leased the Atlantic City & Ocean City RR. Co. for 999 years, and has practically guaranteed the interest on these bonds by its agreement to pay as (milmbum) rental \$19,000 per annum, the interest charges amounting to but \$17,500.

The total length of all the lines comprising the Shore System is 47.45 miles of track. The Atlantic City & Ocean City RR. provides the only direct rail connection between Atlantic City and Ocean City.

The Shore System to Ocean City was put in full service July 2 1907, and the company's interest in the Atlantic Avenue line (operated under agreement with the West Jersey & Seashore RR. Co. of the Pennsylvania RR. system) began Jan. 1 1908. No accurate statement of earnings can therefore be given. It is conservatively estimated, however, that the earnings of the lessee company for 1908, the first year of its full operation, will be shore System, including this issue. While there out basis poons of the shore System, including this issue. While there out basis poons of the relative to the Ocean City Division, the earnings to date give every indication of great success for this branch of the company's system.—V. 85, p. 158.

Atlantic & Lake Superior Ry.—Property Advertised for Sale.—L. A. Audette of Ottawa, Registrar of the Exchequer Court of Canada, announces by advertisement that sealed bids will be received by him up to noon Sept. 9 as follows:

Court of Canada, announces by advertisement that sealed bids will be received by him up to noon Sept. 9 as follows:

(1) For the purchase of the Atlantic & Lake Superior Ry., from Caplin to a point at or near Paspeblac, in the County of Bonaventure, P. Q., where it joins the Atlantic Quebec & Western Ry., being a total length of 20 miles of railway, and all its rolling stock and other accessories thereof, including all franchises.

(2) For the purchase of the Bale des Chaleurs Ry., from its junction at Metapedia with the intercolonial Ry., and extending for a distance of 80 miles to Caplin, in the County of Bonaventure, P. Q., and all its rolling stock and other accessories, including all franchises.

The tenders must be made on printed forms, containing the conditions of the sale, which may be procured from Casgrain, Mitchell & Surveyer, Canada Life Bidg., Montreal.

Proposed Purchase.—The holders of certificates of participation in the Atlantic & Lake Superior Railway trust fund

Proposed Purchase.—The holders of certificates of participation in the Atlantic & Lake Superior Railway trust fund (V. 84, p. 929) will meet July 30 at the office of Galindez Brothers, 67 Cornhill, E. C., London, to authorize the acquisition of shares in the Baie des Chaleurs Ry. Co. and Atlantic & Lake Superior Ry. Co., in exchange for certificates of participation, and for the purpose of authorizing the Royal Trust Co. to tender bids at the sale of said railways.—V. 85, p. 468.

Autora, DeKalh, & Backford (Fleatic), FR.

Aurora DeKalb & Rockford (Electric) RR.—Securities Advertised for Sale.—The American Trust & Savings Bank of Chicago advertises for sale at the Real Estate Board auction rooms at Chicago on July 21 \$645,000 5% 40-year bonds dated Oct. 1 1902, and 1,900 shares of capital stock, which were pledged with the bank, as trustee, to secure loans aggregating \$201,304 made to individuals but not by the bank. The bondholders' committee, it is said, consists of Gilbert B. Shaw, Joy Morton and Granger Farwell.

The company is operating an electric railway 30 miles in length, extending

The company is operating an electric railway 30 miles in length, extend from Aurora to DeKaib, Ill. Capital stock, \$201,900; bonded de\$556,000. President and Treasurer, G. B. Shaw, Chicago, Ill.—V. p. 667; V. 83, p. 1590.

Baie des Chaleurs Ry.—Advertised for Sale.—See Atlantic & Lake Superior Ry. above.—V. 84, p. 930.

& Lake Superior Ry. above.—V. 84, p. 930. Boston & Worcester Electric Companies.—Notes Offered.—Hayden, Stone & Co., New York, Boston, &c., are offering at par and interest the present issue of \$300,000 3-year 6% gold notes, being part of the total issue of \$600,000 authorized this week, dated July 1 1908 and due July 1 1911, but redeemable as an entirety on any interest date after July 1 1909 at 102 and interest. Denomination \$1,000(c*). Interest payable January and July. City Trust Co., Boston, trustee. An advertisement says:

To secure the above notes there has i cen deposited with the trustees a

trustee. An advertisement says:

To secure the above notes there has i cen deposited with the trustees a majority (10,150 shares) of the stock of t c Bo ton & Worcester Street Ry. Co., representing a paid-in value of \$1,01,000. This stock has paid regular annual dividends of \$6 per share since. 19.44. These notes have been issued to complete double-tracking the mala line, to construct a new line into Nattck and for additional equipment and car houses. Earnings of the street railway for the year ended Sept. 30 1907 were: Gross, \$531,560; net, \$258,195; interest charges, \$151,662; surplus, \$106,533. The first eight months of the present year show a gross increase of \$28,121, or 10%, and an increase in net of \$22,533, or 26%, over the corresponding months of 1907.—V. 87, p. 96.

Central Crosstown RR., New York.—Temporary Modification of Lease.—The Public Service Commission, First District, on July 15, for the purpose of increasing the funds in the hands of the receivers of the Metropolitan Street Ry. available for improvements, sanctioned a new agreement

in the hands of the receivers of the Metropolitan Street Ry. available for improvements, sanctioned a new agreement between the Central Crosstown RR. and the Metropolitan Street Ry., in accordance with which for at least one year, or until the close of the receivership of the Metropolitan Street Ry. Co. if terminated earlier, said receivers are to continue the operation of the Crosstown properties, but instead of paying 15% per annum in dividends on the \$600,000 capital in addition to the fixed charges, will, for the time being, pay the fixed charges only. The officers of the Central Crosstown have consented to the change on the condition that by so doing they should not be deemed to have waived their right at any time to enforce the original contract through their right at any time to enforce the original contract through

their right at any time to enforce the original the courts.

Trust Fund.—From the testimony of Secretary E. W. Sayre before the Public Service Commission on July 13 it was learned that the trust fund of \$\$14,000 deposited with August Belmont & Co. just prior to the appointment of receivers for the New York City Ry. Co., being the remainder of the proceeds of a note issue previously sold (see New York City item, V. 85, p. 1462), has been applied to purchase for the crosstown lines of 80 new cars.—V. 84, p. 1247.

Central Park North & East River RR., New York.—New

the crosstown lines of 80 new cars.—V. \$4, p. 1247.

Central Park North & East River RR., New York.—New Management.—On July 11 the company was formally brought under the control of the shareholders by the election of the new board of directors, mentioned lastweek, page 96, to succeed the representatives of the Metropolitan Street Ry. The following officers, &c., are announced:

James A. Macdonaid, President; Alexander J. Hemphill, Vice-President of the Guaranty Trust Co.). Secretary and Treasurer. Executive Committee: John W. Casties, Ellis Ames Ballard of Philadelphia, Geo. S. Coe and Geo. W. Linch.—V. 87, p. 96.

Chicago Consolidated Traction Co.—New Protective Committee for General Mortgage 41/2 dated 1899.—In view of the default June 1 in the payment of interest on the \$6,750,000

4½% bonds dated Dec. 1 1939, and the subsequent appointment of receivers for the property by the United States Circuit Court for the Northern District of Illinois, Eastern Division, the following bondholders have consented to act as a committee for the protection of all bondholders who may become parties to an agreement dated July 1 1908, and therefore request an immediate deposit of said bonds with the Mercantile Trust Co., 120 Broadway, New York, or the American Trust & Savings Bank, 125 Monroe St., Chicago.

William F., Bartity, Chalrman; John B. Parsons, J. Nelson Vance.

William F. Harrity, Chairman; John B. Parsons, J. Nelson Vance, Benjamin Wolf, Clarence J. Housman, Edmund A. Cummings and Henry G. Foreman, with Philip H. Gray, Secretary, 108 Dearborn St., Chicago, and Winston, Payne, Strawn & Shaw as Counsel. Compare V. 86, p. 1528, 1589.

Chicago Subway Co.—Exchange of Bonds—Time Extended.
—About 95% of the \$17,000,000 Illinois Tunnel first mortgage bonds have been deposited for exchange for the new first lien 5% bonds of the Chicago Subway Co., per plan V. 86, p. 1284. The time to consent to the exchange of the remaining bonds has been extended to Aug; 1.—V. 86,

Cincinnati Hamilton & Dayton Ry.—Receiver's Certificates Extended.—The receiver's certificates, amounting to \$1,023,-660, which fell due on July 1, have been extended to Jan. 1

660, which fell due on July 1, have been extended to Jan. 1 1909, subject to redemption at any time on 10 days' notice; interest rate 6%.

Over 88% of Refunding Bonds Turned in for Exchange for Collateral Trust 4% Notes.—July 15 1908 was the last day on which the 4% refunding bonds were exchangeable for collateral trust 4% notes due July 1 1913. Holders of between 88 and 89% of the refunding bonds availed themselves of the offer to exchange. (Compare V. 86, p. 108, 720 836)

Delaware & Hudson Co.—Sale of Bonds.—The company sold this week to Kuhn, Loeb & Co. and the First National Bank of New York, \$13,309,000 "first and refunding mortgage" 4% gold bonds, which were then offered for subscription at 97½ and interest. President L. F. Loree, under date of July 14, in a letter to the bankers, says in substance:

These bonds are part of an authorized \$50,000,000, to be issued as

These bonds are part of an authorized \$50,000,000, to be Issued as follows:
\$20,000,000 at any time for any legal corporate purposes (of which the present issue forms a part, compare V, &o., 1, 1684; V. 87, p.96.)
3,500,000 after alay 1 1903, for any legal corporate purposes.
6,500,000 to retire a like amount of divisional bonds.
20,000,000 for the construction or acquisition of additional lines, construction of additional main track tunnels and bridges, the purchase of real estate and equipment, and for improvement of the property, as provided in the mortgage.

These bonds will be a first mortgage on the entire railroad property, as well as leasehold interests and important tracksge rights, subject only, as to parts of the same, to \$6,500,000 prior lien bonds, for the retirement of which a like amount of "first and ratunding mortgage bonds" are reserved.

served.

The total income of the company for the year ended Dec. 31 1907 applicable to the payment of fixed charges was \$7,962,325, while the charges for interest on funded debt, including \$20,000,000 "first and refunding mortgage bonds" at present issuable, amounts to only \$2,-289,955.

refunding mortgage bonds" at present issuable, amounts to only \$2,289,955.

The bonds purchased by you will be dated May 1 1908 and will mature May 1 1943. Denomination \$1,000. United States gold of or equal to the present standard of weight and lineness; interest payable May 1 and Nov. 1. Coupon bonds, with privilege of registration as to principal; also exchangeable for full registered bonds, which may be re-exchanged for coupon bonds, upon payment as provided in the mortgage. The entire issue outstanding (but not any part thereof) may be redeemed at option of company at 107½% and interest on May 1 1918, or any interest date thereafter, upon 13 weeks notice. Both principal and interest payable without deduction for any tax or taxes which the company may be required to pay or retain under any present or future law of the United States, or of any State, County or municipality therein. Annual sinking fund 1% cas's of the par value of all bonds outstanding beginning June 1 1909; to be invested either in the purchase and cancellation of 'first and refunding mortgage bonds' or in construction, additions or improvements, all of which shall come under the mortgage as additional security.

The \$13,000,000 of bonds is said to have been several times oversubscribed, preference being given to supposed investment purchasers, with the result that in many cases the allotment to others was only 10% of the amount

allotment to others was only 10% of the amount

applied for.

applied for.

Merger Authorized.—The Public Service Commission, Second District, yesterday gave its consent to the merger of the property and franchises of the Cherry Valley Sharon & Albany RR. Co. with the Delaware & Hudson Co., which has long owned the entire capital stock.

On "Unlisted" Sheet.—The New York Stock Exchange has admitted the first refunding 4% bonds due 1943, when and as issued to trading in the unlisted department. They will be traded in at a price and interest from May 1 1908.

—V. 87, p. 96. V. 87, p. 96.

—V. 87, p. 96.

Detroit Toledo & Ironton Ry.—Sale of Collateral.—The collateral for three promissory notes dated Aug. 31 1906, made by Rudolph Kleybolte & Co. and payable to the United States Mortgage & Trust Co., this collateral including with other items (interests in underwriting agreements, &c.) \$1,208,000 of this company's 5% collateral trust notes, dated June 1 1905, part of the issue of \$5,500,000 with Ann Arbor stock as collateral, was sold at auction on July 15 through Adrian H. Muller & Son and was bid in for \$100,000 in the interest of H. B. Hollins & Co. and associates.

Notice to Holders of Collateral Trust Notes—Proposed Plan.
—H. B. Hollins & Co. and associates on Wednesday made the following announcement:

Iollowing announcement:

H. B. Hollins & Co. and their associates having acquired the interests of Messrs. Rudolph Kleybolte & Co. In \$1,208,000 of the collateral trust notes, and also having a great number of other notes, expect soon to be in a position to announce a plan which will provide for other outstanding notes, either in cash or by exchange for other securities. Such an offer can only be made to note-holders who have undeposited notes or who have deposited their notes with the Morse committee (Windsor Trust Co., New York, trustee. V. 86, p. 802.), and hold the receipts of that committee, for the reason that these receipts are free from any obligations impairing or affecting their negotiability.

The notes deposited with the Ramsey Committee, or the receipts therefor, will not be accepted under the proposed plan for the reason that their following announcement:

negotiability has been affected by the terms of the deposit agreement of the Ramsay Committee, among other things by giving the committee the complete and absolute title to the notes with power to piedge the same, and by making all expenses of the committee a lien upon the deposited notes.

by mixing all expenses of the committee a lien upon the deposited notes. Majority of 5% Collateral Trust Notes Deposited.—The committee of which Joseph Ramsey Jr. is Chairman, announces that a majority of the above notes (about \$2,-800,000 out of \$5,500,000) have been deposited with the New York Trust Co., as depositary, under the agreement dated Feb. 3 1908, amended Feb. 20, and that the time within which to make deposits under said agreement will expire on July 31 1908, after which notes will be accepted only upon such terms and penalties as the committee may impose.—V. 86, p. 1589.

Freight Rates.—Contemplated Increase.—The question of

only upon such terms and penalties as the committee may impose.—V. 86, p. 1589.

Freight Rates.—Contemplated Increase.—The question of increasing freight rates was taken up this week with renewed earnestness and notice has been given by certain roads of proposed minor changes in this direction. The presidents of the railroads east of the Mississippi River met in New York Thursday and discussed the matter without coming to any conclusion, considerable divergence of opinion being expressed. E. H. Harriman and Vice-President Brown of the New York Central are among those strongly favoring an advance, while President McCrea of the Pennsylvania and President Baer of the Reading consider the time inopportune for a general increase. James J. Hill, as quoted, agrees with President Ripley of the Atchison (V. 87, p. 96) that there seems to be no other course open. The new schedules for the Eastern roads, it is said, cannot be ready much, if any, before Dec. 1, and a definite decision regarding the same, it is understood, is therefore deferred for the time being. See editorial on a preceding page and letter of Vice-President Brown in the "Railroad Age-Gazette" of New York for July 17.—V. 86, p. 480.

Fulton Street RR., New York.—Receivership.—Justice Blanchard in the Supreme Court on July 15, upon application by the first mortgage bondholders, appointed Gilbert H. Montague as receiver of the property, with authority to resume the operation of the road if it seems best to do so.—V. 86, p. 1467.

Great Northern Ry.—Tax Decision.—Judge Hallam, in the District Court at St. Paul on July 11, decided the action brought by the State of Minnesota to compel the payment of a 4% gross earnings tax for 1905 under Chapter 253, Laws of 1903.

The company voluntarily paid 3% and claimed it was exempt from further taxation by the orden in Territoral calcular of 1837 of the Minnesota & Pacific RR., the lines named thereta being the main line from further taxation by the orden in Territoral calcular of 1837 of the Minnesota & Pacific RR.

of a 4% gross earnings tax for 1905 under Chapter 253, Laws of 1903.

The company voluntarily paid 3% and claimed it was exempt from further taxation by the original Territorial outlier of 1837 of the Minnesota & Pacific RR., the lines named thereta being the main line from Stillwater to Breezenridge and the so-clied branch from St. Anthony to St. Vincent. Sixteen branches, aggregating 752 miles, were subsequently but the court holds that the limitation of the rate to 3% does not apply to any of the branch lines built since the original charter was granted. The amount in dispute is reported as \$120.717 38.—V. 86, p. 1529.

Huntingdon & Broad Top Mountain RR. & Coal Co.—Dividend Omitted.—The directors on Tuesday failed to declare a semi-annual dividend on the \$2,000,000 (non-cumulative) preferred stock. Last January 3½% was paid. The annual record for calendar years since 1895 is as follows:

Per cent— '96, '97, '98, '99, '00, '01, '02, '03, '04, '05, '03, '04, '05, '07, '08, '09, '00, '01, '02, '03, '04, '05, '03, '04, '05, '07, '08, '09, '00, '01, '02, '03, '04, '05, '03, '04, '05, '07, '08, '09, '07, '11, '08, '09, '00, '01, '02, '03, '04, '05, '03, '04, '05, '04, '

The agricultural districts through which the ralways run are thickly populated, and many varieties of crops are produced, including rice, Manila hemp, copra, sugar and tobacco.

Horace I was a sugar and tobacco. I was a sugar that the construction of the tal-district of tal

be issued, to provide the necessary funds for such construction. Mr. Higgins anticipated that by June 30 1908 some 112 miles of new lines would be in operation.

The authorized loan capital of the American company consists of \$7,500.

One first mortgage 6% bonds and \$12,500,000 second mortgage 7% bonds. Its 300,000 occurs and second mortgage 7% bonds. Its 300,000 common stock. Of this capital, \$3,00,000 hirst mortgage 190,000 common stock. Of this capital, \$3,00,000 hirst mortgage 190,000 common stock. Of this capital, \$3,00,000 hirst mortgage 190,000 common stock represented the purchase consideration for the existing railway, and were acquired by the company, and at their request issued to the trustees for the "A" and "B" bondholders of the company acquired these bonds and stocks was the issue and payment of \$1,257,200 "A" debenture bonds. \$730,000 "B" debenture bonds, \$1,180,000 preference shares, \$399,270 ordinary shares and \$43,800 cash. The company has also contracted to acquire at par such of the balance of the authorized loan and stock capital of the American company as it may be called upon to do, and sufficient moneys of the mortgage bonds, \$1,250,000 when the following bonds and stocks of the mortgage bonds, \$1,730,000 except and stock and \$510,000 common stock. The money received by the American company against the issue of these further bonds and stocks has been or will be applied in or towards the construction of the further mileage authorized to be constructed under the new concession. Compare V. 86, p. 337; V. 83, p. 1470.

authorized to be constructed under the new concession. Compare V. 86, p. 13470.

Metropolitan Street Ry., New York.—Separate Receivership.—Judge Lacombe in the United States Circuit Court on July 14 announced his intention to accede to the request of the Morton Trust Co., the trustee under the \$65,000,000 refunding mortgage, now being foreclosed, for the appointment of receivers for the property distinct from the receivers of the lessee, the New York City Ry.

On Thursday Judge Lacombe appointed William W. Ladd sole receiver of the New York City Railway Co., and at the same time reappointed Adrian H. Joline and Douglas Robinson, recently the receivers for both properties, as independent receivers of the Metropolitan Street Ry. These changes will be effective at midnight July 31. Judge Lacombe says:

Lacombe says:

At the time when former memoranda were filed, Oct. 1 1907 and Jan. 7 1908, the situation was such that the operation of the system might be continued by re-elvers of the New York City Ry. Co. under the lease, and the rights of all inte-essed breserved tasily and efficiently by a subsequent accounting. The lease was then in force and no suit to forcelose mortgage had been instituted. Now the situation is changed: a regular foreclosure uit for unpaid interest under the refunding mortga e has been instituted, and it is fitting that the property covered by that mortgage should be taken over by receivers under that suit, who will thereafter operate the waole Metrosolitan system.

over by receivers under that sult, who will thereafter operate the whole Metrosolitan system

Temporary Modification of Lease.—See Central Crosstown RR. above.—V. 87, p. 38.

Michigan United Railways.—Offering of "First and Refunding Mortgage Bonds" in London.—Sperling & Co. received subscriptions in London from July 6 to 8, inclusive, at the price of £98 per \$500 bond, for \$1,000,000 "first and refunding mortgage" 30-year 5% gold bonds, dated May 1 1906 and due May 1 1936, total authorized amount \$12,500,000; heretofore issued, \$1,900,000. Denominations \$1,000, \$500 and \$250. Interest payable by coupon May 1 and Nov. 1 in New York or in London at the National Provincial Bank of England, at the rate of exchange \$4.86. Principal payable in New York or in London at the rate of exchange \$4.86. The company has sold this \$1,000,000 additional bonds for the purpose of providing the necessary funds to build an extension of their lines from Lansing to Jackson. President Myron W. Mills of Port Huron, Mich., writes:

writes:

With the 36-mile Lansing and Jackson extension, we shall own 225 miles of track, two-thirds of which consists of our own right of way, which we hold in fee simple. Our line is situated in the heart of Michigan. Starting with the city of St. Johns, we traverse Lansing, Jackson, Albion, Marshall. Battle Creek and terminate at Kalamazoo; 69 miles of the road runs in a straight line between Detroit and Chicago. At the Detroit end we are joined at Jackson by the Detroit United Ry., this company using our lines as its entrance into Jackson. A line from Kalamazoo to Beaton Harbor is in course of construction, and all these lines will, when compitted, form a direct electric railway connection between Detroit and Chicago. We own the exclusive franchise for serving the citles which we traverse, and our lines run through their principal streets.

New England Investment & Security Co, —Suit to Enforce Guaranty of Preferred Stock.—See New York New Haven & Hartford RR. below.—V. 85, p. 864.

New York New Haven & Hartford RR.—Suit to Enforce Guaranty.—Kidder, Peabody & Co. of Boston on Wednesday filed a suit in the Supreme Judicial Court of Massachusetts with a view of obtaining a decision sustaining the validity of the guaranty of the 4% preferred stock of the New England Investment & Security Co. by the Consolidated Ry. and the liability of the New Haven road therefor by reason of its merger with the Consolidated Ry. Compare V. 83, p. 492, 1102

merger with the Consolidated Ry. Compare V. 83, p. 492, 1102.

The sult is stated to be similar to that brought by Mackay & Co. cf. New York in Connecticut. in which a formal order favorable to the plaint of his been entered and an appeal taken therefrom. (V. 86, p. 1590.) The questions involved, it is reported, arose principally through the discussions before the committee of the Massachusetts Legislature at its last session, having in charge proposed legislation affecting the holdings of the New Haven in the Boston & Maine, recently sold, and trolley roads in that State.—V. 87, p. 97.

New York City Ry.—Separate Receiver Appointed.—See Metropolitan Street Ry. above.—V. 86, p. 1530.

Pennsylvania RR.—New Trustee for Consolidated Mortgage.—The Girard Trust Co. of Philadelphia has been appointed trustee under the consolidated 4% mortgage of July 1 1873 to succeed Messrs. Shortridge, Barnes and Green.—V. 86, p. 1590.

Philadelphia Company, Pittsburgh.—Sale of Notes.—It is reported that the company has negotiated a sale of \$2,500,000 10-year notes to provide for improvements.—V. 86, p. 1229.

Pittsburgh Binghamton & Eastern RR.—Decision.—
Notice to Bondholders.—Former President F. A. Sawyer, having obtained a judgment of \$173,750 for breach of contract against the bankers who undertook to finance the enterprise, has made the following statement, in which he asks the co-operation of the bondholders with a view to reorganizing the company and completing the road:

"A number of bendholders have requested me to undertake the formation of a bondholders committee for the protection of their literests and to take such other action as may be deemed advisable by counsel. That such committee may be thoroughly representative, i request all the bondholders to communicate with me at once. F. A. Sawyer, formerly President Pittsburgh Binghamton & Eastern RR. Co., Canton, Pa."

A reorganization will probably effected and there is no question as veral bridges are in and about 6 miles of track lade has seen graded, several bridges are in and about 6 miles of track lade has been graded. Several bridges are in and about 6 miles of track lade has very take two years to complete the entire line, but we can enter the Pine Creek coal fields within six months after construction work is resumed. We intend to open up the extensive coal lands on the Walker property in Pine Township, on which the Pennsylvania Smokeless Fuel Co. holds a lease. The road will undoubtedly be a great benefit to Williamsport and all that section.—V. 83, p. 1229.

Rapid Transit in New York City.—Injunction against

Township, on which the Pennsylvania Smokeless Fuel Co. holds a lease. The road will undoubtesly be a great benefit to Williamsport and all that section.—V. 83, p. 1229.

Rapid Transit in New York City.—Injunction against Fourth Avenue Subway.—Justice Blanchard in the Supreme Court in this city on Monday, in the action brought by Jefferson M. Levy as a tax-payer, continued the injunction previously granted by Justice Erlanger restraining the Board of Estimate and Apportionment, pending the report of Benj. F. Tracy as referee to determine the amount of the citydebt and its borrowing capacity on June 30 last from confirming the award of contracts on account of the construction of the Fourth Avenue Subway recently approved by the Public Service Commission. Compare V. 86, p. 1160.

The Public Service Commission recently awarded contracts for six sections of the subway, the amounts aggregating about \$15,000,000, and requested the Board to vote \$2,850,000 of city bonds to begin the work, but this was not done, owing to the injunction. The Court says:

"The wide difference of opinion as to the constitutional borrowing capacity of the city by those who claim to have knowledge of the subject is very sexceeding \$60,000 (c), the ex-comparoller of the city, puts it at a sum can be appreciated to the experts like these differs on widely on a matter of such vital importance, and a judicial determination of the questions involved can be had, it would seem to be wise and proper to have them so determined."

The confirmation of the 1908 assessment rolls (see "New York City." V. 87, p. 111) by the Board of Aldermen within the next month or two will increase the city's borrowing capacity as of July 1 1908 by about \$45,000,000.—V. 86, p. 1410.

St. Louis Iron Mountain & Southern Ry.—Listed.—The New York Stock Exchange has listed \$60,000 additional "unifying and refunding" mortgage 4% bonds, due in 1929, making the amount listed \$30,533,000; also \$811,000 additional River & Gulf Divisions first mortgage 4% bonds, due in 1929.

the company.—V. 87, p. 98, 39.

Tarrytown White Plains & Mamaroneck Ry., New York.

—Notice to Holders of First Mortgage Bonds.—Sutro Bros. & Co., 44 Pine St., New York City, "representing the largest interest in these bonds," urge the bondholders to deposit their bonds at once. An advertisement on another page

Says:

In view of the Court's authorization of receivers' certificates to take precedence over the first mortgage bonds, also statements by the receivers' attorney in court of the property's operation at great loss, and of the early necessity for additional receivers' certificates for defraying operating expenses, also the large amount of unpaid accumulated taxes, which already possibly take precedence over the mortgage, and in view of the fact that on Wednesday July 15 1908 a motion before the Supreme Court for permission to give up certain important franchises (included under the mortgage) of the railway co. on the Boston Post Road, covering a gross distance of about 4 miles, the undersigned, representing the largest interest in these bonds, urgently request the immediate deposit of the above bonds. (The Knickerbecker Trust Co., as trustee of the mortgage, also requests to be advised without delay of the wishes of the bondholders.)—V. 87, p. 39

Taxas Southerr Rv.—Not Sald.—This property war

Texas Southern Ry.—Not Sold.—This property war offered at foreclosure sale by Special Master Commissionee P. M. Young at Marshall, Tex., on July 7, the upset prior being \$375,000. No bids were received. Another ordes of sale has been made for Aug. 4, when the upset prior will be \$225,000. A press dispatch to the "Dallas News" on July 10 said:

The St. Louis-Union Trust Co. filed a bond by F. M. diubbell of Des Moines, Iowa, and A. C. Perkins of St. Louis, Mo., for the sum of \$10,-000, guar-antecing a bid.

The report of the receiver, C. L. Taylor, of Longview, Tex., came up for consideration, and it appears that the railroad had been operated for the fiscal year ending June 30 1908, at a loss of over \$80,000.

Mr. Hubbell made a tender of \$6,290 for the terminals, which some time ago were declared to belong to certain trustees representing the citizens of Marshall.

ago were de of Marshall.

Receiver's Certificates.—The Texas Railroad Commission on July 10 approved a new issue of \$150,000 receiver's certificates, which had already, it is said, been authorized by the court.—V. 86, p. 795.

Tri-City Railway & Light Co., Davenport, O.—Increase of Stock.—The company has filed a certificate of increase of \$215,000 in the preferred stock. There is now \$2,826,200 preferred stock outstanding.—V. 87, p. 98.

Underground Electric Railways of London.—Plan Sanctioned.—The Chancery Court in London on July 17 confirmed the plan for the readjustment of the company's finances. See V. 86, p. 1044, 1101, 1287.

See V. 86, p. 1044, 1101, 1287.

Wabash-Pittsburgh Terminal Ry.—Agreement Modified.—
The committee under the agreement for the deposit of the first mortgage 4% bonds dated June 3 1908, J. N. Wallace, Chairman, gives notice that it has modified and amended that agreement and has filed the amendments with the Central Trust Co. of New York and the Old Colony Trust Co., the depositaries. Copies of the amendments may be obtained from the depositaries or from the Secretary of the committee, Franklin L. Babcock, 54 Wall St.

Receivers' Certificates Desired for Improvements.—The receivers of this company and its subsidiary, the West Side Belt Ry., applied to Judge James S. Young in the United States District Court at Pittsburgh on July 14 for authority to issue \$1,654,921 receivers' certificates, \$954,201 to be for the Terminal Ry. Co. and \$700,720 for the West Side Belt. As to the application of the proceeds, the "Pittsburgh Gazette" of July 15 says:

In the case of the Belt Line, it is proposed to bulld a steel bridge at West Comments of the Belt Line, it is proposed to bulld a steel bridge at West Comments of the Belt Line, it is proposed to bulld a steel bridge at West Comments of the Belt Line, it is proposed to state 18 treather whether the state of the Belt Line, it is proposed to state 18 treather whether the state of the Belt Line, it is proposed to a state 18 treather whether the state of the Belt Line is the proposed to the Belt Line is the proposed to a state 18 treather whether the state of the Belt Line is the proposed to a state 18 treather whether the state of the Belt Line is the proposed to a state 18 treather whether the state of the Belt Line is the proposed to a state 18 treather whether the state of the Belt Line is the proposed to a state 18 treather the state of the Belt Line is the proposed to a state 18 treather the state of the Belt Line is the proposed to a state 18 treather the state of the Belt Line is the proposed to a state 18 treather the state of the Belt Line is the proposed to a stat

In the case of the Belt Line, it is proposed to build a steel bridge at West Carson St., a stone wall along Sawmill Run and to repair 18 trestles which are said to be so rotten that traffic has been abandoned on them for several months.

On the Terminal road there are 17 tunnels which the remainder of the several control of the several contro

are said to be so rotten that traffic has been abandoned on them for several months.

On the Terminal road there are '17 tunnels which, the report states, are lined with wood, making them unsafe. It is also stated that the road has but little equipment outside of (79) work cars and (4) work engines, the company having depended on the Wheeling & Lake Erie for motive power. (The sum of \$204,000, it is stated, is desired for the purchase of 12 locomotives,—Ed. "Chronicle.")

With the petition were filed preliminary reports giving an exhaustive statement of the road's affairs. The Terminal road, it is stated, has 98.47 miles of trackage and 7.91 miles of mine tracks, the latter not being owned but operated by it. On the line are 76 steel bridges and 17 tunnels. The bridges are said to need painting, while the Mt. Washington Greentree and Warrent tunnels are classed as particularly dangerous. The cost of all real estate and buildings, including the terminal station, warehouses, &c., is given at \$4,987,058, the real estate costing \$4,953,239, of which four pieces are held in trust by George J. Gould and 10 pieces by the C. Needham. These have been turned over to the receivers. It is stated to company is losing money on account of not having sullander tracafacilities. The restless, however, are in bad condition.—V. 86, p. 1531.

West Side Belt Rv., Pittsburgh,—Proposed Issue of

West Side Belt Ry., Pittsburgh.—Proposed Issue of Receivers' Certificates.—See Wabash-Pittsburgh Termina Ry. above.—V. 86, p. 1591.

Wheeling & Lake Eric RR.—Equipment Bondholders' Committee.—In view of the default of the interest due July 1 on the \$2,094,000 gold 5% equipment bonds due 1922, a bondholders' committee has been formed, and makes the following announcement:

Frederick J. Lisman, Willard V. King, Sidney C. Borg, Evans R. Dick of this city and John D. Howard of Baltimore, at the request of a large number of holders, have formed a committee for the protection of their interests. The Columbia Trust Co. of this city has been designated as the depository, and holders have been requested promptly to deposit their bonds. Wm. G. Edinburg of No. 30 Broad St. is Secretary, and Paskus Cohen, Lavelle & Gorden of No. 2 Rector St. are counsel for the committee.

Payment of Principal and Interest of Equipment Obligations. Receiver Worthington, in answer to inquiries from holders of the various equipment obligations, says: "I desire to advise all holders of such obligations that I expect to pay the same. The Circuit Court is now on vacation. On July 30 at Cleveland we shall apply for an order directing the payment of such obligations"—V. 87, p. 40.

INDUSTRIAL GAS AND MISCELLANEOUS.

Albemarle & Chesapeake Canal Co., Norfolk, Va.—
Reorganization Plan.—As it appears to the best interests
of the security holders to affect some reorganization prior
to the maturity of the \$500,000 first mortgage bonds in
July 1909, rather than to have the assets sacrificed at public
sale, the directors, under date of July 1, have made a full
report as to the status and history of the company, and have
submitted as proposition for reorganization intended to submitted a proposition for reorganization intended to afford an opportunity to work out said assets to advantage. The plan is as follows:

The present capitalization follows:
Capital stock (par value of shares, \$100)
First mortgage bonds 4% (rate reduced from 7% in 1903)
Second mortgage income debenture bonds 3% cumulative (no interest earned or paid)

Second mortgage coulds 4% (rate request from 7% in 1903) — 500,000 second mortgage toolds 4% (rate requestres) — 51,173,200 Let each bondholder surrender his first mortgage bonds to a trustee and accept in exchange therefor a bond for one-half the amount surrendered, and capital stock for the other half. Issue to each of the bondholders capital stock for his debenture bonds. Give to each stockholder one share of stock for every five shares now owned. This would make the outstanding security as follows:
First mortgage 5% 10-year gold bonds, total issue — \$250,000 Capital stock in shares of \$100, total authorized Issue to be — 500,000 Stock issuable in lieu of debentures — \$115,000 do do in lieu of ypresent 1st M. bonds — 250,000 Stock in treasury — 11,040 do do in lieu of ypresent 1st M. bonds — 250,000 Stock in treasury — 12,3360 This would make the annual interest charge \$12,500. With the present earning power of the canal, this interest charge \$12,500. With the present earning power of the canal, this interest charge \$12,500. With the present earning power of the traffic or soliciting department, the earning power could be required to the carning power could be requir

President John Claffin makes the following comments:
In our last report we stated that we had inventoried our merchandise prices lower than those announced by manufacturers for the spring of 1908. In point of fact, our figures were greatly below market prices, and we thought they would prove low enough to insure a satisfactory profit in the season just ended. The experience of the season, however, in cancellation of orders, and in almost continuous crumbling of prices, was beyond precedent. We again inventory our merchandise below current prices, making a loss of \$7,436 for the six months; but we believe prices touched bottom in June, and we look for improvement in values during the autumn. The fact that the retail trade throughout the country has pretty thoroughly disposed of its surplus stocks justifies the expectation of a steadily increasing business at wholesale.—V. 86, p. 166.

Rommonwealth Power** Co... Jackson, Battle Creek and

Commonwealth Power Co., Jackson, Battle Creek and Kalamazoo, Mich.—Bonds Offered.—Earnings.—N. W. Harris & Co., New York, and Perry, Coffin & Burr, Boston, in offering at 92 and interest a block of first mortgage 5% gold bonds, dated Dec. 1 1904, due Dec. 1 1924 (authorized issue \$4,000,000, outstanding \$2,468,000, held in escrow under conservative restrictions \$1,532,000), report earnings, &c.:

ANNUAL EARNINGS.

Feb. 28 1907 (not 1908) said:

A large proportion of the electricity is generated by water-power station of 9.700 h.-p. capacity, on the Kalamazoo and Grand rivers. Reserve steam stations of 6.000 h.-p. capacity are located in Kalamazoo, Batti-Creek and Jackson. In addition, a new water-power plant at Webber of 5.000 h.-p. capacity will be placed in operation within a month. Upon 10.700 h.-p. Additional water rights are covered on the Kalamazoo, Batti-Oron Display and the state of the Capacity and the state of the Capacity are covered on the Kalamazoo, Batti-Oron Display and the state of the company has extensive distributing systems and furnishes electric light and power in Allegan, Otsero, Kalamazoo, Battie Creek, Marshall, Albion, Jackson, Lansing and intermed late points. The power is transmitted by a bigh tension transmission system comprising 170 miles of lines. The escow bonds may be issued to rein-burse the company for not exceeding 75% of actual expenditures for extensions and additions, including, with the consent of the bankers, additional water-power development, or, with like consent, to cover the actual cost of acquiring other subsidiary properties, but in no case unless the net earnings of the company, after deducting all operating expenses, taxes and maintenance and depreciation charges for the preceding tweive months shall have been at least twice the annual interest charge on all bonds outstanding, as well as those proposed to be issued. Compare V. 80, p. 25, 1114

Des Moines Water-Works Co.—Successor Company.—See Des Moines Water Co. above.—V. 67, p. 633, 689.

Des Moines Water Co. above.—V. 67, p. 633, 689.

Des Moines Water Co.—New Corporation—Bond Issue.—
This company, incorporated under the laws of Maine on March 26 1907 with \$500,000 capital stock and licensed last December to do business in Iowa, took title on Dec. 23 to the property theretofore owned by the Des Moines Water Works Co. (V. 67, p. 633, 689) and filed a mortgage to the Metropolitan Trust Co. and R. W. K. Anderson, as trustees, to secure an issue of \$2,500,000 bonds of \$1,000 each to fund and secure all outstanding indebtedness and to provide for improvements. On Feb. 29 City Solicitor Bremner reported favorably to the City Council as regards the reorganization and the new bond issue. The company's franchise expires May 1 1911; it gives to the city the right to purchase the plant at any time on a certain basis (see "Des Moines Register" of March 1.) H. M. Payson & Co., Portland, Me., are interested.

. T. Guernsey of Des Moines, counsel, is quoted:

N. T. Guernsey of Des Moines, counsel, is quoted:
This is in effect merely a reorganization and will involve no change what
ever in the management. The company in recent years has expended
large amounts in addition to and betterments of its plant, including the
pumping station and equipment, and in extensions of its mains, lately the
nance under which the company is operating. The company further has
had under consideration extension work in connection with its water
supply which will require very heavy expenditures in the near future.
These matters have rendered this reorganization necessary. Under this
reorganization, neither the amount of the company's stock nor of its outrestanding bonded debt has been increased a dollar and by the terms of the
new trust deed the proceeds of the additional bonds which may be issued
from time to time must be used in paying for extensions, betterments and
permanent improvements.

when the Houston Oil Co. and Kirby Lumber Co. were placed

when the Houston Oil Co. and Kirby Lumber Co. were placed in the hands of receivers.

Under this decree the Kirby Lumber Co. abandons all its claims against the Houston Oil Co. and the position of the timber certificates is recognized and confirmed as a first lien on the timber contract and on all the property of the Houston Oil Co. Provision is also made for a second series of timber certificates with a lien following the present issue of timber certificates, and, like them, maturing serially semi-annually. annually

The Houston Oil Co. expects shortly to make some arrangement with its creditors and to be taken out of the hands of the receiver. The plan published this week in various newspapers was suggested several years ago, and is not now, it is stated, scriously considered.—V. 86, p. 232.

trustee to retire \$540,000 bonds of acquired properties. Further amounts are reserved for extensions, additions, &c. See full particulars in V. 84, p. 1490,—Ed.)—V. 85, p. 224.

Kinloch Long Distance Telephone Co. of Missouri.—Bonds Offered.—The Altheimer-Rawlings Investment Co., Bauer Bros. and the Orthwein Investment Co., all of St. Louis, are offering at 83½ and interest, yielding about 6½%, \$200,000 first mortgage 5% gold bonds, dated Jan. 2 1904 and due Jan. 1 1929. Interest payable Jan. 1 and July 1 at Mississippi Valley Trust Co., St. Louis, trustee. Bonds authorized, \$5,000,000, of which there was outstanding Dec. 31 1907 \$2,279,000; in treasury, \$386,000; reserved for extensions under restrictions, \$2,335,000. A circular says:

These bonds are a first llen on all the properties and tranchises of the company and, in addition, are secured by deposit with the trustee of all the stock of the Kinloch Telephone Co. of St. Louis. A comparative statement of the years 1901 to 1907 shows a steady growth in revenue from \$49,659 to \$282,425. During the year 1907 the company showed a net gain of 4,129 telephones, or 18½%, and from October 1907 to June 1908 (in the panic period) a gain of 2,118 telephones.

Abstract of Letter from Mr. H. Linton Reber, Secretary and General Manager June 24 1908.

Since November 1900 the company has earned and paid dividends of not less than 4%, and since 1904 5% on all its outstanding stock. The company operates its own exchanges in many cities and towns in the vicinity of St. Louis, including Alton, Belleville, Brooklyn, Collinsville, Edwards-ville, Freeburg, Granite City, Madison, Marine, New Athens and Venice. The company operates its own exchanges in the work to Sedalla, Mo.; in the southwest to Jophln, Mo. and Pittsburg, Girad, Columbus, Cherokee and Iola, Kan. Connection is had with independent exchanges throughout the several States mentioned under contracts running from 25 to 49 years. Through this service and its own toll lines the company has connection with over \$50,000 in

more than 4,500 telephones in its own cachanges and toil stations; it has approximately 1,100 miles of pole lines, carrying 11,500 miles of copper more than 4,500 telephones of pole lines, carrying 11,500 miles of copper in a didtion the company has acquired all the properties of the Kinloch Telephone Co., operating a main and three branch exchanges, with more than 27,000 telephones, in St. Louis and East St. Louis. The main exchange building and two of the branches are owned by the company and are fireproof throughout. The main exchange building is a new, modern, fireproof building of six stories, located at 10th and Locust streets; the tree upper floors are occupied by the Long Distance Company and its aff liated companies. The present number of working lines installed is 12,500, with an ultimate capacity of 20,000 lines, providing acilimes of underground conduit, 380 miles of underground and aerial cable, 375 miles of pole lines and 5,400 miles of aerial copper wire.

The Long Distance Company has also acquired and reconstructed the properties of the Suburban Telephone Co. (V. 84, p. 1433), owning and operating 1,100 telephones in its exchanges in St. Louis County, Mo. The net earnings of the combined properties for the year 1907 applicable to interest and dividends aggregated over \$538,000. The revenues are constantly increasing, even during the panic period, and it is estimated that such net earnings will equal more than \$625,000 for the year 1908.

La France Copper Co.—Offer of Notes of the United Copper
Co. for Coupons Due in 1908.—The shareholders in November 1906 authorized an issue of \$2,000,000 first mortgage ber 1906 authorized an issue of \$2,000,000 first mortgage 25-year 6% bonds, convertible into common stock. The interest on these bonds was not paid Jan. 1 or July 1 1908, and the United Copper Co., which is largely interested in the enterprise, F. Augustus Heinze being the President of both corporations, accordingly made, during June, the following offer to the holders of the bonds, the interest on which it had guaranteed:

The La France Copper Co. failed to pay the coupons due on its first mortgage bonds Jan. 1 1908 and the directors now advise this company that they will be used to be a supported by the mortgage could be used to take care of interest on its bonds and the sinking fund obligations, and we think has a prosperous year before it, with any return to normal business conditions.

Our counsel advise us that our liability under the guaranty of interest on the bonds secured by the mortgage could not be enforced until after the foreclosure of the same, and sale of the property. This will result in considerable delay and expense, and we think can be entirely avoided, either by a recovery of the metal market or developments in the company's territory, which are likely to yield much higher grades of ore than are now exposed.

Under present conditions of business depression, the United Copper Cohas so many calls upon it for tunds in maintaining its business interests, that for the purpose of preserving the investment as it now exists it makes the following offer: For all unpaid coupons due Jan. I 1908 It will give, at its office, 74 Broadway, its note, payable July 1 1909, for the face value of the coupons, and interest at 6% from Jan. I 1908 It bully 1 1909. For all coupons due July 1 1908 it will give a similar note, with the same maturity and bearing the same interest. The United Copper Co. has no indebtedness beyond its current expenses.

A large number of bondholders have expressed their willingness to accept this settlement.

(The common stock of the La France Copper Co. is stated to be[\$6,000,000; preferred. \$1,000,000; pay of shares, \$25.—Ed.)—V. 83, p. 972.

United Fruit Co., Boston.—New Stock—Extra Dividend.—A circular dated July 11 1908 has the following additional information regarding the extra dividend of 10% payable Aug. 1 to holders of record July 20 and the right extended to holders of said date to subscribe for new stock:

The amount of the extra dividend payable to each shareholder is the same as the amount of stock for which he is entitled to subscribe. and may be used in payment of his subscription. A form of subscription is enclosed herewith which authorizes the Treasurer to apply your extra dividend in payment of your subscription. A form of assignment of rights attaching to shares held on July 20 1908 is also enclosed and stockholders should note that the assignment includes the extra dividend payable on the said shares. All subscriptions must be filed at the office of the Old Colony Trust Co., Boston, Mass., or the Manhattan Trust Co., New York City, at or before noon on July 31 1908. Sald trust companies will purchase or sell rights to fractions of shares at a price to be fixed from time to time by the company, based on the market value of the shares. Certificates for new shares will be malled to the addresses given on the subscriptions as soon as prepared after Aug. 1 1908.—V. 87. p. 101

—Moffat & White, bankers, 5 Nassau St., New York City, make an interesting bond offering by advertisement to-day on another page. The firm owns and offers conservative investors \$500,000 Cleveland Cincinnati Chicago & St. Louis Ry. Co. general mortgage gold 4s, due 1993, of which \$23,986,000 are outstanding of the \$50,000,000 authorized. \$23,986,000 are outstanding of the \$50,000,000 authorized. This bond is secured by a refunding lien on 1,117 miles of railroad, by a lien on leases and operating contracts covering \$51 miles, is first lien on bonds par value \$13,871,000 and stocks par value \$19,487,000 and second lien on bonds and stocks par value respectively \$2,498,000 and \$2,666,125. The equity of this issue is followed by \$5,000.000 5% notes, \$10,000,000 preferred stock paying 5% dividends and \$47,056,300 of common stock. It is well known that the Lake Shore & Michigan Southern Railway Co. owns a majority of the stock and controls the Cleveland Cincinnati Chicago & St. Louis Ry. Co. in the interest of the New York Central system. Moffat & White also own and offer \$250,000 Chicago St. Paul Minneapolis & Omaha Ry. Co. consolidated mortgage 6s due 1930 and \$250,000 Chicago Burlington & Quincy RR. Co. general mortgage 4s due 1958. Both of these issues are stated to be legal investments for New York, Massachusetts and Connecticut savings banks. Massachusetts and Connecticut savings banks.

—The Philadelphia bond house of Westling & Emmett, 1125 Land Title Building, offers investors the remaining unosold portion of the Denver Suburban Homes & Water Co. first mortgage 6% serial irrigation bonds. A representative body of Pennsylvania business men have recently we are told, returned from an inspection of this property and after examining the lands and irrigation system of the compact, stand reducing the description of the second of the and after examining the lands and irrigation system of the company, stand ready individually to answer any inquiries as to the value of the property. These bonds, it is stated, are a first and only lien on a complete and operating irrigation system and 20 square miles of valuable lands adjoining the city limits of Denver, Colo. Principal and semi-annual interest is payable at American Trust & Savings Bank, Chicago, and the West End Trust Co., Philadelphia. Circular will be mailed to interested parties upon application.

—The semi-annual number of the Hand-Book of Securities issued this week by the publishers of the "Commercial and Financial Chronicle" contains a monthly range of prices to July 1 of stocks and bonds sold at the Stock Exchanges in New York, Boston, Philadelphia, Baltimore, Chicago and Pittsburgh. There is also a yearly range of prices for bonds and stocks sold on the New York Stock Exchange for the past six years and a yearly range for 3½ years of Boston and Philadelphia prices. In addition to the tables of prices, the book contains elaborate tables with details of securities, together with the earnings and fixed charges of the respective companies, and showing as nearly as practicable the surplus available to meet charges and dividends. There is a table of dividend payments for 6½ years. The book contains 192 pages. Price one dollar.

-Tobey & Kirk. 25 Broad St., advertise in this issue a list of securities which they are prepared to buy or sell.

The Commercial Times.

COMMERCIAL EPITOME.

Friday Night, July 17, 1908.

The drift is towards improvement, but the progress is slow, even if confidence is apparently spreading. Prices are for the most part well sustained, with the crop outlook promising. The export demand for wheat has increased and

for the most part well sustained, when the corporations of the export demand for wheat has increased and iron furnaces and steel mills are doing a better business.

LARD on the spot has ruled firm, but without important change in prices. Trade has been quiet, but receipts of hogs have been light at strong prices and the offerings of products have been small. The demand has been principally from local jobbers. Western 9.60@9.70c. and City 9½c. Refined lard has advanced, owing to the strong hog market and light supplies and offerings. Trade has been moderately active. Refined Continent 10.05c., South America 10.65c. and Brazil in kegs 12c. Speculation in lard futures has been active. Prices have shown considerable irregularity. There has been heavy realizing on all strong spots. The undertone has been heavy realizing on all strong spots. The undertone of the market, however, has been firm, owing to the strong hog situation, support from packers and buying by commission houses on the setbacks.

and steady; yellow 65@80c. Cod has been moderately active and steady; domestic 40@42c. and Newfoundland 42@44c.

COFFEE on the spot has been quiet and steady. Rio No. 7 6½c. and Santos No. 4 8¾@8½c. West India growths have been steady with a small jobbing trade. Fair to good Cucuta 8½@9¾c. The speculation in future contracts has been extremely quiet. On one day there were no transactions whatever. The changes in prices have been correspondingly small. In the main the tone of the market has been somewhat easier, owing to scattered liquidation by tired longs. There has been nothing of a stimulating character in the foreign news and Europe has sold here to some extent. Dealers and roasters have been the chief buyers.

The closing prices were as follows:

The closing prices were as follows:

July 6.05c. November 5.80c. April 5.80c. August. 5.90c. December 5.80c. April 5.90c. October 5.80c. Howember 5.80c. April 5.90c. October 5.80c. February 5.80c. April 5.90c. October 5.80c. April 5.80c. April 5.80c. April 5.80c. April 5.80c. April 5.80

small scale. There have been rather large withdrawals of Sumatra, and this, with the fact that supplies of leaf in the hands of manufacturers are small, has given rise in some quarters to hopes that the demand for domestic leaf will soon increase. Havana has been quiet. Prices have generally been steady.

COPPER has been dull and steady; lake 12¾@12½c. and electrolytic 12½@12½c. Lead has been quiet and steady at 4.45c. Spelter has been dull and steady at 4.45c. Tin has been quiet and steady; Straits 29½c. Iron has been more active and steady; No. 1 Northern \$16 25@\$17 and No. 2 Southern \$16 25@\$16 75.

COTTON.

Friday Night, July 17 1908.

THE MOVEMENT OF THE CROP as indicated by our telegrams from the South to-night is given below. For the week ending this evening the total receipts have reached 25,012 bales, against 33,723 bales last week and 53,544 bales the previous week, making the total receipts since the 1st of September 1907, 8,170,320 bales, against 9,637,198 bales for the same period of 1906-07, showing a decrease since Sept. 1 1907 of 1,466,878 bales.

Speculation in cotton for future delivery has been generally light aside from the trading of a few prominent operators for and against the price. Quotations show very slight net changes for the week. At times the drift of prices has been upward, owing partly to the change of front by prominent Wall Street interests, recently short, but which liquidated their obligations on that side of the market and have latterly been buying for a rise. Spot people, too, for a time were steady buyers of October, supposedly against sales of January and March, and New Orleans and Liverpool operators have also bought here to some extent. Latterly, however, prices have receded, losing the improvement of the fore part of the week, owing partly to long liquidation, partly to aggressive selling on the short side by local operators and partly, as it is understood, to rather heavy sales of October by spot interests. The upshot was that prices, so far as net changes are concerned, show little variation from those of a week ago, in spite of the fact that the weather and crop reports during the week have in the main been very favorable, though there have been some advices of rather high temperatures in parts of Arkansas, Mississippi and Louisiana, and an idea prevails that some parts of Texas need rain. Trade has been slow, spot markets quiet and in Texas, it is stated, inclined to yield, and speculation has continued very sluggish so far as the participation of the outside public is concerned, or, indeed, that of the bulk of the cotton trade. But while local operators and, according to the common understanding, some large spot interests, have latterly been persistent sellers, Wall Street, if not Chicago, has been buying, the price is considerably lower than that of a year ago, stocks at New York and Liverpool are light, and there is a belief in some quarters that the recent very favorable weather conditions can hardly be expected to continue uninterrupted for the rest of the season. Most people, however, are looking for a favorable Augus

The rates on and off middling, as established Sept. 11 1907 by the Revision Committee, at which grades other than middling may be delivered on contract, are as follows:

THE VISIBLE SUPPLY OF COTTON to-night, as made up by cable and telegraph, is as follows. Foreign stocks, as well as the afloat, are this week's returns, and consequently all foreign figures are brought down to Thursday evening. But to make the total the complete figures for to-night (Friday), we add the item of exports from the United States, including in it the exports of Friday only.

WEATHER REPORTS BY TELEGRAPH .- Our telegraphic advices from the South this evening are in the main of a satisfactory tenor. At a few points there has been a little too much rain and moisture is claimed to be needed in some sections, but quite generally the weather has been favorable during the week, and the crop is reported to be doing well on the whole.

Galveston, Texas.—Crop is doing well except that reports of boll-weevils and shedding continue to come from South Texas. We have had rain on three days of the past week, the rainfall reaching fifty-seven hundredths of an inch. The thermometer has averaged 82, the highest being 99,

The thermometer has averaged 82, the highest being 99, and the lowest 74.

Abilone, Texas.—We have had rain on three days during the week, the rainfall being sixty-two hundredths of an inch. The thermometer has averaged 81, ranging from 66 to 96.

Brenham, Texas.—We have had no rain during the week. The thermometer has ranged from 69 to 92, averaging 81.

Corpus Christi, Texas.—The week's rainfall has been twenty-two hundredths of an inch on two days. Average thermometer 83, highest 90 and lowest 76.

Cuero, Texas.—We have had no rain during the week. The thermometer has averaged 86, the highest being 99 and the lowest 73,

Dallas, Texas.—Rain has fallen on three days of the past week, the rainfall reaching one inch and fifty-nine hundredths. Thermometer has averaged 83, ranging from 68 to 98.

dredths. Thermometer has averaged 83, ranging from 68 to 98.

Fort Worth, Texas.—The week's rainfall has been two hundredths of an inch, on one day The thermometer has ranged from 72 to 96, averaging 84.

Henrietta, Texas.—We have had rain on two days during the week, to the extent of sixty-four hundredths of an inch. Average thermometer 82, highest 98, lowest 67.

Huntsville, Texas.—There has been no rain during the week. The thermometer has averaged 80, the highest being 95 and the lowest 65.

Kerrville, Texas.—We have had rain on three days the past week, the rainfall reaching one inch and thirteen hundredths. The thermometer has averaged 79, ranging from 62 to 97.

62 to 97.

Lampasas Texas.—We have had no rain the past week. Thermometer has ranged from 68 to 99, averaging 84.

Longview, Texas.—Dry all the week. Average thermometer 84, highest 98 and lowest 69.

Luling, Texas.—There has been rain on two days during the week, the precipitation reaching fifteen hundredths of an inch. The thermometer has averaged 83, the highest being 65 and the lowest 70.

an inch. The thermometer has averaged 53, the ingless being 95 and the lowest 70.

Nacogdoches, Texas.—Rain has fallen on one day of the past week, the rainfall reaching sixteen hundredths of an inch. The thermometer has averaged 79, ranging from 63

Palestine, Texas.—We have had showers on three days during the week, the precipitation reaching nineteen hundredths of an inch. The thermometer has ranged from 63 to 94, averaging 80.

Paris, Texas.—We have had rain on one day during the week, to the extent of twenty-seven hundredths of an inch. Average thermometer 83, highest 97, lowest 68.

San Antonio, Texas.—Rain has fallen on one day the past week, the rainfall reaching fourteen hundredths of an inch. The thermometer has averaged 83, the highest being 96 and the lowest 70.

Taylor, Texas.—We have had a trace of rain on two days during the week. The thermometer has averaged 82, ranging from 68 to 96.

weatherjord, Texas.—We have had rain on one day during the week, the precipitation reaching eleven hundredths of an inch. The thermometer has ranged from 71 to 100,

of an inch. The thermometer has ranged from 11 to 150, averaging 86.

Ardmore, Oklahoma.—There has been rain on one day during the week, the precipitation reaching fifty hundredths of an inch. Average thermometer 82, highest 95 and lowest

68.

Holdenville, Oklahoma.—We have had no rain during the week. The thermometer has averaged 80, the highest being 93 and the lowest 67.

Marlow, Oklahoma.—We have had rain on two days the past week, the rainfall reaching twenty hundredths of an inch. The thermometer has averaged 80, ranging from 65 to 04.

65 to 94.

Oklahoma, Oklahoma.—We have had only a trace of rain during the week. The thermometer has ranged from 66 to 92, averaging 79.

Amite, Louisiana.—The week's rainfall has been two inches and thirty hundredths, on four days. Average thermometer 82, highest 96 and lowest 65.

Alexandria, Louisiana.—There has been no rain during the week. The thermometer has averaged 82, the highest being 96 and the lowest 68.

being 96 and the lowest 68.

New Orleans, Louisiana.—There has been rain on three days of the past week, the rainfall reaching fifty hundredths of an inch. The thermometer has averaged 83, ranging

of an inch. The thermometer has averaged 83, ranging from 71 to 94.

Shreveport, Louisiana.—We have had rain on one day during the week, the precipitation reaching sixteen hundredths of an inch. The thermometer has ranged from 70

dredths of an inch. The thermometer has ranged from 70 to 96, averaging 83.

Columbus, Mississippi.—Rain has fallen on one day of the week, the rainfall being eight hundredths of an inch. Average thermometer 82, highest 98, lowest 66.

Meridian, Mississippi.—There has been rain on one day during the week, the precipitation reaching six hundredths of an inch. The thermometer has averaged 81, the highest being 95 and the lowest 67.

Vicksburg, Mississippi.—We have had no rain during the week. The thermometer has averaged 82, ranging from 69 to 95.

the week. The thermometer has averaged 82, ranging from 69 to 95.

Eldorado, Arkansas.—We have had no rain during the veek. Average thermometer 83, highest 98, lowest 68.

Fort Smith, Arkansas.—There has been rain on one day of the week to the extent of eighteen hundredths of an inch.

The thermometer has averaged 82, the highest being 96 and the lowest 68.

and the lowest 68.

Helena, Arkansas.—Cotton is fine but corn needs rain.

There has been rain on one day the past week, the rainfall being two hundredths of an inch. The thermometer has ranged from 65 to 94, averaging 82.

Little Rock, Arkansas—There has been rain on one day during the week, to the extent of twelve hundredths of an inch. The thermometer has averaged 83 ranging from 70 to 96.

70 to 96.

Memphis, Tennessee.—Crop reports continue good. Rain would be desirable but cotton is not suffering. There has been no rain during the week. The thermometer has ranged from 67.8 to 93.2, averaging 81.9.

Nashville, Tennessee.—We have had rain on one day of the week, the rainfall being forty-eight hundredths of an inch. Average thermometer 81, highest 94, lowest 68.

Montgomery, Alabama.—Crops are doing well, but moisture is wanted. There has been no rain during the week. The thermometer has averaged 82, ranging from 70 to 96.

Selma, Alabama.—There has been rain on two days of the past week, the rainfall being eighty-five hundredths of an inch. The thermometer has ranged from 68 to 96, averaging 83.

the past week, the rainfail being eighty-five hands an inch. The thermometer has ranged from 68 to 96, averaging 83.

Mobile, Alabama.—Very high temperature in the interior latter part of week. Rain is needed in some sections; otherwise cotton is in fine condition. We have had rain on one day during the week, the precipitation being thirteen hundredths of an inch. The thermometer has averaged 83, ranging from 72 to 97.

Madison, Florida.—The week's rainfall has been one inch and thirty-three hundredths, on four days. Average thermometer 81, highest 95 and lowest 72.

Tallahassee, Florida.—It has rained on five days of the week, the rainfall being five inches and thirty-six hundredths. The thermometer has averaged 82, the highest being 93 and the lowest 70.

Atlanta, Georgia.—Rain has fallen on two days of the week, the rainfall being twenty-three hundredths of an inch. The thermometer has averaged 80, ranging from 67 to 92.

Augusta, Georgia.—There has been rain on one day during the week, the precipitation being two hundredths of an inch. Thermometer has ranged from 65 to 96, averaging 80.

Savannah, Georgia.—We have had rain on six days during the past week, the rainfall being one inch and eighty-one hundredths. Average thermometer 80, highest 94 lowest 69.

Washington, Georgia.—We have had rain on one day of the week, the rainfall being fourteen hundredths of an inch. The thermometer has averaged 80, ranging from 66 to 94.

Charleston, South Carolina.—Rain has fallen on four days of the week, the rainfall being fourteen hundredths of an inch. The thermometer has ranged from 68 to 95, averaging 80.

Greenwood, South Carolina.—The week's rainfall has been fifteen hundredths of an inch, on one day. Average thermometer 79, highest 95, lowest 64.

Charlotte, North Carolina.—Prospects fine. The wee rainfall has been but a trace on one day. The thermomethas averaged 79, the highest being 94 and the lowest 64. fine. The week's The thermometer

Greensboro, North Carolina.—There has been rain on one day during the week, the precipitation reaching twelve hundredths of an inch. The thermometer has averaged 79, ranging from 62 to 95.

Raleigh, North Carolina.—Rain has fallen during the week, to the extent of forty-eight hundredths of an inch, on one day. The thermometer has ranged from 62 to 96, averaging 79.

According to the foregoing Bombay appears to show a decrease compared with last year in the week's receipts of 21.000 bales. Exports from all India ports record a loss of 7,000 bales during the week and since Sept. 1 show a decrease of 616,000 bales.

ALEXANDRIA RECEIPTS AND SHIPMENTS OF ALEXANDRIA RECEIPTS AND SHIPMENTS OF COTTON.—Through arrangements made with Messrs. Choremi, Benachi & Co., of Liverpool and Alexandria, we now receive a weekly cable of the movements of cotton at Alexandria. Egypt. The following are the receipts and shipments for the past week and for the corresponding week of the previous two years:

Alexandria, Egypt, July 15.	1907-08.		190	6-07.	1905-06.		
Receipts (cantars)— This week Since Sept. 1		7,000 53,532		1,100 59,179	1,000 5,875,020		
Exports (hales) —	This week.	Since Sept. 1.	This week.	Since Sept. 1.	This week.	Since Sept. 1.	
To Liverpool To Manchester To Continent To America	4.250 7,900	214,347 201,715 344,449 114,532	1,000	?14,347 201,715 144,449 114,532		200,439 171,006 324,783 69,377	
Total exports	17,250	875,043	4,800	375,043	5,300	765,60	

Note .- A cantar is 93 lbs Egyptian bales weigh about 750 lbs.

This statement shows that the receipts for the week were 7,000 cantars and the foreign shipments 17 250 bales.

WORLD'S SUPPLY AND TAKINGS OF COTTON .-

The following brief but comprehensive statement indicates at a glance the world's supply of cotton for the week and since Sept. 1, for the last two seasons, from all sources from which statistics are obtainable, also the takings, or amounts gone out of sight, for the like period.

COTTON CONSUMPTION AND OVERLAND MOVE-MENT TO JULY 1.—Below we present a synopsis of the crop movement for the month of June and the ten months ended June 30 for three years:

	1907-08.	1906-07.	1905-06.
Gross overland for June bales	79,061		
Gross overland for 10 months	1,104,360		
Net overland for June	65,104	32,615	31,631
Net overland for 10 months			
Port receipts in June	242,157		
Port receipts in 10 months	8,086,498		
Exports in June	263,714		
Exports in 10 months	7,201,152		
Port stocks on June 30	262,660		
Northern solnners' takings to July 1	1,770,515		2,311,216
Southern consumption to July 1	1,963,000	2,050,000	1,993,000
Overland to Candaa for 10 months (in-			2000 2000
cluded in net overland)	103,469		
Burnt North and South in 10 months			
Stock at North .Interior markets July 1.	11,003		
Came in sight during June	366,261		
		13,052,167	
Came in sight balance season		498,593	
Total crop			11,319,860
Average gross weight of bales	509.19		
Average net weight of bales	486.10	492.70	486.62

MANCHESTER MARKET.—Our report received by cable to-night from Manchester states that the market is quiet for both yarns and shirtings. Production is being contracted largely. We give the prices for to-day below and leave those for previous weeks of this and last year for comparison.

BREADSTUFFS.

Friday, July 17, 1908.

Prices for wheat flour have ruled firm, owing to the rise in wheat. At times there has been some increase in the demand from jobbers. As a rule, however, improvement in business has been of short duration. Supplies in the hands of dealers are small, but they still show no disposition to replenish them. Export trade has been dull. Rye flour has been dull and easier. Corn meal has been quiet but firmer on small stocks.

Wheat, under the spur of hot, dry weather at the Northwest and a revival of export trade, small American reserve stocks and a belief that the crops in Russia and the Danubian provinces will be comparatively light, has advanced. Rains and cooler weather at the Northwest at one time, however, caused a reaction, so that the net rise for the week is, after all, nothing very great. Still the advocates of better prices think that their hands have been strengthened by the developments of the week. Judging by the tone of the European markets, a similar feeling prevails there. Besides, the falling off in Argentine shipments has had a stimulating effect on both sides of the water. The world's shipments too, have been light. The reports about the cash trade at Kansas City, Toledo and Minneapolis, as well as Chicago and New York, have all been of a kind to encourage the belief that Europe is beginning to rely more on America for supplies than she did when Argentine shipments were at their height. Some reports that winter wheat has been damaged in shock by rain have not been without their influence, and the French crop, according to some statements, is likely to be below an average. Still, the cardinal factors in the situation have been the Northwestern crop reports and the re-awakening of export business reflected, not only in actual sales of considerable volume, but also in the advance of European markets, which were recently so indifferent to news about the American crop and trade conditions, but which now seem keenly sensitive to occurrences on this side of the water. And this notwithstanding the fact that beneficial rains have fallen in India and that Argentine crop reports are favorable, while receipts at the Northwest have latterly been increasing. The idea of many is that the American crop will all be wanted, that Europe's yield will be below an average, and that the ultimate destination of prices is a considerably higher level. To-day prices were easier in the main, owing to further rains at the Northwest, increasi

Indian corn futures have advanced with the trading more

and Indiana, active buying by cash interests and covering of shorts. Commission houses have been good buyers of the distant months. The cash market has been strong and the distant months. The cash market has been strong and active. Receipts have been light and supplies of contract grade are small. Hot, dry weather at the Northwest is said to have caused considerable damage. Some very favorable crop reports have been received of late, but bears have shown no disposition to sell aggressively. To-day prices declined early on good weather and realizing, but rallied later on bullish crop reports and covering of shorts.

GOVERNMENT WEEKLY WEATHER REPORT.—
Mr. James Berry, Chief of the Climatological Division of
the United States Weather Bureau, made public on Tuesday
the telegraphic reports on the weather in the various States
for the week ending July 13, summarizing them as follows:

for the week ending July 13, summarizing them as follows:

The week ending July 13 1908 was generally favorable as to temperature and sunshine. Over most of the districts east of the Rocky Mountains the week opened comparatively warm, followed by several days of cool weather, and ended with temperature generally above the normal, especially over the Atlantic Coast districts, where intensely hot weather prevalled on the 12th. West of the Rocky Mountains the week was generally one of unusual warmth. The sunshine was somewhat deficient over the lower Mississpip I Valley, portions of Texas and in Colorado and New Mexico, but over the remaining districts it was ample for all needs and in most of the Plateau and Pacific States the amount of sushine showers occurred locally in eastern Nebraska, eastern Kansas, portions of Texas, the lower Mississpip I Valley, the southern Appalachian Mountain region and over portions of the east Guif States and portions of New York. Drought continues with increasing severity over most of New England, and rain is badly needed over the Atlantic Coast districts as far south as Virginia and westward over the Ohlo Valley to Illinois. In the Mississpip Valley the precipitation was generally deficient, but the moisture in the ground is sufficient for present needs. But little rain occurred over the districts west of the Rocky Mountains, and rain is badly needed in unirrigated districts. Some damage from hot winds occurred in North Daktota and from hal in southeastern Wyoming and scattered localities in Utah, Arizona and New Mexico.

The statement of the movement of breadstufft to market as

The statement of the movement of breadstufft tomarketas indicated below are prepared by us from figures collected by the New York Produce Exchange. The receipts at Western lake and river ports for the week ending last Saturday and since Aug. 1 for each of the last three years have been:

THE DRY GOODS TRADE.

New York, Friday Night, July 17 1908. An indication of the severity of conditions in the drygoods trade during the past six months is to be found in the semi-annual report of the H. B. Claffin Co., issued during the week, announcing a net trading loss during that period of \$7,436, compared with a profit during the corresponding six months of last year of \$454,275. It is interesting to note, however, that the directors of the company believe that the worst is over and that from this time on they look for a steady improvement, owing to "the fact that the retail trade throughout the country has pretty thoroughly disposed of surplus stocks." Trading in the primary cotton goods market showed some slight improvement during the week, but was still of only small proportions. During the early days, some weakness developed, owing to forced sales to prevent accumulations, principally of gray goods, but towards the close an advance of ¼c.in the price of staple prints, to go into effect July 28, had a steadying influence upon the whole market. Agents have generally been instructed not to accept orders for future delivery at current prices, as manufacturers claim that they cannot sell goods at the present level except at a loss. Rather than do so, the number of mills that have shut down, particularly in the South, is greater than at any time since the depression began. The high price of the raw material and the severe curtailment of production will be the two most important influences on the market when the jobbing demand revives. Rather more activity is looked for next week, when a number of buyers will be in town for the purpose of attending the influences on the market when the jobbing demand revives. Rather more activity is looked for next week, when a number of buyers will be in town for the purpose of attending the Trade Convention. The export markets have again quieted down, and business has been on a much smaller scale than during recent weeks. The principal feature of the men's wear woolen and worsted goods market has been the opening by the leading interest of a number of lightweight lines at much lower prices than had been anticipated. The dressgoods market continues very quiet. goods market continues very quiet.

DOMESTIC COTTON GOODS.—The exports of cotton goods from this port for the week ending July 11 were 5,141 packages, valued at \$252,718, their destination being to the points specified in the table below:

	-	1908	1	907
		Since		Since
New York to July 11.	Week.	Jan. 1.	Week.	Jan. 1.
Great Britain	25	465	9	1,104

Other countries	566	10,365	511	17,040
Total	5.141	98.753	8.550	110,383

Total 5.141 98,753 8,550 110.383
The value of these New York exports since Jan. 1 has been \$6,327,108 in 1908, against \$6,168,928 in 1907.
The expected advance in staple prints materialized during the week these being placed upon a basis of 5c a yard. It is too early as yet to ascertain what the result of this advance will be, but a large movement will undoubtedly take place between now and July 28, when it becomes effective with jobbers. It is admitted that buying at the old level of 434c, which has been in effect since last May, has been on a fairly large scale, and that in some instances production is taken care of for some time to come. Prior to the announcement of this advance, the gray goods market had shown decided weakness, prices being quotably 1/8c to 1/4c

lower, due to the anxiety of certain holders of spot goods to prevent accumulation. At the end of the week, however, sellers were firmer in their views, and while there was no selfers were firmer in their views, and while there was no actual advance in prices, they were not so willing to self at the low levels. Heavy brown drills and sheetings were occasionally slightly easier, and orders were only for small lots for immediate delivery for filling in purposes. Lightweight sheetings were steady, and in only moderate request. Prominent lines of bleached goods sold fairly well, and prices were firmly maintained, but low-count goods were quiet and barely steady. Coarse, colored cotton goods remain unchanged. Linings are quieter. There has been some good reordering of staple ginghams, but fine dress ginghams show little activity.

some good reordering of staple ginghams, but fine dress ginghams show little activity.

WOOLEN GOODS.—Considerable satisfaction was expressed in drygoods circles at the action of the American Woolen Co. in squarely meeting the changed conditions and opening their new lightweight men's wear woolen and worsted lines at more severe reductions compared with last year than many had in any way looked for. While no official list of prices has been given out for publication, it is stated on good authority that the reductions range from 10 to 25c a yard on goods costing between \$1.20 and \$1.75, the lower price goods being the ones most radically revised. On the other hand, cloths made of fine wools have either been left unchanged or have been only very slightly reduced. That the policy of the company has been approved by the trade is attested by the fact that the business so far booked has exceeded the expectations of the company's officials; and the outlook for a satisfactory volume of initial buying has consequently considerably improved. Duplicate ordering of heavyweights has practically ceased for the time being, although in some instances a few orders are still being placed. While dress-good manufacturers are making preparations for the new lightweight season, they are not yet in a position to show their lines and will not be for some little time to come. In the meantime, duplicate ordering continues light, with broadcloths practically monopolizing the whole of the demand.

FOREIGN DRY GOODS.—Imported woolen and worsted dress-goods for next spring are beginning to be received here, and it is expected that by the latter part of next week many goods manufactured by prominent mills will be on view. It is believed that lightweight goods will figure prominently and that stripes will again be in vogue. Linens are quiet. Silks show some irregularity, but ribbons are moderately active. Burlap is quiet and manufacturers are watching the effect upon buyers of the Indian Government's estimate that the jute acreage is 28 per c

that the jute acreage is 28 per cent less than last year.

STATE AND CITY DEPARTMENT.

News Items.

Cheyenne, Laramie County, Wyo.—Bonds Declared Valid.

—The State Supreme Court on June 26 held that the \$160,000 water bonds awarded on May 25 to E. H. Rollins & Sons of Denver (V. 86, p. 1545.) were legally issued. The case was certified up to the Supreme Court upon appeal from the District Court.

certified up to the Supreme Court upon appeal from the District Court.

Kansas City, Kan.—Water-Works Legislation Declared Constitutional.—According to the Topeka "Capital" of July 7, Judge John C. Pollock in the United States Circuit Court on July 6 issued an order enjoining the condemnation commissioners appointed for Kansas City from proceeding further with the condemnation and acquirement of the waterworks system of the Metropolitan Water Co. The Court held that the Act of the Legislature authorizing the condemnation proceedings was in accordance with the State Constitution and was general and not special legislation, as claimed by the Water Co., in that its provisions would in time affect other cities than Kansas City. He transfers the whole case, however, from the State courts in Wyandotte County to the United States courts, basing this action on the diversity of residence of the parties to the suit, the complainant company being a West Virginia corporation. The city and water company are given twenty days' time in which to agree upon a price to be paid for the water plant and system or agree upon the personnel of a board of commissioners to be named to make an appraisement of the property and to decide upon an equitable price. If the parties fail to get together within this time the Court will name the commissioners itself and they will be directed to go ahead with the appraisement. The price, when fixed either by agreement or otherwise, must be ratified by the electors at a special election.

New Jersey.—Passaic Valley Sewer Project.—The daily

New Jersey.—Passaic Valley Sewer Project.—The daily papers report that at a conference held July 10 in Newark, ten of the municipalities of the Passaic Valley Sewer District, through their mayors or other official representatives, voted through their mayors or other official representatives, voted to join in a contract to build without further delay or investigation a \$12,000,000 trunk sewer from Paterson to Newark Bay for the purpose of removing the pollution from the Passaic River. The municipalities voting to make the contract were Newark, Passaic, East Oragne, Belleville, Kearney, Harrison, East Newark, Glen Ridge, Bloomfield, Garfield and Rutherford. The representatives from Orange and Nutley stated that they had not been instructed to vote in the matter. Union Township was not represented, but is said to be in favor of the commission's report. Mayor McBride of Paterson, the only city which voted against the plan, stated that his city would join the others in making the contract provided it was ascertained to a certainty that the plan of placing the sewer's outlet near Robbins Reef in New York could be carried out against the opposition that has arisen in New York. He also proposed the building of a disposal plant on the Newark meadows as an alternative to the proposed Robbins Reef outlet. Both of these propositions were voted down. tions were voted down.

Bond Proposals and Negotiations this week have been as follows:

Adena Village School District (P. O. Adena), Jefferson County, Ohio.—Bond Sale.—On July 10 the \$17,500 5% school-building bonds described in V. 87, p. 50, were awarded to the Security Savings Bank & Trust Co. of Toledo. Maturity \$500 each six months from March 15 1910 to March 15 1927 inclusive.

Albany, N. Y.—Bond Sale.—Of the \$200,000 water and the \$300,000 River Front 4% 20-year registered improvement bonds described in V. 87, p. 50, the National Commercial Bank of Albany was awarded \$100,000 at 102.125 and accrued interest and the German Savings Bank of New York City was awarded \$400,000 at 101 and accrued interest. The following bids were also received:

Est.br.33% & Co., New York 100.34
Uni.bn Trust Co., Albany (for the German Sav. Bank of Brooklyn)
par and accrued interest
Mechanics' & Farmers' Sav. Bank, Albany 100.062
First National Bank, St. Johnsville 310,001 for 310,001

A bid was also received from the Albany City Savings Institution of Albany.

Alliance, Stark County, Ohio.—Bond Sale.—The following bids were received on July 10 for the four issues of improvement bonds, aggregating \$29,800, described in V. 86, p. 1602:

\$17,000 \$29,800, described in V 86, p 1602:
\$17,000 \$2,500 \$3,000 \$1,30 \$1,30 \$1,50

 $\$120,000\ 5\%$ coupon bonds. Date April 10 1907. Interest annually in Angleton. Maturity April 1 1947, subject to call after April 10 1927.

Ashley (P. O. Wilkes-Barre), Luzerne County, Pa.—Bond Offering.—This borough will offer at public auction at 8 p. m. on July 24 an issue of \$10,500 5% coupon North Main Street paving bonds. Denomination \$500. Interest semi-annually at the Borough Treasurer's office. Maturity \$1,000 yearly from 1909 to 1915 inclusive, \$2,000 in 1916 and \$1,500 in 1917.

Atchison School District (P. O. Atchison), Kan.—Bonds Voted.—By casting a vote of 1,360 "for" to 682 "against", the electors of this district on June 30 authorized the issuance of \$100,000 building bonds. The Clerk of the Board of Education advises us that these bonds will probably not be offered for sale until the proposed improvements are completed and the money is needed.

Athens, Athens County, Ohio.—Bond Sale.—On July 13 the \$10,000 5% coupon sewer-construction bonds described in V. 87, p. 113, were awarded to the Provident Savings Bank & Trust Co. of Cincinnati at 105.32 and accrued interest. The following bids were received:

Prov. S. B. & Tr. Co., Cln. 310,532 00 | Otis & Hough, Cleveland. \$10,461 00 The Dav.es, Bertram Co. 10,524 00 | Hayden, Miller & Co., Clev. 10,417 00 Scason. 200 d & Mayer, Cln. 10,520 00 | New FirstNat. Bk. Col. 10,415 00 Secur. S. B. & Tr. Co., Tol. 10,500 00 | Somerset Bank, Somerset. 10,406 00 S. Kuhn & Sons, Clncin. 10,508 00 | W. R. Todd & Co., Cln. 10,405 00 Well, Roth & Co., Cln. 10,476 60 | W. J. Hayes & Sons, Clev. 10,275 00 Western German Bk., Cln. 10,476 60 |

Maturity \$1,000 yearly on March 1 from 1912 to 1921 inclusive.

Atlantic County (P. O. Atlantic City), N. J.—Bond Sale.
—The Second National Bank of Atlantic City purchased on July 6 \$25,000 4% building-improvement bonds at par and accrued interest. Denomination \$5,000. Date July 1 1908. Interest semi-annual. Maturity \$5,000 yearly on Jan. 1 from 1910 to 1914 inclusive.

Avon, N. Y.—Bond Sale.—On July 14 the \$15,000 1-30-year (serial) registered refunding water bonds described in V. 87, p. 113, were awarded to the Rochester Savings Bank of Rochester as 4.25s. The following bids were also received:

W. J. Hayes & Sons, Boston, bld 100.05 for 4.40s.
Elmund Seymour & Co., New York, bld for 4.40s.
S. A. Kean, Chicago, bld for 4.45s.
Isaanc W. Shertill, Poughkeepsic, bld for 4.50s.

Aylmer, Que.—Debenture Offering Postponed.—The offering of the \$8,000 debt-consolidation and the \$25.000 sewering of the \$8.000 debt-consolidation and the \$25.000 sewer-installation 5% coupon debentures which was to have taken place June 20 (V. 86, p. 1481) has been postponed to July 20. Proposals will be received by J. G. McDermott, Secretary-Treasurer. Denomination \$1,000. Interest May and November at the office of the Secretary-Treasurer. Maturity of \$8,000 issue is Nov. 1 1957, of \$25,000 issue May 1 1957. These debentures are not taxable. Debenture debt at present, \$2,950. Floating debt, \$7,000. Assessed valuation 1907, \$419,270. Exempt property valued at \$119,175.

Balsam, Itasca County, Minn.—Bond Offering.—Proposals will be received until 3 p. m. July 25 by F. L. Norman, Town Clerk (P. O. Grand Rapids, Minn.) for \$10,000 coupon road and bridge-construction bonds. Authority election held June 20 1908. Denomination \$1,000. Maturity \$1,000 yearly, beginning ten years from date of bonds.
